CONTENTS FOR MARCH 1911.

PART I, IN EXTENSO.

I. REVENUE.

PAGES

SECTION 1—LAND REVENUE.

No. R. 5015-6—R. M. 204-06-7, dated 2nd—

Directing the levy of an acreage cess of 8 annas from the raiyats holding lands under the channels of the Kunigal Tank in the Kunigal Taluk, in commutation of their liability to do the annual maintenance work 1

No. R. 5083-6—L. R. 492-09-5, dated 6th—

Observing that the prohibition laid down in Government Order No. R. 7074-77—L. R. 378-09-1 against the supply of water from the Marikanave channels to lands situated within the limit therein mentioned, applies only to fresh darkhasts for water-supply and amending the order accordingly ... 2

No. R. 5073-82—L. R. 167-10-2, dated 6th—

Defining the limits on the eastern slopes of the ghats in the Hassan District within which the grant of land for cardamom cultivation without the previous sanction of Government is prohibited, in supersession of the limit prescribed in Government Order No. R. 4759-68—L. R. 41-09-9, dated 11th January 1910 3

No. R. 5115—L. R. 164-10-2, dated 7th—

Approving of instructions proposed to be issued by the Revenue Commissioner in the matter of the recovery of the institution fees awarded to Government in pauper suits, in continuation of those contained in the Chief Commissioner's Proceedings of 4th February 1880 ... ... 4—5

No R. 5275-85—L. R. 178-09-4, dated 17th—

Directing that in cases in which the mamul jodi exceeds the revised survey assessment of village service inam lands, the difference be remitted during the currency of the revised settlement 6

No. R. 5475-83—L. R. 103-10-4, dated 27th—

Rejecting the appeal of Marisamiah against the order of the Revenue Commissioner regarding the resumption as tank bed of the portion of land out of the tank bed of Tavarekere village, Nelamangala Taluk, which had been previously granted to the appellant's father on Eksal tenure; and observing that the appellant has no right to complain if he is deprived of a field which had been given only for temporary occupation 7

SECTION 2—LAND SURVEY.

No. R. 5355-64—L. S. 16-10-4, dated 21st—

Sanctioning the introduction of revised settlement in 200 villages which formed the Honnali Taluk at the original settlement but now form part of the present Honnali Taluk and Kumsi Sub-Taluk ... ... 1—32

SECTION 3—AGRICULTURE.

No. R. 4994-5003—Agri. 73-10-2, dated 1st—

Reviewing the Report of the Inspector of Cattle Diseases on the working of the Civil Veterinary Department in the State during 1909-10 ... ... 1—5

PAGES

SECTION 4—FORESTS.

No. R. 5142-4—Ft. 34-09-4, dated 7th—

Ordering the substitution of a new rule for the one contained in Article 128 of the Forest Code 1

No. R. 5248-9—Ft. 120-10-2, dated 15th—

Declaring certain concessions in the Basavankal State Forest, Nagamangala Taluk 2

No. R. 5331—Ft. 117-10-2, dated 20th—

Revising the depôt rates of timber in the districts of Mysore, Shimoga and Kadur, and issuing instructions for the holding of periodical auction sales of timber still left unsold ... ... 3—4

No. R. 5455-64—Ft. 179-09-6, dated 25th—

Stating that it is unnecessary to modify the existing system of leasing the right to collect tangadi barks grown on Government lands, and directing, however, that a clause be inserted in the notification and the lease to the effect that while Government do not demand extra for lands resigned from occupation, the lessees are not entitled to any rebate on account of lands taken up for cultivation subsequent to and during the currency of the lease ... 5

No. R. 5509-12—Ft. 91-10-4, dated 28th—

Directing the transfer of the Navilkodi Kaval, Hunsur Taluk, from the Amrut Mahal Department to the Revenue Department, in exchange for Marur and Hodikekatte Kavals, and requesting the Revenue Commissioner to divide the kaval into convenient sizes and dispose of for purposes of cultivation ... 6

No. R. 5524-5—Ft. 177-09-4, dated 28th—

Declining to sanction the proposal of the Conservator of Forests to credit hulbanni realizations from reserved lands to "Forests" 7

No. R. 5526-34—Ft. 15-10-4, dated 28th—

Sanctioning rewards and presents to certain officers of Government and non-official gentlemen who rendered good service in connection with the Khedda operations of 1909 ... ... 8—9

SECTION 5—REVENUE MISCELLANEOUS.—*Nil.*

II. FINANCIAL.

SECTION 1—GENERAL FINANCE.

No. Fl. 4795-6—G. F. 213-10, dated 13th—

Sanctioning the proposals connected with the distribution of work now done by the State Huzur Treasury between the Bangalore District Treasury and the Comptroller's Office 1

No. Fl. 4854-63—G. F. 297-10-2, dated 17th—

Reviewing the Report on the Resource Operations in the State for the year 1909-10 ... ... 2—7

No. Fl. 4992-5000—G. F. 317-09, dated 27th—

Reviewing the annual statements of Loans and Advances received from the Comptroller for the year 1908-09 ... ... 8—17

SECTION 2—SEPARATE REVENUE.

No. Fl. 4698-708—S. R. 45-05, dated 4th—

Passing orders in a case of embezzlement of Government money by special shroff Venkataramaiya of the Kolar Taluk ... ... 1—4

No. Fl. 4717-26—S. R. 105-10, dated 6th—

Defining the procedure to be adopted in sending parcels of general and Court-fees stamps, receipt labels, postage stamps and three-pie papers, from the District to the Taluk Treasuries 5

PAGES

No. Fl. 4980-9—S R. 116-09, dated 25th—

Prescribing revised rates of tree-tax to be adopted from the 1st July 1911 and directing the same to be collected in two equal instalments 6

SECTION 3—BANKING.

No. Fl. 4906—B. 33-09-6, dated 18th—

Sanctioning the starting of a Family Pension Fund as an adjunct to the Mysore State Life Insurance Scheme and approving of the rules proposed for working the same ... ... 1—10

SECTION 4—SALARIES AND ALLOWANCES.—*Nil.*

SECTION 5—CIVIL ACCOUNTS.—*Nil.*

SECTION 6—CENSUS.—*Nil.*

III. JUDICIAL AND LEGISLATIVE.

SECTION 1—LEGISLATION.

No J. 2181-8—Legis. 9-10, dated 1st—

Reviewing the Reports on the working of the Mysore Merchandise Marks Regulation, I of 1892, during the year 1909-10 1

SECTION 2—COURTS.—*Nil.*

SECTION 3—PRISONS AND JAILS.—*Nil.*

SECTION 4—REGISTRATION.—*Nil.*

SECTION 5—POLICE.—*Nil.*

IV. LOCAL FUNDS AND SANITARY.

SECTION 1—LOCAL BOARDS.

No. 7161-6—L. B. 375-08-10, dated 1st—

Sanctioning the continuance of the allowances at the rates now drawn by the establishment of the Sanitary Board and the police at the Kolar Gold Fields independently of the Government Order of the 15th December 1904 ... 1

No. 7451-8—L. B. 209-09-13, dated 13th—

Passing orders in the matter of supervision of Unions by individual members of the Panchayet 2

No. 7508-48—L. B. 337-09-6, dated 15th—

Sanctioning the establishment of another toll-gate on the Hassan-Arsikere road at its junction with the Arsikere-Channarayapatna road with effect from the 1st July 1911 3

No. 7691-704—L. B. 86-10-33, dated 20th—

Reviewing the District Fund Administration Reports and Accounts for the year 1909-10 ... ... 4—24

SECTION 2—MUNICIPAL.—*Nil.*

PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 2nd March 1911.

READ—

(1) Subject No. 500 of the Representative Assembly Proceedings of 1906, regarding repairs to the main and distributary channels of the Kunigal Tank.

(2) Letter No. 4918, dated the 29th September 1910, from the Revenue Commissioner in Mysore, forwarding a copy of letter No. 173, dated the 8th September 1910, from the Deputy Commissioner, Tumkur District, furnishing particulars as to the number of raiyats holding lands under the Rambana channel of the Kunigal Tank, the number of raiyats who are willing to pay an acreage cess of 8 annas in commutation of their liability to maintain the channels and the number who are unwilling to pay it, and also the extent of land severally held by all the raiyats, and recommending that the Deputy Commissioner's proposal to levy the cess may be sanctioned in view of the difficulties existing in the case of the channel in question.

ALSO—

Unofficial Note No 9, dated the 8th November 1910, from the Revenue Commissioner in Mysore, explaining why the preparation of the Hanchige Patti is delayed.

No. R. 5015-6—R. M. 204-06-7, DATED BANGALORE, 2ND MARCH 1911.

ORDER THEREON.—An estimate for Rs. 6,740 was sanctioned in the Public Works Department in April 1909 to repair the channels which were out of order, but the work has not yet been started as the question of the levy of an acreage cess from the raiyats in commutation of their liability to maintain the channels after their repair has not been finally settled. It is seen from the statistics furnished by the Deputy Commissioner that out of 180 persons holding about 450 acres of land, 102 persons holding about 252 acres are willing to pay the cess and the rest are unwilling to pay it. The Deputy Commissioner states that till the channels are repaired and demarcation stones are fixed to mark grade and mileage and the dimensions of the top and sides of the bund are known, the Hanchige Patti cannot be prepared.

2. The Revenue Commissioner agrees with the Deputy Commissioner and is of opinion that if the repairs are carried out by the Public Works Department, the Revenue officers will be able to prepare the Hanchige Patti and by prompt enforcement of the obligations of the recalcitrant raiyats convince them of the advantage of paying the cess in lieu of their liability to maintain the channels.

3. Under the circumstances the levy of an acreage cess of 8 annas is sanctioned. The Chief Engineer is requested to issue orders for the necessary repairs to the channel being carried out at a very early date. The Deputy Commissioner will have the Hanchige Patti prepared as soon as practicable and inform each of the dissentient raiyats who have not agreed to pay the cess what his share of the work is and take steps to enforce his responsibility if he neglects to do the work and refuses to pay the cess. Local officers should both by means of persuation and vigorous action in case of default endeavour to bring home to the recusant raiyats the advantages of having a uniform system of carrying out the repairs of the channel. The amount of cess should be regularly recovered every year from the consenting raiyats and their share of the annual maintenance work duly carried out by the Public Works Department.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Chief Engineer of Mysore.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 6th March 1911.

READ—

Petition dated the 16th July 1910, from certain Mahratta raiyats holding lands under the Marikanave channels, complaining that the Amildar has prohibited the supply of water for the cultivation of their lands and praying for the issue of orders to give them the required supply of water.

2. Correspondence ending with D. O. No. 1490, dated the 20th September 1910, from the Deputy Commissioner of the Chitaldrug District, stating that the lands owned by the petitioners were granted only for the cultivation of Thadi Fasal crops which are raised twice in a year (Karthika and Vaisakha) and that applications for water for such cultivation are renewed by them every year in accordance with para 5 (c) of the resolutions of the conference approved of in Government Proceedings No. R. 4934-6—L. R. 458-05-13, dated the 10th November 1906, and suggesting that as it is not however clear from Government Order No. R. 7074-77—L. R. 378-09-1, dated the 19th April 1910, whether the prohibition of the supply of water to lands situated within 2 furlongs of the Gavatan of the village, etc., applies only to new darkhasts or also to lands to which water was previously supplied, the order of the 19th April 1910 may be amended so as to restrict its application to new darkhasts for supply of water.

No. R. 5083-6—L. R. 492-09-5, DATED BANGALORE, 6TH MARCH 1911.

ORDER THEREON.—Government observe that the order of 19th April 1910 is intended to apply only to fresh darkhasts for water-supply, whether it is for Thadi Fasal or for absolute wet or for conversion of Thadi Fasal into wet. To make it clear, however, Government direct that, as proposed by the Deputy Commissioner, the order be amended by the addition of the words "for which water was not taken previously" between the words "village" and "should" in the 5th line thereof.

2. The order as amended will read as follows:—"In consultation with the Revenue Commissioner and the Chief Engineer, the Government are pleased to direct that the bed of the breached Krishnambudhi tank at Hiriyur should not be disposed of without their special sanction; and also that darkhasts for water-supply from the Marikanave channels, to land situated within two furlongs of the Gavtan of a village for which water was not taken previously should be refused until further orders. In the case of a thickly populated village, containing a population of say, more than 500, this limit may be extended to four furlongs."

3. It is still desirable that the prohibition of wet cultivation now laid down, should be gradually extended to villages where such cultivation exists and the Revenue Commissioner is requested to suggest in consultation with the Deputy Commissioner how this may be easily accomplished, without causing much loss to Government and the land-holders.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Chief Engineer of Mysore.
The Deputy Commissioner, Chitaldrug District.
The Sanitary Commissioner in Mysore.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 6th March 1911.

READ AGAIN—

Government Order No. R 4759-68—L. R. 41-09-9, dated the 11th January 1910, defining the limits on the eastern slopes of the ghats within which the grant of land for cardamom cultivation without the previous sanction of Government, is prohibited.

READ—

Letter No. 5611, dated the 21st November 1910, from the Revenue Commissioner in Mysore, submitting for orders a copy of letter No. 159, dated the 28th September 1910, from the Deputy Commissioner, Hassan District, stating that the limits now fixed practically exclude from the scope of the prohibition some important parts of the Manjarabad Taluk, in which cardamom can be grown, as Hanbal is situated in the northernmost portion of the Manjarabad Taluk and there are very few lands suitable for cardamom cultivation to the west of the prescribed line, and requesting that another line may be fixed from Hanbal southwards through the Manjarabad Taluk to make the prohibition really operative in the said taluk.

No. R. 5073-82—L. R. 167-10-2, DATED BANGALORE, 6TH MARCH 1911.

ORDER THEREON.—The Conservator of Forests who was consulted in the matter proposes that the prohibition against the grant of land in the Hassan District for cardamom cultivation without the sanction of Government may be made to apply to the tract lying to the west of the line drawn from Hanbal to Saklespur and from Saklespur to Hettur in the Yeslur hobli, Manjarabad Taluk. Government consider that the line now proposed will embrace more fully the area in which restrictions against cardamom cultivation are necessary in order to secure the sources of water-supply to rivers and are pleased to direct that it should be adopted in supersession of the one originally prescribed in the Hassan District. The line will practically be the high road connecting the places named.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 5478, dated the 15th November 1910, from the Revenue Commissioner in Mysore, reporting that the instructions contained in the Chief Commissioner's Proceedings No. 8052—J. 167, dated the 4th February 1880, as to the procedure to be followed in the matter of the recovery of the institution fees awarded to Government in pauper suits, do not seem to have been properly understood by the District Officers and submitting for approval a draft of a circular proposed to be issued by him to the Deputy Commissioners of Districts conveying the following further instructions in the matter :—

"(i) When on enquiry it is found that there are no immediate prospects of recovering the amount, it is not necessary to recommend the remission of the amount in question, but the case should be kept on the file and steps taken to keep the decree alive for execution on a future date if there be any chance of the pauper plaintiff coming into property. If it is certain that the pauper plaintiff is not likely to come into possession of any effects, the decree may be allowed to lapse by efflux of time and the matter reported for the information of Government.

(ii) A register should be opened in the District Office in the annexed form, if one is not being maintained and the collection of pauper stamps should be watched from time to time. As a rule, the entries in the register should be examined before the close of each official year to see whether any claims have become barred by time and information should be given in the Annual Administration Report of the number of pending cases (with amount) and the number of disposed of cases (with amount)."

No. R. 5115—L. R. 164-10-2, DATED BANGALORE, 7TH MARCH 1911.

ORDER THEREON.—The draft circular received with the Revenue Commissioner's letter read above is approved.

C. S. BALASUNDARAM IYER,

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 17th March 1911.

READ—

Correspondence ending with letter No. 5732, dated the 1st December 1909, from the Revenue Commissioner in Mysore, requesting orders as to whether the jodi on a Shanbhog or Patel Service Inam land, which is equal to the full survey assessment fixed thereon at the original survey settlement, but is more than the revised assessment, may be reduced to the amount of the revised assessment in accordance with Government Order No. 10991-9—R. 1194, dated the 9th January 1894.

No. R. 5275-85—L. R. 178-09-4, DATED BANGALORE, 17TH MARCH 1911.

ORDER THEREON.—Government observe that it is only in cases in which the mamul jodi exceeds the survey valuation of the village service inam lands concerned, that the holders thereof may become liable for payment of a higher amount than that of the survey assessment as under Rule XXI of the Potgi Rules, if the emoluments derived from the lands are insufficient to provide the salary of the officiators, the balance has to be made good from the Government Treasury. Where the mamul jodi exceeds the survey assessment, the Superintendent of Survey, who was unofficially consulted, reports that it is usual to reduce the former so as not to exceed the latter, during the currency of the settlement and revise it, if necessary, after the expiry of the above period. Government are of opinion that the hardships referred to by the Revenue Commissioner are removed by following the above course and that it is sufficient to remit the excess in the mamul jodi in such cases during the currency of the revised settlement.

2. Regarding the cases of the Naikanhatti Shanbhog in connection with which the above reference has been made by the Revenue Commissioner, the Superintendent of Survey states that the inam lands referred to have no mamul jodi imposed on them and that in revising the potgi in the Challakere Taluk after resettlement, proposals for which are now ready, the amount payable thereon has been reduced so as to correspond with the present revised survey valuation.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 27th March 1911.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 7 of 1910-11.

Appellant—Marisamiah, son of Puttegowda.

Subject.

Appeal against the order of the Revenue Commissioner in Mysore, affirming the order of the Deputy Commissioner, Bangalore District, directing the resumption of 2 acres and 37 guntas of land granted to the appellant's father Puttegowda on temporary tenure out of Survey No. 35 of Tavarekere village, Nelamangala Taluk, classed as kharab and included under the submersion area of Hirekere tank of the said village.

Facts of the case.

The land in question forming portion of the tank bed was granted to the appellant's father Puttegowda for cultivation on Eksal tenure for the year Vijaya (1893). On his application in February 1894 for grant of the said land on permanent tenure, the Deputy Commissioner made a note under date 28th February 1894, that the grant should be only on temporary tenure but it is stated that in the final orders issued to the Taluk in April 1894, it was simply stated that no more lands in the tank bed should be given out for cultivation. No specific orders, however, having been passed in regard to Puttegowda's prayer, he continued in possession of the land till 1907, when the above fact was brought to the notice of the Deputy Commissioner in connection with the darkhast of one Narasimhegowda for grant of 18 and odd acres of land out of the same tank bed. The said officer thereupon ordered in June 1907, that the land in question should be resumed to Government as tank bed, as its grant was opposed to the Rules prohibiting grant of tank beds for cultivation and as besides, it had been granted to Puttegowda originally only on Eksal tenure. On appeal the Revenue Commissioner affirmed the order of the Deputy Commissioner after obtaining the opinion of the Executive Engineer that it was not desirable to permit cultivation of the land in question. Hence the present appeal to Government. The case came up for hearing on 7th March 1911, when the appellant was present and was heard.

Decision.

The orders of the Deputy Commissioner and the Revenue Commissioner are quite correct and the appellant has no right to complain if he is deprived of a field which had been given only for temporary occupation. The appeal is accordingly rejected.

No. R. 5475-83—L. R. 103-10-4, DATED BANGALORE, 27TH MARCH 1911.

Copies of the above are forwarded to the Revenue Commissioner in Mysore together with the records of the case received with his letter No. 5913, dated the 28th November 1910, and to the Deputy Commissioners of Districts.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

I. Letter No. 46, dated 7th September 1910, from D. Shama Rao, Esq., Superintendent of Mysore Revenue Survey and Settlement, submitting his proposal on the revision settlement of the tract which formerly constituted the Honnali Taluk and now comprises parts of the Honnali Taluk and the Kumsi Sub-Taluk.

Report No. 25, dated 18th August 1910.

I have the honor to submit the following proposals for the revision of the assessment of the two hundred Government villages comprised in the old Honnali Taluk of the Shimoga District, the original settlement of which was introduced in the year 1874, having been reported on by Colonel W. C. Anderson in his letter No. 345, dated 25th February 1874, and sanctioned by Government Order No. 320, dated 28th March 1874.

2. *Constitution of the tract.*—The tract under report differs from the Honnali Taluk according to existing boundaries, on account of changes brought about in the year 1882. The fifteen villages of the Kundur magani in the north-east formed no part of it at the original settlement and have been settled along with the villages of the Channagiri Taluk. On the other hand, account must be taken of 56 villages in the south-west, comprised in the Kumsi and Haranhalli maganis, now in the Kumsi Sub-Taluk, these having, at the original settlement, been included in the Honnali Taluk.

3. *Boundaries.*—The tract is situated in the north of the district and is bounded on the north by Harihar Sub-Taluk, south by Shimoga, east by Channagiri and west by Shikarpur Taluk. About twelve miles of the frontier in the north-west abuts on British territory in the Dharwar Collectorate. The greatest length measured from west to east is 27 miles and the greatest breadth north to south is about 19 miles. The Kumsi villages straggling out in the south-west make the line measuring south-west to north-east a long one of nearly 32 miles.

4. *Physical features.*—Hill ranges of no great altitude enclose the taluk on almost every side. Manganese is a constituent of these hills and the ore has, for the four years past, been extracted by mining companies. Some chrome and iron ore are also said to be available. It is said that gold dust was frequently found washed down in a *halla* near Nyamti from the neighbouring heights. Experiments in quest of the precious metal were conducted, off and on, near the Kalverigudda hills, not far from Nyamti, whereabout the gold bearing tract of Honnali, lying within the schistose band called the Dharwar-Shimoga band, is stated to be situated. But the net result has so far tended to discourage further research. The interior is quite free of hills except for a spur of about eight miles thrown in from the Shikarpur side on the west, locally called "Kalverigudda." The river Tungabhadra flows south to north meandering wide in horse-shoe fashion in two places and attracting the drainage from either side of the main body of the taluk. The principal stream within the taluk that contributes to the river is the "Herehalla" with its source in the hills of the late Anantapur Taluk. To the south of the "Kalverigudda" above alluded to, the country begins to change its character, till we come to the Kumsi magani, where well-defined undulations, uplands and ravines come boldly into evidence, and the well-known characteristics (heavy vegetation and copious water-supply) of the borderland of the true malnad country are met with. The greater part of the Haranhalli and Kumsi maganis drain into the "Kumudvati," otherwise called the "Chorudi," which also is an affluent of the Tungabhadra, joining it not far from Harihar.

5. *Forest.*—Honnali is a poorly wooded taluk except in the south-west, where an area of a little over eight square miles is covered by portions of the marginally noted forests. Not much of teak is available here but other timber of superior kinds, such as, matti, honne, beete, etc., and bamboos, are deported in considerable quantities *viâ* Shimoga to Kolar Gold Fields, Tumkur and Bangalore.

1. Kumsi State Forest.
2. Harangatta Forest.
3. Birankere Forest.

6. *Soils.*—The soil in the maganis of Kumsi, Haranhalli and Chinnikatte is such as is commonly met with in malnad tracts, dark gray in colour and sometimes yellowish, with faults of sand, kankar and lack of depth. As we proceed further north, the contrast becomes very pronounced. The Nyamti magani together with the major portion of the Belagutti, Govinkovi and Madenahalli maganis, as also the southern parts of the Honnali magani, have some of the richest soil found anywhere in the Shimoga District, ranging from the deep black *Regur*, in which, the rains being moderate and timely, cotton and javari will flourish to the heart's content, down to the reddish brown of the second order, which ragi and other cereals, as well as pulses, delight in. Further outwards from this central region, the soil degenerates, until, at the borders on the east and north, the colour, texture and ingredients all combine to lower its productivity. To be a little more discriminative, a strip of territory of an average breadth of about two miles along either bank of the Tungabhadra occupies an intermediate position between the decidedly poor soil on the frontier and the excellent soil of the midland maganis alluded to above.

7. *Irrigation.*—It follows from the character of the surface of the country that the opportunities for turning to use the natural drainage should vary largely in different parts of the taluks; and such is actually the case. Whereas, in an area of about 270 square miles of level country, in which there are no large irrigation works at all, the irrigated area barely measures 1,320 acres, the undulating country in the south-west, roughly, the maganis of Kumsi, Haranhalli and Chinnikatte, appropriates almost all the irrigation to itself (8,888 acres). Small tanks, which, as a rule, exhaust themselves generally by February, are pretty numerous in this region. Of large tanks, however, such as those at Kumsi and Haranhalli, there are no more than half a dozen. The most notable of these will be the one about to be completed at Sowlanga, on which Government has expended more than a lakh of rupees. It is formed by bunding across the "Herehalla," where the stream glides between two hillocks. The "Sogula Nala," which draws off from the "Herehalla" near about the new tank at Sowlanga, was laid out about 22 years ago. It irrigates some 1,700 acres in the six villages of Sogula, Mangankoppa, Kanchiganahalli, Ganjiganahalli, Chikyattinhalli and Dodyattinhalli. The "Gubbur Nala," also constructed after the survey settlement, conveys water from the "Kodi" of the Haranhalli tank to a large expanse of low-lying ground in the village of Gubbur. The water in the Sogula Nala does not usually flow long after the north-east monsoon is over, though, till then, it helps the wet and garden lands in its atchkat very materially at the breaks of clear weather during the monsoons. The reserve of water in the Sowlanga tank at the head of the Nala will, no doubt, bring about a much improved condition of things to the villages concerned. I may, in passing, state that the revision classification, on which my proposals are based, has not taken any notice of this prospective state of affairs; the reason for this is obvious, namely, that estimating a water-supply that has not yet been established involves the exercise of so much imagination on the part of the classers, that the work is liable to serious error. The tanks in the taluk cannot be said to have deteriorated as a whole, since the original survey. That they have been well cared for, is proved by the amount of the expenditure incurred by the Public Works Department within the past 25 years. A sum of Rs. 1,20,477 has been spent during this time. This amount is exclusive of the money being spent on the large new tank at Sowlanga.

8. Percolation from the uplands flanking the valleys in the three wet maganis is also a very valuable form in which the necessary sustenance for rice and cane lands is procured. But for this, it would be hard to get the crops to mature as they do, in the tracts not supported by tanks, or where the help from tanks is more nominal than real.

9. Except the gardens in Belagutti and a few neighbouring villages, and some gardens scattered about in the Chatnahalli magani, there is no land to speak of, in the seven other dry crop maganis, that is irrigated by means of wells. But the case is different with the rice and garden fields in the south-west, which derive great benefit from this mode of irrigation. A fair proportion of them in the Kumsi

magani are constructed with care and revetted with stone. In Harnahalli magani, however, it is the rule to dig temporary holes in the ground, and lift the water by "yatas," when the tanks, if any, or the rains, disappoint. Water in these maganis can be had, very generally, within 5 or 6 feet of the surface. It is nothing unusual to find a raiyat making himself independent of the precarious help of a low class tank. Cane growings are treated to water baled up by the yata, or by the hand in pots, until the young crop attains a height of about a foot and a half. The rest is done by the rains themselves, by the moisture inherent in the soil, and by one or two good waterings from the tank, if available. Though lift-irrigation involves hard work for a time, yet the results are sure and gratifying. The river Tungabhadra, with its steep banks, gives no scope for direct irrigation, nor is the water anywhere lifted for gardening purposes. The only benefit it confers so far as crop growing in concerned, consists in the opportunity afforded to raiyats for rearing melons, etc., in patches along the bed in some villages, when the water in the river abates. *The survey books take no account of this class of cultivation*, as it is strictly temporary, the Revenue Department being free to refuse permission, when sanitary considerations render that course advisable.

10. *Crops and cultivation.*—The most important products of the taluk are jola, ragi, rice, other cereals and pulses, sugar cane and cotton. Jola, cotton and some wheat are raised in the Nyamti and Belagutti maganis. The soils here are so good that, in favorable years, two crops are taken off "dry" land. "Hesaru" and "uddu" are generally sown with the early rains, and harvested in October, cotton, jola, wheat or gram would follow. The wheat grown in the drier months is much superior to the monsoon-bred variety, and has obtained recognition at exhibitions. In the red soils prevailing in the other maganis, ragi, togari, yellu, hesaru, as also some jola are cultivated. In the Chinnikatte and the westerly part of the Chatnahalli maganis, dry and wet crops are cultivated with equal success. In the wetter maganis of Harnahalli and Kumsi, rice and sugar cane are grown. Of rice lands of which there are 10,208 acres in the taluk, nearly three-fourths (7,591 acres) is situated in the Kumsi and Harnahalli maganis. Little, if any, of dry cultivation or of "Dhruvapairu Bagayat" is attempted here. There are 555 acres of garden in the taluk; most of this, and certainly the most flourishing gardens, are to be found in the Belagutti magani and in portions of the Chinnikatte and Chatnahalli maganis. There are only 35 acres of garden land in the wet maganis in Groups VI and VII. Though, as I have said before, wells are numerous in the wet crop maganis, still the greater part of them are temporary mud holes, used to supplement the supply from a tank of fair capacity to rice and sugar cane fields. I mention this fact to prevent a misunderstanding of an apparent inconsistency in my having said in one place that there are plenty of wells, and in another, that there is very little Bagayat in the region of these wells. Garden crops consist mainly of betel leaf, supari, cocoanut, and some of the common Indian fruits. Some tolerably good vegetable gardens are situated under the Sogula Nala. The proportion of the different crops raised in the year 1908-09, as furnished by the Amildar of the taluk, is as follows:—

Jola	30·96
Wheat	0·17
Ragi	19·05
Gram	7·58
Rice	7·71
Other cereals	22·29
Cotton	1·04
Oilseeds	8·33
Tobacco	0·02
Condiments	1·31
Garden produce...	0·55
Sugar cane	0·71
Miscellaneous food crops	0·28
Total ...	100

11. *Climate.*—The rain-gauge stations in the taluk are Honnali, Sowlanga and Kumsi. The average rainfall for all the taluk works out to 29·54 inches. But the climatic contrast between different sections is very marked, as may well be expected from the fact that the south-west of the taluk runs into the belt of country that receives a relatively heavy rainfall, while the centre, the east and the north are essentially dry tracts, such as are North Channagiri, Davangere and Harihar. The villages on the fringes along the east and the north-east boundaries are the least favorably situated, where the rainfall is more precarious than elsewhere in the taluk. The existence of two natural divisions in the taluk is attested to by the Director of Meteorology, who in his printed Report for the year 1908 publishes the 39 years' average for Kumsi as 40 inches, and that for Honnali 23·11 inches only. Sowlanga, midway in situation, is correspondingly intermediate in the matter of rainfall, the average, available for 16 years, being 26·83. It is undoubtedly a blessing to the taluk that the portions abounding in black soil are not subjected to anything like the heavy rains incident to places skirting the ghats. Black soil is so highly retentive of moisture that the upper layers, as they dry up, are continually moistened by capillary action from the water held in stock below, thereby helping to keep plant life on the surface beautifully fresh much longer than other classes of soil can. New accessions of water to such soils, while in a state of saturation, can only kill or sicken the crops before their time. Of course, the cardinal thing in all regions, in which dry crop cultivation is the main occupation of the people, is the *timeliness* of the showers, and it cannot be claimed for the plains of Honnali that the rains they enjoy are uniformly seasonable. Such a superb condition of things obtains nowhere. Yet I believe it is a matter of notoriety that such precariousness of rainfall as would seriously affect agricultural prosperity is of rare occurrence in the tract in question, decidedly rarer than is the case with taluks like Hosdurga, Challakere, Hiriyur and Pavagada.

12. *Communications.*—The roads in existence at the original survey were :—

1. The Honnali-Shimoga road, running south from Honnali;
2. The Honnali-Harihar road, going north-eastwards;
3. The Honnali-Ayanur road, south-westwards;
4. Two short roads connecting Kumsi with Harnahalli and Ayanur;
5. A road, under construction at the time, connecting Sowlanga with Shikarpur.

The roads constructed after the settlement are :—

1. The Honnali-Shikarpur road, about due west from Honnali;
2. The Honnali-Channagiri road;
3. Part of the Honnali-Tumbinkatte road, towards the north, that is, the six miles of it which lies within the taluk.

Thus, a moderate addition has been made to the roads existing at settlement time. The taluk has from olden times occupied a position of importance, both on account of its geographical position, communicating as it does with the ghat country on the one side and the plains on the other, as also by reason of its intrinsic excellence in possessing a climate relatively moderate and certain, and abounding in soils of a generous character. The principal communications had consequently all been established in very early times. A want that is felt by traders is the completion of the Honnali-Tumbinkatte road. Six miles of this, that is, so far as it falls within the Honnali Taluk, have been constructed. The rest of the line, about 12 miles in length, lies in the Ranebennur Taluk of the Dharwar Collectorate. The way is at present traversed by a country track, which, during the monsoons, becomes very difficult on account of the prevalence of black soil in the Ranebennur Taluk. I believe it was once the intention of the Dharwar authorities to construct this part of the road; but they now seem to have abandoned the idea. Another complaint is sometimes heard, coming from the merchants at Nyamti, that a road connecting Nyamti directly with Shikarpur is badly wanted. But this is essentially a cry for a luxury, for the making and maintaining of such a route would be expensive, as it must pass over some very rocky country on the west border; and further, the road, even if it were laid out, could not effect much saving in distance.

Revenue (Land Survey), dated 21st March 1911.

It would fall between the Honnali-Shikarpur road on the one hand and the Sowlanga-Shikarpur road on the other. The difference in the length to be travelled would be about three, at most four miles, whilst the route proposed would be unconscionably expensive, and probably more injurious to wheeled conveyances than either of the others. A good road connecting Nyamti with Belagutti, which is a centre of some importance, would, however, fall well within the strength of Local Funds, and would be useful. An ancient grievance to the traffic along the Honnali-Harihar and the Honnali-Channagiri roads is in relation to the really trying bit of journey across the bed of the Tungabhadra river. In the monsoon season when the waters run high, the difficulty, ordinarily great, is much enhanced. A bridge is always being talked about, but never accomplished. No doubt the cost would be heavy if one were constructed, but the relief to the population would also be very noteworthy. Very fair country tracks are in abundance all over the taluk. Though not directly connected with territory comprised within the taluk, the Harihar-Bangalore Railway line as also the branch line from Birur to Shimoga must be classed among communications having a very important bearing on the trade of the taluk. The Harihar and the Shimoga Stations, each about 28 miles distant from Honnali, are the most frequently resorted to. A Light Railway for the carriage of manganese ore from Chordi near Kumsi, where the principal mine is situated, to Shimoga, has been in good working order for the past three years. The line is altogether about 28 miles long, and runs south from Chordi skirting the west border of Shimoga Taluk and then turning eastwards to Shimoga.

13. *Markets.*—The market places within the taluk are Nyamti, Honnali, Chinnikatte, Cheelur, Sasivehalli and Sowlanga. Though a town of modern origin, having been founded in the beginning of the 19th century, Nyamti is the abode of the wealthiest in the taluk, a good part of their riches having been made at the cotton crisis, during the American war. The merchants here are ever busy with taking up the produce of the malnad taluks to be sold in the open country, and *vice versa*. The market at Honnali ranks next in importance; the others are more or less insignificant. The fair at Sowlanga is quite a puny affair, improvised as a temporary measure to suit the people working on the tank under construction there. The markets beyond the confines of the taluk are, however, of immense benefit to the people. These are held at Ayanur in the Shimoga Taluk, Shimoga Town itself and Tumbinkatte in the Ranebennur Taluk in the north. Ayanur is a place to which the surplus produce of every adjoining taluk, and some of the more outlying taluks is brought and readily disposed of. It may be called the toll-gate of a large area in the north of the Province including taluks both maidan and malnad. It is about 9 miles from Sowlanga and 3 miles from Kumsi. The people of Honnali take great advantage of it. Rice, ragi, javari, pulses and butter pour in, in large quantities, from all quarters. The patronage to Tumbinkatte, notable at the time of the settlement, has somewhat dwindled during the past years, especially since Shimoga was linked to the Southern Mahratta Railway. Shimoga is resorted to when direct export to Bangalore or Madras is undertaken.

14. *Exports and imports.*—The exports consist of ragi and jola, chiefly towards Kagar, Sagar and Shikarpur; til, hides, jaggory and butter towards Davangeri, Dharwar and Shimoga. The imports are, chiefly, rice and jaggory from the malnad taluks, piece goods, oil and salt from the Bombay and Madras Presidencies, and cocoanut from Birur and Tiptur.

15. *Manufactures and Industries.*—Kambli and coarse cotton cloth are manufactured in the villages. These are almost all used up by the people of the taluk. Cotton-growing in the Nyamti and Belagutti maganis gives scope to spindle and loom work. Of cotton looms there are 210 in the taluk. The Kambli looms are 48 in number. There are also 65 goldsmith shops, and 98 sugar cane mills in the taluk. The practically wasted industry in the quest for gold has been alluded to in a previous para. The most significant event in the direction of industry that ever took a hold on the landless classes, and partly also on the land-holding population, was the starting of the manganese works, some four or five years back, near the town of Kumsi. For a time, many thousands were earning handsome wages, and some of the cultivators of Kumsi and surrounding villages

had given up their hereditary occupation at the call from the mines. A good deal of rice land lay fallow for the first two seasons. However, that enthusiasm has cooled down of late; the prospects of manganese having, after the first flash, settled down to reasonable proportions, there is now a reduction both in the number of the workmen employed, as also in the rates of the wages paid. Nevertheless this new industry must in all reason be reckoned on for an indefinite future as a factor which will have a bearing on the condition of the raiyats of Honnali and Shimoga Taluks.

16. *Sales and mortgages.*—I have had 1,030 cases of sale of land examined, in which the aggregate amount of sale money is Rs. 1,40,058. The total survey assessment on these lands being Rs. 9,642, the ratio of sale amount to assessment works out to 17. The ratio in the case of mortgages is 15, the transactions being 582 in number, the loans aggregating Rs. 1,25,603, and the assessment amounting to Rs. 7,303. These figures argue favorably as to the estimation in which land in the taluk is held.

17. *Prices.*—I need make no apology for not expounding the question of prices of produce at any great length. The subject has been looked at from all standpoints, over and over again, in the Revision Settlement Reports hitherto submitted by the Survey Department. The net conclusions so far arrived at may be briefly stated as being:—

(1) The evolution of prices, and the comparison between them as obtaining at different periods, do not admit of being treated to precise mathematical calculation, but valid and useful conclusions, expressible in general terms, are available.

(2) The prices of most staple food grains and other kinds of agricultural produce have risen by 30 to 40 per cent at the least, within the last three decades.

(3) Though prices are subject to fluctuations, these fluctuations are never so enormous as to produce a really grave disturbance in the main tendency of prices towards ascension.

(4) That the vast improvement in communications, and the general security procured to the people by Government, have called into being a strong and rapid economic movement, by which prices in the most remote taluks are lifted to the level at which they stand in the rest of the Indian continent.

These truths are readily illustrated by the course of prices in the tract we are considering. Taking the past 30 years into account, we obtain results as set forth in the annexed table. The figures for 20 years (1886-1905) are taken from the compilation of the Director of Statistics, page 4, Supplement to the Mysore Government Gazette, dated the 16th August 1906. The average for the five years preceding 1886, as well as that for the three years following 1905, are obtained from the Amildar.

Years			Seers per rupee		
			Rice	Ragi	Jola
1881-86	...	...	15·20	35·80	34·00
1886-90	...	...	11·85	42·95	32·65
1891-95	...	...	8·74	31·55	26·08
1896-00	...	...	7·93	24·98	20·74
1901-05	...	...	8·56	29·94	23·75
1906-09	...	...	6·75	18·75	17·00

The tendency towards enhancement of prices, as also the limits of such enhancement, are clear from the table. A fluctuation is to be noted for the average of the five years 1901-05, which was due, among other causes to a succession of very good harvests. Jaggory alone, of the principal products of the taluk, fails to show a correspondingly progressive increase. The following table illustrates how this article has fared:—

Years	1874-79	1879-84	1884-89	1889-94	1894-99	1899-04	1904-09
Rate per maund ..	Rs. a. p. 1 10 11	Rs. a. p. 1 11 4	Rs. a. p. 1 5 2	Rs. a. p. 1 10 8	Rs. a. p. 1 14 5	Rs. a. p. 1 13 4	Rs. a. p. 1 14 6

Thus, the price at the last quinquennium is a little over 11 per cent in advnace of the price at the first quinquennium. Cheap sugar is imported from many directions into India, which circumstance keeps the price of the indigenous stuff low.

18. *Results of revision survey.*—There were 14,803 survey numbers at the original settlement, which have now become 15,961, showing an increase of 1,158 numbers. Further details are seen in the appended table.

Kind of land	By former survey Acres	By present survey Acres	Difference +or— Acres
Arable dry crop land ...	119,381	119,126	—255
Rice or wet land ...	11,971	11,957	—14
Garden land ...	716	778	+62
Unarable land ...	103,024	104,000	+976
Total ...	235,092	235,861	+769

The area by revision differs from that by original survey by only 769 acres or 0·32 of an acre per cent. The difference, being so insignificant, calls for no remark and is due to correction of either faulty measurement in the field, or of clerical errors discovered during the monsoon Tapasani work. The area of dry crop land has shrunk by 255 acres. The inclusion, under the head of "Kharab," of margins along new roads, tank bunds and such like cases accounts for this. The wet extent may be said to be stationary.

The bagayet has increased by 62 acres, notwithstanding the transfer of about 60 acres to the head of rice land, showing that unfavorably circumstanced gardens have, during the term of the settlement, been freely abandoned for fresh gardening where the chances of success were better. The unarable area has increased by 828 acres, lands taken up for public purposes other than agriculture, margins to old roads, tank bunds, roads themselves newly formed, etc., having contributed to this result. Revision classification confined itself to examining the water-supply to wet and garden lands, excepting in the case of new numbers, made out of old kharab land for cultivation, where the soil had to be classed for the first time.

19. *Population.*—The population of the tract at the four Census periods, commencing from the year 1871, was as shown below:—

1871	62,238
1881	58,206
1891	65,748
1901	71,379

The loss at the great Famine is denoted by a deficit of 4,032 persons or 6·4 per cent at the Census of 1881. The suffering in the taluk was evidently moderate in character, as compared with the generality of maidan taluks in the State. It may be said that this relative immunity was owing partly to the favorable position of the tract with reference to the principal lines of communication creating facilities for the import of food stuffs and its distribution among the poorer classes of the people. It may also be stated that the good fortune of Honnali at the time was due in part to its well-established connection with the malnad, which, though nowise capable of an exuberance of export, was still in a position to do some good to bordering maidan taluks in distress. These reasons are valid so far as they go, but they do not fully explain the striking immunity which the tract enjoyed as compared with others, such as Tumkur Taluk, that are even more favorably situated. I believe this remarkable staying power to have been due essentially to the prosperous condition of the people as resulting from the fertility of the soil and the goodness of the climate, coupled with the fact that the rates imposed at the survey settlement were unquestionably moderate and easily borne. The raiyats of the taluk have always been a well-to-do people and were possessed at the Famine of a stock of food grains and other property, as well as of credit, that helped them far in stemming the tide. At the last Census, the population had more than recovered itself, the excess over that of 1871 being 9,141 or nearly 14·7 per cent,

20. The area of the tract, exclusive of alienated villages, being 369 square miles by revision survey, the density per square mile in 1901 works out to 193 against 144 at the original settlement of 1871. If, however, the culturable area alone be taken into account, the population of the Honnali Taluk is found to be 346 to the square mile, against 242 at the original settlement. This compares favorably not alone with that of the Mysore Province as a whole, but also with the average density of a good many well-populated maidan taluks.

21. Lingayets, of whom there are 7,319 in Honnali Taluk, according to the Census of 1901, are almost all engaged in agriculture, so are also the Vakkaligars and the Bedas who number 20,927 and 6,672 respectively. A distinctly useful element are the half wild, but strong, intelligent and cheerful-minded class known as the Lambanis, of whom there are 3,531. I should state here that the figures relating to castes refer to Honnali Taluk as it is constituted at the present day, which differs from the tract with which this report deals, by the inclusion of 15 villages of the old Channagiri Taluk, and the exclusion of 56 villages now in the Kumsi Sub-Taluk, for which separate figures are not available in the Census tables. It is obvious that if such figures could be had, the number of persons under each caste would exceed the figures given above.

22. The people generally enjoy excellent health. The residents of the open parts of the taluk are strong and sturdy. Those living in the semi-malnad regions are so in a less degree. Occasional epidemics of cholera and latterly of plague have taught their usual lesson. But apart from these, and a slight disposition to spleen disorders in some villages in the south-west, the health of the taluk must be pronounced to be decidedly favorable.

23. *Agricultural resources.*—The following table compares the existing agricultural resources with those of the past, and I think it will be admitted that the fact of the prosperous condition of the tract, to which I have alluded in what has been said before, is quite in keeping with the substantial increase, which the following figures show to have accrued to the prosperity of the community. In respect of these figures also, I am obliged to enter a caution against their being accepted as being absolutely correct. But I make no hesitation in saying that they correspond to the truth very closely, so as to allow of a very fair idea being formed of the progress of the tract in question. They ary such as were collected by the classers in each village.

Items		At original survey	At revision survey	Increase	Percentage of increase	
Houses	Tiled	1,643	3,790	2,147	131	+45
	Mud-roofed	406	591	185	16	
	Thatched	9,291	12,060	2,769	30	
Horned cattle		60,860	64,563	3,683	+6	
Carts	Halli	363	1,407	1,044	288	+197
	Chakra	1,241	3,316	2,075	167	
Waddar carts			43	43	.....	
Ploughs		8,029	10,776	2,747	+34	

24. It will be seen that all classes of houses have increased, notably the tiled variety, which shows an increase of 2,147 or 131 per cent, proving the improved circumstances of the people. There has been an addition of 3,683 horned cattle. The carts have increased by no less than 197 per cent, and ploughs by 34 per cent, within the past 30 years.

25. *Revenue history.*—I give in Appendix A, so far as information is available, a figured history of the annual realization and remission of kandayam in the taluk, as also the extent of land of each kind that has been in occupation. An abstract of the appendix is given here for quinquennial periods.

Revenue (Land Survey), dated 21st March 1911.

Year	Government occupied land								Remission	Amount realized
	Dry		Wet		Garden		Total

26. The years, and the amounts of the highest and the lowest realizations, as compared with those of the years of original settlement, are given below :—

Year	Realizations after deduction of remissions, if any Rs.	Percentage of difference from 1874-75, the year of settlement	Remarks
1874-75	91,005		
1879-80, the year of lowest revenue	84,867	—7	Famine period.
1902-03, highest revenue ...	1,13,859	+25	

27. The only entries that disfigure the remission column, relate to a few hundred rupees foregone by Government during the famine of 1878-9 and of one or two succeeding seasons, when the poorest of the raiyats, on whom the stroke had

naturally been the hardest, had not as yet emerged from the resulting depression. After that point, however, for an interval of nearly 30 years, the sheet is clean, and not a rupee of remission was called for. The rate of increase in cultivation also has during this period been very gratifying. It has come up to 33 per cent of the land occupied at settlement time, and the steady advance of the increase for 30 years from 1881-82, as exhibited in the appendix, bears no mark suggestive of any tangible relapse in the future. The next point I would call attention to is the variation in the extent of unoccupied land under the three heads dry, wet and garden, which follow the same line faithfully as occupied land: what was 32,192 unoccupied acres at original settlement is now reduced to 16,784, or by 50 per cent nearly. An eloquent story of well-being is told by these figures, induced by the propitiousness of the physical conditions in which the people live, and the lightness of their burdens.

28. *Grouping and maximum rates.*—I may now pass on to the main object of this report, the setting forth of proposals for the revision of assessment in the taluk. The first step we take in this matter is, of course, towards determining the class, high, low or intermediate, into which each village as a whole is to be placed. Happily, we have not to make any new adventure in this direction, and are in a position to avoid the danger attendant on innovations in a very delicate part of our operations. The grouping of villages at the original survey has been effected with consummate care and I find that the lapse of 35 years has wrought no such change as to necessitate any interference at the present time. The villages have been divided into seven groups with reference to dry rates, and into three with reference to wet rates on a consideration of the condition of different tracts, as determined by factors such as communications, climate and population. No doubt, the position of some of the villages has somewhat improved, at least by reason of the roads laid down since the settlement took place, but I do not believe that the benefit thus derived is so great, in a level country with a net work of very fair country-tracks, such as is the Honnali Taluk, as to justify the sudden large increases in assessment that a change from a lower to a higher group would involve, when combined with an advancement in the maximum rates. The annexed table exhibits details of the original grouping which I intend to retain, and the maximum rates now proposed for dry and wet fields, as compared with the maxima adopted at the original settlement.

Group	Number of villages		By original survey		By revision survey	
			Maximum dry rate	Maximum wet rate	Maximum dry rate	Maximum wet rate
1	2		3	4	5	6
			Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

		5	1 0 0	5 8 0	1 2 0	5 8 0

29. In explanation of the grounds on which the groups were settled, it is appropriate to quote here paras 29 and 31 of Colonel Grant's letter No. 293, dated 1st May 1873, in which the settlement proposals were formulated. He wrote in connection with the grouping for dry crop fields:—

Revenue (Land Survey), dated 21st March 1911.

"The first group consists of villages situated close to Nyamti, and on the high roads which traverse the tract of country intercepted between the rice country and the Tungabhadra river, which, as I have already stated, I consider the most fertile and favourably situated part of the taluk. The villages of the second group are in the same tract as group I, but are not so favourably situated with reference to roads and markets. The third group of villages comprises chiefly villages to the east of the Tungabhadra, out of the tract just described, and not so well situated with reference to roads and markets as the villages of the 1st and 2nd groups, although the climate is very little inferior; in the 3rd group, are also a few villages among the hills, where dry crop cultivation begins to give way to rice cultivation. The fourth group comprises all the hill villages near the boundary of the Harihar and Channagiri Taluks, and also a few villages in the more inaccessible parts of the Belagutti and Chatnahalli maganis. The 5th, 6th and 7th groups comprise the three wet maganis, the 5th group comprising nearly the whole of the Chinnikatte magani, where dry and wet cultivation about equally engage the attention of the raiyats. The remaining two groups are essentially rice country, some of the villages well situated with reference to roads, occupying a higher place than they otherwise would have done."

30. In justifying the wet maxima, he says:—

"The fourteen villages of the 1st class are the most prosperous and best situated villages in every respect, of the rice country so often alluded to in this report. They include Kumsi, Haranahalli and other villages at no great distance from these large towns. The second class villages are in the same tract, but somewhat less favourably situated with reference to means of communication. The remaining 158 villages represent the 9 dry crop maganis and a few of the villages of the rice tract, which are unfavourably situated; these latter are chiefly in the Chinnikatte magani, which is badly off for roads, and where the climate is somewhat inferior to that in the 1st and 2nd class groups."

31. The rationale is set forth in these lines of a grouping, which, in a tract of simpler conditions, would be characterised as unnecessarily minute; but, as I have said before, so well had this classification been adjusted to the then existing circumstances of the different villages, and so little have these altered since the settlement that, in my opinion, any interference now may only result in abnormal increases or decreases, causing discontent which it is both right and easy to prevent.

32. *Dry and wet maxima.*—It will be seen on comparing column 3 with column 5 in the table above at para 28, that the maximum dry rates for the first three groups have been increased by 6 annas and those of the last two groups by 2 annas only. The latter consist essentially of rice-growing tracts, in which dry crop is not attended with the success met with on the maidan side, where the rainfall is more moderate and the soils more generous. A large enhancement, if imposed, would act as a check on such dry crop cultivation as obtains in the Kumsi and Haranahalli maganis. The maxima of the 4th and 5th groups, which include villages on the borderland between the maidan and malnad portions, have been enhanced by only 4 annas.

33. In the case of the wet lands, I do not consider there is any occasion to alter the old maximum of Rs. 5-8-0 for the 158 villages that come within the first five groups, and 3 and 5 villages, respectively, in the 6th and 7th groups. Dry crop cultivation is what the raiyats chiefly care for in these villages, and I think Rs. 5-8-0 an acre is still an appropriate maximum for wet crop, which can be raised only under a certain degree of handicap. The rainfall in the tract not being heavy enough, an element of precariousness affects the results of endeavours to grow rice and cane here. The position is quite different with the remaining 42 villages in the south-west, for which I propose an advance of 4 annas on the old maxima of Rs. 6 and Rs. 6-8-0.

34. I do not see that any one can justly contend against the suitability of these proposals. The increases recommended are certainly justified by the good circumstances of the people, to which, causes like steady seasonal conditions and the very fair margin of profit accruing from a rise in prices of produce (making due allowances for the increased cost of cultivation and living all over the country), have contributed. The enhancements are very moderate in themselves, and when put on to rates that have hitherto sat lightly upon the raiyats, I feel sure we shall never have occasion to be told that the problem before us has been handled with insufficient care. That the burden of the land assessment in Honnali Taluk has so far been an easy one is, in my belief, a matter of notoriety. Indeed, I may state here that even before the current settlement was introduced, Colonel Grant's proposals in 1874 elicited a homily from a not too friendly critic, Colonel Elliot, Head of the Shimoga District at the time, in which he ventured to expand on what he called a "leading mistake of the Mysore Revenue Survey, a downright dread of high rates." Perhaps, on the other hand, the increases may be thought to be below the mark. I submit that it is right to err on the side of moderation in the rates, which will have a currency for the long period of thirty years. The wet lands in the best rice-growing tracts have had a small increase in the maximum of only Re. 0-4-0, which hardly needs any comment.

35. *Garden maximum.*—I propose to reduce the maximum for this class of cultivation from Rs. 16 at the original settlement to Rs. 10. Even this low maximum is scarcely, if ever, reached. Gardens in this taluk had been treated with relatively much consideration at the original settlement, and my present proposals will put the owners still more at ease.

36. *Results of revision.*—The following statement exhibits the results on occupied lands, of the imposition of the rates I have recommended, and compares also the average rates, old and new, on the different descriptions of land :—

Description of land	By former survey as per collections of 1907-08			By revision survey			Increase or decrease in the rates
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	
		Rs.	Rs. a. p.		Rs.	Rs. a. p.	Rs. a. p.
Dry ...	85,677	79,241	0 14 10	86,167	92,799	1 1 3	+0 2 5
Wet ...	9,169	29,012	3 2 8	9,545	31,061	3 4 1	+0 1 5
Garden ...	528	3,020	5 11 6	512	2,206	4 4 11	—1 6 7
Total ...	95,374	111,303	1 2 8	96,224	126,066	1 5 0	+0 2 4

37. The average rate on the entire tract has been increased by 2 annas and 4 pies per acre, or 12½ per cent. The dry rate has had a modest increase of 2 annas and 5 pies per acre, or nearly 16 per cent, and the average wet rate, an increase of just 1 anna and 5 pies or about 2·75 per cent. The average garden rate, never oppressive, has still had a fall of Rs. 1-6-7 per acre.

38. *Effect on groups.*—How the total increase is distributed on the different kinds of occupied land in each of the groups, is made clear in the annexed statement

Group	Description of land	According to original survey as per collections of 1907-08			According to revision survey			Increase or decrease

	Tot.. al	95,374	1,11,303	1 2 9	96,224	1,26,066	1 5 0	+0 2 3

39. The average increase on dry crop land is nowhere greater than 3 annas 5 pies, the increase in the first group. The lowest enhancement of 7 pies occurs naturally enough in the 7th group, where the cultivation is nearly all wet crop, since no change has been made in the grouping, and the soil classification at the original survey has been retained intact at the revision. We find the increase for dry crop land pretty regularly graduated on a descending scale commencing with the first group and ending with the last. In the case of wet lands, which in point of importance have to be viewed in a reverse order (the groups, it must be recollected, had been marked in the order of importance for dry crop cultivation), the graduation is not quite regular. For instance, the average increase in the 5th group is 6 pies. That of the 4th group ought to be something higher, but as a matter of fact it is gone so low as to work out an actual *reduction* of 5 pies on the old average. The reason is that the collective survey value of the water-supply to the wet lands in the 4th group has, by the classers at revision, been found to have deteriorated since original settlement. It will be seen from the table that the highest increase in the wet rates is Re. 0-1-11 in the 7th group; the lowest is 1 pie, and occurs in the 1st group. Garden rates show a reduction throughout, ranging from Rs. 1-9-11 in the 2nd group to Re. 0-8-9 in the last group, the only exception being that of the 6th group, where an increase of Re. 0-3-10 has accrued. A word of explanation may be wanted here. Columns 3 and 6 in the table above show that

the occupied area of the garden in the 6th group, 36 acres at original settlement has dwindled to 17 acres now. The 39 acres consisted of good, bad and indifferent gardens, which, of course, were charged with rates proportionately heavy or light. The inferior gardens were found unfit at revision to be classed as gardens any longer, and were brought under the head of dry or wet land according to circumstances. This elimination left only the better kind of gardens to be assessed at revision, which have received a careful valuation at my hands, the result being an increase per acre of Re. 0-3-10, on a reduced area of only 17 acres, over the old average which was necessarily minified on account of the inclusion in calculation of a relatively large extent of low-taxed inferior gardens, according to original classification.

40. The general effect of the proposed settlement showing the percentage of increase or decrease by groups will be seen from the following statement:—

Group	Number of villages	By former survey as per collections of 1907-08		By revision survey				Total		Percentage of increase or decrease on occupied land
		Government occupied land		Government occupied land		Unoccupied Government assessed arable land				
		Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment	
I	25	17,803	25,875	18,024	29,569	2,521	2,262	20,545	31,831	+14
II	38	22,039	24,370	22,183	27,809	4,267	3,198	26,450	31,301	+14
III	32	19,119	17,845	19,570	21,324	2,332	1,815	21,902	23,139	+19
IV	36	15,961	17,894	16,156	19,671	2,306	1,546	18,462	15,217	+15
V	21	7,248	9,451	7,030	9,926	4,488	3,923	11,593	13,849	+ 5
VI	21	6,482	11,824	6,534	12,898	440	455	6,974	13,353	+ 9
VII	27	6,619	10,071	6,707	10,885	772	723	7,479	11,608	+ 8
Total	200	95,374	1,11,803	96,224	1,26,066	17,121	14,222	1,13,345	1,40,288	+13

The ratio of increase, nowhere abnormally large, is most marked in the 3rd group. The explanation is simple. Dry land to the extent of 443 acres has increased at the time of revision survey. Groups V, VI and VII present the lowest increase, mainly because dry fields there have been treated with comparative leniency, and the increase on wet rates is itself small.

41. The general effect of the alterations in the maxima is an average increase of Re. 0-2-5 on every acre of occupied dry land and of Re. 0-1-5 on rice land. Garden rates have been cut down by an average sum of Rs. 1-6-7 per acre. The net result of all this on occupied lands is an addition to the revenue of 13 per cent over the collections of 1907-08. I have already said quite enough to make it superfluous in me to venture on another discourse on either the moderation or the adequacy of the incidence of the new rates.

42. *Assessed waste.*—I show below the extent of lands of the different classes that are still unoccupied. There is really nothing very notable in the statement, no matter how we view it. A small extent of about 17,000 unoccupied acres in the taluk calls for no remarks.

R P U R

Revenue (Land Survey), dated 21st March 1911.

43. I have set forth my proposals and their effect in sufficient detail in the foregoing paragrahs, with all available statistical data necessary and helpful in judging the merits of the proposed settlement. There remains little to add before bringing this report to a conclusion, except a few words to sum up the main considerations on which my proposals are based. The taluk enjoys a generally sufficient rainfall, which favors two different kinds of cultivation in two different parts of the tract. A large proportion of soil is rich in quality. The means of communication and the markets at its disposal do not leave much to be desired. The health of the people is good, and the variation in population since 1871, except during the famine decade, calls for relatively favourable comment. There has been a perceptible expansion of cultivation, which, there is every reason to believe, will continue as steadily as hitherto. It will thus be clear that the taluk under consideration is favourably circumstanced in all material respects, and has in addition enjoyed during the currency of the original settlement all the advantages incidental to favourable rates of assessment. The revenue history affords unmistakable proof that the past settlement has been borne by the raiyats lightly, and the Government revenue has always been easily realised. With the advancement in prices and facilities for the transport of produce, the profits of agriculture have decidedly improved, so as to leave a good margin to the raiyat after deducting the increased cost of cultivation and living. In such a fine and fertile tract, the increase of only 13 per cent, as proposed, is amply justified by a general rise in the prices of good grains, the increase in the value of lands, improved communications, and the advancement in the material prosperity of the tract, and follows the same line of liberality as was adopted at the original settlement. This percentage is liable to become smaller if we add to the old collections, miscellaneous revenue (Rs. 592), derived mainly as water rate on dry lands not brought on to the Akarbands. It is only fair to deal thus with the item, because its counterpart is represented in the wet assessment in the revision Akarbands. The increase may perhaps be characterised as being too moderate, but it must be remembered that the rates, which are to be in force for the long period of 30 years, have to be fixed not merely with reference to the present circumstances, but also on a consideration of possibilities in the future. I believe that my proposals are formulated with due regard to the interests of raiyats and cultivation, demanding as they do only a moderate share of the increased profit accruing to raiyats in consequence of the increased material prosperity, and the general rise in prices of food grains, and that at the same time they involve no unnecessary sacrifice of legitimate Government revenue. Against an increase of 30 to 40 per cent in prices, an increase of only 13 per cent in revenue (which is far below the allowed percentages of increase in revision settlements) cannot but be deemed fair, and will not be felt by the raiyats, nor can it in any way operate to hamper agricultural prosperity and disturb the calculations of the cultivator.

44. *Limits of increase.*—In no village has the limit of 66 per cent prescribed by Government been exceeded by the revision proposals.

45. *Cesses.*—No estimate is wanted for Local Fund and Irrigation cesses, which are amounts proportionate to the assessment and will be quite distinct levies.

46. *Appendices.*—The usual appendices, inclusive of a coloured map of the tract, are attached hereto.

47. I beg to conclude my report by soliciting the sanction of Government to the rates now proposed, and in doing so, request that Government may be pleased to accord their sanction sufficiently early to allow of the preliminary settlement papers being prepared, and the rates being announced in the next cold weather, so that the settlement may take effect from the next official year.

APPENDIX A.

Revenue statement for the 200 villages of the Honnali Taluk of the Shimoga District from 1874-75 to 1907-08.

D. SHAMA RAO,
Superintendent, Revenue Survey and Settlement.

Proceedings of the Government of His Highness the Maharaja of Mysore,

II. Letter No. 6791, dated the 27th December 1910, from Rajakarya Pravina A. Rangaswami Iyengar, Esq. B.A., B.L., Revenue Commissioner in Mysore, submitting his opinion in the report.

Adverting to your memo No. R. 3973—L. S. 16-10, dated 21st December 1910, requesting me to expedite the submission of my opinion regarding the revision settlement of the Honnali Taluk, I have the honor to state that I waited till now in the hope of getting the Deputy Commissioner's report, so that I might be in possession of his views also before I submitted mine. He has not yet forwarded his opinion on the proposals of the Superintendent of Revenue Survey, and as pressing reminders have been received both from you and the Superintendent, I now proceed to note below a few remarks of mine without waiting any longer for the Deputy Commissioner's report. The absence of his report is also not of any great consequence in the present case, as the original settlement of this taluk has received more than usual attention. On the occasion of the first settlement, when the settlement work was in its infancy and the principles and policy guiding the same were only imperfectly understood, many important points connected with the settlement of a taluk were raised by the then Deputy Commissioner of Shimoga and the Commissioner of the Nagar Division and thoroughly discussed by Colonel (then Captain) Grant, who was in charge of the Survey, and that veteran Settlement Officer, Colonel Anderson, and their views approved by Government after mature consideration.

2. It is needless for me to offer any remarks on the general description of the physical features or other natural conditions of the tract under soils, irrigation, communication, etc., which have been referred to at length in paras 4 to 17 of the carefully drawn-up report of the Survey Superintendent, the more especially as the prevailing conditions have not changed much since the original settlement.

3. It may, however, be observed that the tract under consideration partakes of the nature of both malnad and maidan, the malnad gradually merging into the maidan, and that the classification of the soil into a few well-defined groups is consequently not practicabe. It has accordingly been necessary for the Survey Superintendent to adopt for dry lands as many as seven groups.

4. It is sufficient to refer to the rates for the different classes of lands. The gardens being small in extent and inferior in description to those of the malnad, may be left out of consideration. It will be seen that the proposed maximum wet rates vary from Rs. 5-8-0 to Rs. 6-12-0 and the maximum dry rates from Rs. 1-2-0 to Rs. 2-14-0, the average on the whole for wet and dry lands being Rs. 3-4-1 and Rs. 1-1-3. The average dry rate will be found much heavier than those of the adjoining resettled taluks of Channagiri, Shikarpur and Davangere, while the average wet rate is also higher than that of Davangere but lighter than those of Shikarpur and Channagiri (*vide* statement below). It should, however, be remembered that on a complaint from the raiyats holding lands under the Sulekere tank in the Channagiri Taluk, the incidence of wet assessment thereon has been recently somewhat lightened.

Taluk	Maximum dry rates	Maximum wet rates	Average dry rate	Average wet rate	Total average rate on assessed lands
	Rs. a. p Rs. a. p.	Rs a. p.	Rs a. p	Rs. a. p.	Rs. a. p.
Channagiri ...	2 0 0 to 2 4 0	8 0 0	0 15 11	3 13 2	1 2 10
Shikarpur ...	1 4 0 to 2 4 0	5 8 0 to 7 0 0	0 10 4	3 8 10	2 1 0
Davangere ...	1 12 0 to 2 6 0	6 8 0	0 11 4	2 13 2	0 12 6
Honnali (proposed) ...	1 2 0 to 2 14 0	5 8 0 to 6 12 0	1 1 3	3 4 1	1 5 0

Revenue (Land Survey), dated 21st March 1911.

5. It may not perhaps be amiss to surmise that the higher pitch of rates of Honnali at the original settlement was the result of its condition having been more prosperous combining as it did, the benefit of a fairly certain and copious rainfall from its proximity to the malnad, with the additional advantages of better climatic conditions, greater health, better facilities for the sale of surplus produce, etc. Though with the advent of the Railway line, Davangere has forged ahead in material prosperity, advantages of superior rainfall and probably greater fertility of soil still rest with Honnali and the great disparity between the rates of the two taluks may be thus justified. Further, the rates in a revision settlement depend much on those of the original settlement and a moderate increase commensurate with the general increase in prices cannot be objected to.

It may also be noted that when the proposed construction of the bridge across Tungabhadra at Honnali becomes an accomplished fact, the taluk will be in a more favourable position even in respect of its accessibility to the more important markets on the Dharwar and Bellary side.

I had no time to make a comparative study of the rates prevailing in the neighbouring Mahratta taluks of British India, but I believe that the rates now proposed for Honnali will compare very favourably with them. But this is as it should be, in view of the relatively larger population and greater economical and commercial advantages possessed by the Mahratta country.

6. In conclusion, the net result of the proposed revision involves only an increase of about 13 per cent in the total assessment and I consider this settlement reasonable and moderate and recommend the adoption of the rates proposed by the Survey Superintendent.

III. Letter No. 86, dated Bangalore 26th January 1911, from the Superintendent of Mysore Revenue Survey and Settlement, to the Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

In continuation of my letter No. 73, dated 23rd December 1910, I have the honor to forward herewith copies of letter No. 3136, dated 9th January 1911, from the Deputy Commissioner, Shimoga District, and of its enclosures, expressing his opinion on the proposals for the revision settlement of Honnali Taluk, contained in my printed report No. 25, dated 18th August 1910.

The Revenue Commissioner has submitted his opinion on my report direct to Government in his letter No. 6791, dated 27th December 1910, copy of which has been forwarded to me for information by him. As both these officers express their concurrence in the suitability of the rates proposed, I have not much to add by way of further explanation or justification of my proposals.

2. The Revenue Commissioner, while considering the proposed settlement as reasonable and moderate, points out the average dry rate(Rs. 1-1-3) as being much heavier than that recently imposed in the adjoining Taluks of Channagiri, Shikarpur and Davangere and comments with perfect truth that this circumstance is due to the adavntages of superior rainfall and greater fertility of soil in the case of Honnali. That the average wet rate should be heavier than in Davangere but lighter than that of Shikarpur is also a result that is quite intelligible. The wet land in Honnali Taluk is nearly all comprised in the region round about Kumsi, which, as we know, partakes of the malnad characteristic of a rainfall, both heavy and certain, this characteristic being more pronounced than in Davangere and somewhat less so than in Shikarpur. The rates on rice land naturally follow this variation in circumstance. When the varied conditions in different portions of the same taluk necessitate the adoption of different rates of assessment, there is greater reason to find a diversity in the rates obtaining in different taluks. A comparison of these rates will only serve to indicate the guiding principles of our settlement generally rather than furnish a test whereby the merits of a proposed settlement may be judged.

3. The Deputy Commissioner also is of opinion that the proposed rates are very fair and that no just contention can be raised against them. He adds that

this opinion is based upon the information and statistics given in my report and not upon information which he would wish to gather independently by local enquiry in the tract to be brought under revision.

The plan which the Deputy Commissioner intended to adopt in order to find out the local conditions of the tract for testing the suitability of the settlement proposals is commendable and shows that he would have, if it were possible, usefully contributed towards an intimate knowledge of the tract which is so essential for the proper revision of assessment. It is a pity he had not enough of time to carry out the enquiry on the lines indicated; but I may be permitted to remark here that some of the questions which the Deputy Commissioner has set for himself are not easy of any definite solution. Taking for instance the cost of cultivation, it is a well-known fact that this differs not merely from soil to soil but from man to man from crop to crop and from year to year. The raiyat spends more upon the best lands and the poorer soils are comparatively neglected. The best indication of the relation of the assessment to the net profits is to be found in the comparison of it with the prevailing rents.

The revision of rates no doubt depends on the general rise in prices which is to a certain extent an index of improvements in other directions. But it is not upon this consideration alone that the revision settlements are based. The maximum rates are fixed after a full review of every circumstance shown in the past revenue history, prices, markets, communications, selling and mortgage value of land, vicissitudes of seasons, and every other relevant fact indicating the incidence of the previous assessment and the economic condition of the tract. I am not sure that the Deputy Commissioner is right in maintaining that, in the Honnali Taluk all conditions except prices have remained unaltered since the last settlement. The advance made in the several directions has been explained in my report in sufficient detail.

4. In speaking of the value of land, the Deputy Commissioner seems to doubt as to whether due allowance has been made for the improvement of land under a careful system of agriculture. If it is remembered that in revision settlements soils are not reclassed it will at once appear that minor improvements of the nature referred to are protected by the permanent recognition of a land classification once fairly settled.

5. A desire is generally evinced to reduce the assessment of land to an exact mathematical precision with reference to the net profits accruing to the cultivator from the land. But if the question is deeply considered from all its aspects, the inevitable conclusion will be that such a course is not only impracticable, but would produce an inelastic system of land assessment incapable of being sympathetically administered.

Assessments should be equitable in character and moderate in incidence leaving a margin of profit to the cultivator so that he may be enabled to bear the strain of exceptional seasons with the savings made in favourable and ordinary seasons. These conditions have been, I think, more than fulfilled in my proposals, which provide for an increase of only 13 per cent in revenue against an allowed increase of 33 per cent in revision settlements and an admitted increase of more than 40 per cent in prices.

ENCLOSURE (1).

Letter No. 3136, dated 9th January 1911, from Mr. K. Srinivasa Rao, Deputy Commissioner, Shimoga District, to the Superintendent, Mysore Revenue Survey, Bangalore.

With reference to your memo No. 237, dated 7th October 1910 forwarding for my opinion a copy of the proposals submitted by the Superintendent, Mysore Revenue Survey and Settlement, for the revision of assessment fixed at the original settlement of Honnali Taluk in 1874, I have the honor to report as below :—

2. It is unnecessary for the purposes of my report to enter into descriptive details of the taluk under resettlement, especially as no changes requiring consideration have occurred in the physical features since the last settlement.

Revenue (Land Survey), dated 21st March 1911.

3. At the original settlement, the rates assessed were based on careful consideration of the advantages of soil, climate, and situation enjoyed by the taluk. On a comparison of the conditions observed at the original settlement with those prevailing at the present day, the only differences which appear to exist are :—

(i) A very moderate increase in communications.
(ii) A pronounced increase in prices.
(iii) A slight deterioration in source of irrigation in villages comprised in the IV Group.

4. All other conditions, such as advantages of climate, soil, and situation continue to be what they were at the last settlement.

5. For the purposes of revision of settlement, the division of the villages of this taluk into seven groups, made at the original settlement, has been adopted unaltered which would indicate that the conditions which suggested that grouping continue and that no material differences have been found in the conditions of the original groups affecting their relative positions. This would in itself suggest that no important changes have been observed in advantages of situation.

6. The effect of the proposed revision of rates in the several groups is given on paras 38 and 39 of the report under reference. It will be found that the deterioration of sources of water-supply in the villages of Group IV has been noticed by a reduction of 0-0-5 in the wet rate. The garden rates show an invariable reduction through all the groups, the fall being most pronounced in Groups I, II and III, which include the greater part of the garden lands. As the garden lands are comparatively insignificant in extent and inferior in quality, this reduction calls for no remarks, and may be accepted.

7. The rise in the assessment of the wet lands is 0-1-5 ; and as no particular reason is given for this increase, it is probable that the rise of wet rates is based on the same general considerations as the increase of 0-2-5 in dry rates.

8. The effect of the proposed revision is given with regard to each group but the conditions leading to the variations are not given separately for each group.

9. With a view to study the exact nature and extent of the changes occurring during the lapse of 35 years after the original settlement in each group, it was my intention to collect statistics bearing upon the various facts justifying an increase of assessment. For this purpose, I selected a number of typical villages in each group, for examination ; and wished to furnish my opinion on a study of the statistics collected. The line of enquiry which I proposed to pursue will be found sketched in the enclosed memo. If shortness of time, and pressure of work, had not combined to prevent the completion of the investigation I had started, I would have been in a position to secure data on which I could have based an opinion, which whether of assent or dissent, would have been more valuable than one given only on the insufficient first-hand knowledge I now possess of local circumstances, and on such reasons as I can glean from the report under reference itself.

10. So far as I can make out from the report the proposed increase in the dry and wet rates is based on a general rise in the prices of agricultural produce. The other conditions, which have remained unaltered since the last settlement, can furnish no ground for an increase of assessment.

11. It is true that the figures given show a marked increase in prices ; but unless we can infer from that rise, that there has been a corresponding increase in the value of land, and a consequent enhancement in the profits of agriculture, there would probably be no case for an increase in rates of assessment in revision. In coming to the right conclusion it would probably necessary to see how far the increase in prices is counterveiled by increase in the costs of agriculture and livelihood. It is a question how far a rise in the prices of food stuffs can be held to profit a raiyat who, in ordinary seasons, grows very little more than he consumes. Even should the value of land be found to be increased since the last settlement it would still remain a point for consideration how far this increase can be attributed to causes other than the improvement of land under a careful system of agriculture, since it would seem that only an unearned increment in the value or

profits of land accruing to the raiyat would support an increase of assessment. If for instance, the difference between ordinary wages and the wages paid by the Manganese Company was enough to make people abandon lands (please see para 15 of the report under reference) the profits of those lands cannot *prima facie* be very considerable.

12. I have no doubt that all these points have received due consideration in the proposed revision. I have only enumerated them here to respectfully explain why, in the absence of full information on these lines as regards each of the seven groups, I hesitated to give an opinion which I felt could not be quite satisfactory to myself.

13. The rates proposed seem to be very fair; the rate of increase is not higher than 13 per cent for the taluk, and nowhere approaches the limit of 66 per cent prescribed by Government. I do not think that any just contention can be raised against the suitability of the proposals.

14. I beg in conclusion to apologise for my delay in submitting this report, which was in great part due to a desire to investigate the question on a scale too ambitious for completion in the short time at my disposal.

ENCLOSURE (2).

Outlines for investigation of agricultural conditions in Honnali Taluk.

In the villages selected for each group the following figures may be ascertained:—

I. *Price of land as ascertained from registration figures.*—Percentage of this land to total extent:—

(i) Best	wet,	best dry,	best garden.
(ii) Average	do	do	do
(iii) Lowest	do	do	do

(percentage).

Note.—Prices in former years, as far as available, should be obtained and figures given so that the trend of prices can be traced.

II. Prices fetched by unoccupied land in Malki sale, excluding value of trees. Is there an inclination to take up lands for agriculture. If there have been absolute relinquishments, the reason should be ascertained by examining the relinquisher. State of indebtedness of the raiyat may be assessed by enquiry.

III. Average extent of land in the holding of a single cultivating raiyat, the number of working people, state of agricultural stock and profits of holding. These figures should be given for each class of land under I.

IV. The proportion of 'koru' given to the owner. The prevailing tenure should be ascertained. The following points are important.

(i) Are tenures hereditary and customary or do they go by competition?

(ii) Is there a fixed 'gutta' or does the land-lord get only a share of the produce?

(iii) The land-lord's net annual income in kind should be ascertained as far back as possible with a view to ascertain the trend of profits from land.

V. Does a raiyat of average holding grow more than he consumes? If so, the extent of the surplus, and what he does with it may be ascertained.

VI. Wages, cost of manure.

VII. Changes brought about during the last 30 years should, as far as possible, be noted under—

Government works.	Markets.
Wells.	Exports, imports.
Roads.	

VIII. Cost of hiring.

IX. Ratio of food crops to industrial crops in our investigation villages.

Revenue (Land Survey), dated 21st March 1911.

ENCLOSURE (3).

List of typical villages chosen for investigation.

I. Basavanahalli, Chelur, Nyamti, Chatnahalli and Arabagatta.
II. Kadakatti, Holimadapura, Vaderhattur, Dod Yerehalli and Belagutti.
III. Bale Mallur, Madenhalli, Yeraganahal, Arikere, Sasavenhalli and Katige.
IV. Herè Gongiri, Taraganahalli, Chik Yerahalli and Hanumanahalli.
V. Chinnikatte, Arekatte and Madapur.
VI. Savagundanahalli.

No. R. 5355-64—L. S. 16-10-4, DATED BANGALORE, 21ST MARCH 1911.

ORDER THEREON.—The proposals relate to the Honnali Taluk as it stood at the original settlement. The area differs from the present Honnali Taluk in that the former includes 56 villages in the south-west forming part of the present Kumsi Sub-Taluk, and excludes 15 villages of the present Honnali Taluk in the north-east. During the original settlement, the taluk was considered to be the best in the Nagar Division. The causes of its prosperity were a generally fertile soil, a rainfall certain and sufficient for the prosecution of agriculture, and good communications with large and easily accessible markets in and outside the taluk. In the original settlement the villages were divided into seven groups for the purpose of fixing the dry assessment and into three groups in regard to the wet assessment.

2. The original rates were pitched at a moderate level and the settlement was conducted on principles of liberality to the raiyat.

3. During the period of nearly 36 years that has elapsed since the original settlement, the tract has, on the whole, enjoyed a considerable amount of prosperity, a circumstance which affords adequate testimony to the reasonableness of the burden imposed on the land. Population has increased from 62,238 in 1871 to 71,379 in 1901 or by 14·7 per cent, and in spite of epidemics, occasionally of cholera, and more frequently of plague in recent years, there is every reason to expect that a further appreciable increase will be shown by the figures of the approaching Census.

4. The agricultural resources of the people as evidenced by the number of houses, cattle, carts and ploughs have expanded largely. Two important main roads and a portion of another road have added to the facilities of communication in the tract. The opening of the Harihar-Bangalore and the Birur-Shimoga Railway lines has placed the taluk in touch with distant markets, and the satisfaction of a long-felt want by the early completion of the bridge over the Tungabhadra at Honnali, now under construction, will afford the taluk easy access to the Railway at Harihar.

5. The figures given in para 17 of the Survey Superintendent's report show how the prices of the chief good crops have risen during the past 30 years and even allowing for the years of scarcity included in the period 1906-09, there is no doubt that a large part of this increase is likely to be permanent.

6. The effect of all these conditions conducive to agricultural prosperity is reflected in the expansion of cultivation and the revenue history of the tract during the past 30 years and more. The unoccupied arable land which was 32,192 acres

in 1874-75 has now been reduced to 17,121 acres or by nearly 47 per cent. There has been no necessity to grant remissions, except of trifling amounts soon after the famine of 1876-7. The recent severe distress of 1908-09 was felt in only one hobli of the taluk.

7. Turning now to the proposals for the revised settlement of the tract, Government observe that they are, on the whole, extremely moderate and even liberal to the raiyats. The grouping of villages adopted at the original settlement has been left undisturbed even though the position of some of the villages has been improved by the new roads opened in recent years.

8. The dry and wet maxima rates proposed to be adopted are given in para 28 of the report, and in paras 32 and 33, the Superintendent explains the reasons for the increases proposed.

9. The increase in dry rates varies from 10 per cent in the 6th group to 18¾ per cent in the third group, while the increase in the maximum wet rate is only about 4 per cent in two groups, the rate for the third group is unaffected. The garden maximum is proposed to be reduced from Rs. 16 to Rs. 10.

10. The tables given in paras 36 and 38 of the report show the effect of these maxima as applied to the different groups of villages and classes of lands. The average rate on the entire tract will thus be increased from Rs. 1-2-8 to Rs. 1-5-0 per acre or by 12½ per cent, the dry rate being raised 16 per cent, the wet rate 2·75 per cent and the garden rate falling nearly 25 per cent.

11. The Revenue Commissioner is of opinion that the proposed settlement is reasonable and moderate and recommends the adoption of the rates proposed by the Survey Superintendent.

12. The Government are, therefore, pleased to accept and sanction the proposals of the Survey Superintendent for the revised settlement of the area, and direct that the rates be announced in time so as to bring the new settlement into operation from the year 1912-13. The settlement will be guaranteed for the usual term of thirty years.

13. The thanks of Government are due to Mr. D. Shama Rao, Superintendent of Survey, for the able manner in which he has dealt with the resettlement of the tract in question and for the very clear and interesting report he has presented to Government.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Superintendent, Revenue Survey and Settlement in Mysore.
The Revenue Commissioner in Mysore.
The Deputy Commissioner, Shimoga District.
The Deputy Commissioners of other Districts.

Exd.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Report of the Inspector of Cattle Diseases on the working of the Civil Veterinary Department in the State during 1909-10, submitted by the Revenue Commissioner with his letter No. 6062, dated the 3rd December 1910:—

Letter No. 6062, dated the 3rd December 1910, from the Revenue Commissioner in Mysore, to the Officiating Secretary to Government, General and Revenue Departments.

I have the honor to forward herewith copy of the Report on the working of the Civil Veterinary Department during the year 1909-10, submitted by Mr. Narasimha Iyengar, Inspector of Cattle Diseases in Mysore. It may, as in last year, be printed and issued for the information of the officers and the public with the orders of Government thereon.

2. The year was a good one for cattle-owners. The seasonal conditions were favourable to cattle, water and fodder were plentiful, and there were no virulent outbreaks of epidemic diseases.

3. The total number of admissions in the Veterinary Institutions during the year was 9,894 as against 5,805 during the previous year. The total number of cases treated was 47,786 against 24,162 during the previous year. Of the eight hospitals in the State, two at Tumkur and Shimoga were opened in April 1908, and therefore were not working for the full year in 1908-09. As regards the other six hospitals and dispensaries, the number of admissions increased during the year in all the institutions, except that at Chitaldrug, where the number was almost the same as in the previous year. There is no doubt that the Veterinary Hospitals and Dispensaries supply a real want and are becoming very popular with the raiyats.

4. The number of inoculations during the year was 8,118 as against 14,481 during the previous year, which was a year of distress; the fall was due mainly to the absence of virulent outbreaks of cattle diseases and the consequent absence of necessity for inoculation and also to a certain extent to the short supply of sera from the Imperial Bacteriological Laboratory.

5. I agree in the suggestion of the Inspector of Cattle Diseases in para 7 of the Report, that some encouragement may be given to those who try to maintain the purity of Mysore breeds and to import foreign blood of a superior kind He will be called upon to submit practical proposals which will be forwarded to the Deputy Commissioners of Districts and Presidents of Local Boards for their opinion.

6. In para 10 of the Report, the Inspector of Cattle Diseases refers to cases of cattle poisoning. This matter attracted the attention of the public and was also referred to in the Dasara Representative Assembly of 1907 and the people are sure to raise an outcry if it should prevail anywhere to a serious extent. I have asked the Inspector of Cattle Diseases for further particulars and shall take suitable action.

REPORT OF THE CIVIL VETERINARY DEPARTMENT, MYSORE, FOR 1909-10.

The year under report did not cause so much anxiety to the cattle-owners as the two previous years which recorded very high mortality among cattle. The timely rains improved the general condition of cattle. Rinderpest which maintained its virulence for over three years and anthrax, black-quarter, septicæmia hæmorrhagica, foot and mouth disease and sheep pox, which appeared periodically were not prevalent during the year. The Civil Veterinary Department was therefore able to devote more time and attention to the treatment of constitutional diseases and to attend to the general improvement of cattle.

2. *Treatment of diseases.*—The number of Veterinary Hospitals and Dispensaries during the year under report was the same as in the last year; two temporary Assistant Veterinary Inspectors were appointed in June. The total number of fresh admissions was 9,894 as against 5,805 during the previous year, the number of inoculations 8,118 as against 14,481, while the total number of cases treated daily was 47,786 as against 24,162 in the previous year.

3. *Investigation and research.*—Four head of cattle in Mr. Meaton's house in Kolar Gold Fields were reported to have died of some infectious disease and after the necessary bacteriological examination they were found to be cases of anthrax. The necessary preventive measures were taken and 220 cattle in the adjoining places were inoculated against anthrax. Though this was the first inoculation against anthrax the results were encouraging; only two cases among the inoculated were reported to have proved fatal later on from anthrax. Mr. Meaton, though a qualified Veterinarian, conducted *post mortem* examination of anthrax cases in his own compound with the result that he and the two sweepers who helped him in conducting it suffered from malignant pustule, but, fortunately they placed

themselves immediately under careful medical treatment and recovered. Intimation was received from Mysore that cattle were suffering from a peculiar eye disease of an infectious nature and after treatment most of them recovered. The Assistant Veterinary Inspector of Mysore was requested to take careful notes of such cases and to keep a few cases under observation for bacteriological investigation.

4. *Veterinary Hospitals and Dispensaries—Bangalore Veterinary Hospital.*—The following statement shows the number of admissions during the year as compared with the previous year.

Table showing the number and classes of animals and the diseases for which they were treated in the Veterinary Hospitals and Dispensaries during the year 1909-10 :—

No.	Hospital or Dispensary	Kinds of Animals					Kind of diseases	
		Horses	Cattle	Dogs	Sheep and goats	Other animals	Contagious diseases	Digestive system

4. (*a*) ***Bangalore Veterinary Hospital.***—The Inspector of Cattle Diseases was in charge of the Hospital throughout the year and the Assistant Veterinary Inspector Mr. R. M. Patankar who was posted in February 1909 was transferred to Mysore in August 1909 and his place was taken up by Mr. K. N. Srinivasan, Assistant Veterinary Inspector, from Chitaldrug. The total number of cases treated daily was 7,850. There were 59 in-patients. The number of operations was 141 of which three were castrations.

Agricultural, dated 1st March 1911.

The Assistant Veterinary Inspector was on tour in the district for 57 days, travelled 1,330 miles by railway and 262 miles by road, and inoculated 259 cases against rinderpest. He also attended the Cattle Shows in Chunchankatte, Mysore and Nanjangud. Mr. K. N. Srinivasan was also in charge of the Mysore Veterinary Hospital, while Mr. R. M. Patankar was in charge of the Khedda camp. Scientific shoeing is carried on in the Bangalore Hospital and is much appreciated by the general public.

(*b*) *Mysore Veterinary Hospital.*—Mr. K. G. Ranganna, G.B.V.C., was in charge till August 22nd and was then transferred to Chitaldrug District. He was relieved by Mr. R. M. Patankar attached to Bangalore Hospital, who continued to be in charge. In the Hospital about 73 elephants and camels were admitted for treatment during the year. The total number of cases treated daily was 9,599. There were 37 in-patients. The number of major and minor operations was 93. The Assistant Veterinary Inspector was on tour 115 days, including his charge of Kakankote Khedda camp, travelled 323 miles by road and 187 miles by railway and inoculated 383 cases. He was present at the Mysore and Nanjangud Cattle Shows. The hospital was inspected by me from the 24th to 26th July and from 19th to 30th October 1909 and from 26th to 31st January 1910 and from 13th to 23rd June 1910.

(*c*) *Chikmagalur Veterinary Hospital.*—Mr. K. Krishniengar, G.B.V C., was in charge throughout. The total number of cases treated daily was 7,565. There were 10 in-patients. The number of major and minor operations was 90, of which 7 were cases of castration. As there were no outbreaks of cattle diseases, the Assistant Veterinary Inspector was out only for 6 days, travelled 143 miles by road and inoculated 160 animals against rinderpest. Scientific shoeing is carried on in the hospital and is much appreciated by the public. The Hospital was inspected by me from 29th to 31st December 1909 and from 27th to 29th June 1910.

(*d*) *Shimoga Veterinary Hospital*—Mr. A. A. Monterio, G.B.V.C., was in charge. The total number of cases treated daily was 4,802. There were only 3 in-patients. There were 50 operations both major and minor, of which 4 were cases of castration. The Assistant Veterinary Inspector itinerated for 148 days, travelled 2,159 miles by road and 86 miles by railway and inoculated 3,360 cattle against rinderpest, and treated 68 cases during itineration. He also attended Kudli and Rampur Cattle Shows. The hospital was inspected by me from 6th to 9th August 1909 and from 7th to 9th March 1910.

(*e*) *Tumkur Veterinary Dispensary.*—Mr. N. Krishniengar, G.B.V.C., was in charge. The total number of cases treated daily was 4,466. There were 16 in-patients. The number of animals operated upon was 101, of which 66 were castration cases (43 cattle, 22 sheep and goats and 1 horse). The Assistant Veterinary Inspector itinerated in the district for 58 days, travelled 540 miles by road and 1,268 miles by railway, and inoculated 624 cattle against rinderpest. He also attended the cattle fairs at Koratagere and Pavagada. The dispensary was inspected by me on 18th September 1909 and from 8th to 9th June 1910.

(*f*) *Kolar Veterinary Dispensary.*—Mr. C. Narayaniengar, G.B.V.C., was in charge. The total number of cases treated daily was 5,533. There were 8 in-patients. The Assistant Veterinary Inspector performed 43 operations, of which 5 were castration cases (2 bulls, 2 goats and 1 dog). He itinerated for 55 days travelled 651 miles by road and 218 miles by railway and inoculated 1,326 cases against rinderpest and 220 against anthrax. He has also treated 35 cases during itineration. He attended the Cattle Show at Nandi and the Cattle Fair at Vakkaleri. The dispensary was inspected by me from 7th to 8th July and from 21st to 25th November 1909 and from 18th to 19th May 1910.

(*g*) *Hassan Veterinary Dispensary.*—Mr. B. V. Venkatachari, G.M.V.C., was in charge. The total number of cases treated daily was 2,895. There were 8 in-patients and 30 minor operations. The Assistant Veterinary Inspector itinerated for 24 days, travelled 474 miles by road and 20 miles by rail, inoculated 1,047 cattle against rinderpest and treated 8 cases during itineration. He also attended the Cattle Show at Hassan. The dispensary was inspected by me from 5th to 8th January and on the 30th June 1910.

(*h*) *Chitaldrug Veterinary Dispensary.*—Mr. K. G. Ranganna, G.B.V.C., was in charge. The total number of cases treated daily was 5,076. There were 7 in-patients. The Assistant Veterinary Inspector performed 81 operations, of which 4 were castration cases. He itinerated 17 days, travelled 346 miles by road and 880 miles by rail, inoculated 287 cases against rinderpest and treated 39 cases during itineration. The dispensary was inspected by me from 15th August to 9th September 1909 and from 13th to 17th February 1910.

The Assistant Veterinary Inspectors in charge of the Hospitals in the districts did satisfactory work both in the headquarters and in the districts and they have won the confidence of the raiyats, and their services have been freely availed of by cattle-owners

They have also tried to popularise the more humane methods of castration of bulls, etc., as could be seen from the large number of animals sent for castration by the villagers to the Veterinary Institutions and, it is hoped, that in course of time the barbarous method of mulling or emasculation will be given up.

6. *Preventive inoculation.*—The following statement shows the number of cattle inoculated during the year:—

Bangalore	259
Mysore	385
Chikmagalur ...	160
Shimoga	3,660
Tumkur	624
Kolar	1,546
Hassan	1,247
Chitaldrug	287
Total ...	8118

Rinderpest which had taken a firm hold in several places for nearly three years, seemed to abate a little after the last monsoon. But it broke out again and the districts of Mysore, Shimoga and Kolar had to suffer to some extent. This outbreak was more or less in an endemic form and timely preventive inoculation arrested the spread of the disease. Sporadic cases of anthrax, black-quarter and septicamia hæmorrhagica were reported from a few localities and from Kolar, where they threatened to take on epidemic form. The experience gained in preventive inoculation for nearly three years during which period no less than 26,784 cattle of different breeds under various conditions were inoculated against rinderpest, has fairly demonstrated that sufficient immunity can be conferred on cattle so that they can survive the 'epidemic wave' and that neither the raiyat nor the dairy owner would have much to complain either in respect of the decrease or deterioration in the quantity or quality respectively of the milk and other dairy produce. The raiyats so greatly appreciated the benefits of preventive inoculation that the demand for reinoculation became so great that a sufficient quantity of sera and vaccines could not be obtained from the Imperial Bacteriologist.

7. *Cattle Shows.*—Cattle shows were held in Mysore, Chamchankatte, Nanjangud, Hemagiri (Mysore District), Ghati Subramanya, Anekal, Channapatna (Bangalore District), Nandi (Kolar District), Rampur and Kudli (Shimoga District), where some very fine specimens of cattle were exhibited and where they found a lucrative sale. Cattle shows were also held for the first time in Hassan and Harihar. For both these shows a large number of good cattle was brought and liberal awards were made. The holding of periodical cattle shows no doubt imparts a sort of stimulus to traffic in cattle but the main object, *viz.*, encouraging the breeding and rearing of a better class of animals, has not been sufficiently realised. In most of the smaller shows the breeds represented were very poor and even the award of prizes was not very satisfactory. Some special encouragement and rewards may be held out to those who maintain the purity of Mysore breeds and discourage the pernicious system of 'breeding in and in' and who encourage the importation of foreign blood of a superior character.

8. *Itineration.*—The Inspector of Cattle Diseases spent 117 days in itineration, travelled 959 miles by road and 4,035 miles by rail and inspected all the Veterinary Hospitals and Dispensaries and centres of fresh outbreaks of contagious diseases to give the necessary advice and help to the Assistant Veterinary Inspectors both in investigation and repression. The veterinary and sanitary arrangements of the Khedda camp at Kakankote was entrusted to the Inspector of Cattle Diseases and the necessary arrangements were made by him. Mr. R. M. Patankar, Assistant Veterinary Inspector, Mysore, was in charge of the Khedda elephants for nearly three months and did excellent work. The Assistant Veterinary Inspectors itinerated in their respective districts, travelled 4,898 miles by road and 3,988 miles by railway. They inoculated 7,916 cattle against rinderpest and 220 against anthrax. They treated 291 cases during itineration. The hospital staff (the salustry and compounders) were also examined during the inspection of the Veterinary Hospitals and Dispensaries and were found to be fairly satisfactory in their work. The suggestions made by the Revenue Commissioner of carrying small quantities of country drugs and ordinary surgical appliances for demonstration purposes during itineration was carried out with beneficial results.

9. *Lectures and demonstrations.*—The Veterinary Library and the supply of standard works of reference and the circulation of Veterinary Journals have been of very great use in enabling the Assistant Veterinary Inspectors to be in touch with latest improvements in

Agricultural, dated 1st March 1911.

veterinary science. The Inspector of Cattle Diseases delivered a lecture in Kanarese on "The various breeds of cattle and their management in health and disease" during the Hassan Cattle Show. He also delivered two lectures in English on 'the Role of Bacteriology in Veterinary Pathology' and another on "The uses of drugs in the treatment of diseases" at Bangalore. Mr. K. N. Srinivasan, Assistant Veterinary Inspector, Bangalore, delivered lectures on Cattle Diseases during the Mysore and Chunchankatte and Nanjangud Cattle Shows. Mr. K. G. Ranganna, Assistant Veterinary Inspector of Chitaldrug, delivered a very instructive lecture on "Preventive inoculation and general management of cattle" during the Harihar Cattle Show. Mr. A. A. Monteiro, Assistant Veterinary Inspector, Shimoga, delivered a practical lecture on cattle diseases at Rampur Cattle Show. The Inspector of Cattle Diseases contributed, as usual, a few articles of professional interest to the Revenue and Agricultural Gazette.

10. *Cattle Poisoning.*—Complaints of cattle poisoning are received from time to time. It is alleged that Lubbay merchants who generally deal in hides sometimes resort to such malpractices taking advantage of outbreaks of rinderpest, anthrax, black-quarter, etc. Arsenic and perchloride of mercury which are easily procurable in local markets are distributed among Chamars who go about administering them to cattle that generally graze in the village kavals. Pieces of intestines or other infected materials from rinderpest cases are also given mixed with sugar or other food stuffs. These are scattered over the grass plots where village cattle generally graze. As the symptoms in cattle poisoned with perchloride of mercury and arsenic are more or less the same as those due to rinderpest, the villagers are generally under the impression that their cattle have succumbed to rinderpest. Another trick played by the Chamars is that they take the infected material from animals that have died from anthrax or black-quarter and smear them over pointed sticks and insert them either under the root of the tail or somewhere in the quarter or abdomen of cattle. By the time these cattle return home in the evenings their system is thoroughly poisoned with the morbid material and by early morning they will be found dead in the stalls and the poor raiyat will be under the impression that his animals have died from anthrax or black-quarter.

11. *Conclusion.*—In conclusion I may be permitted to express my sincere thanks to the Inspector-General, Civil Veterinary Department, and the Imperial Bacteriologist and to all the Revenue Officers who, by their cordial co-operation, have considerably lightened the task of the officers of the Civil Veterinary Department and without whose assistance the working of the department could not have been rendered so smooth and so successful in the short period of two years.

No. R. 4994-5003—Agri. 73-10-2, dated Bangalore, 1st March 1911.

Order thereon.—Recorded.

2. Government note with satisfaction that the Veterinary Department has been able to show a good record of work in all the districts during the year and that the benefits of proper veterinary treatment and inoculation are being appreciated by the raiyats.

3. Government await further action on the part of the Revenue Commissioner in the matter of the improvement of the local breeds of cattle and the prevention of cattle poisoning referred to in paras 5 and 6 of his letter and paras 7 and 10 of the Inspector's report.

Proceedings of the Government of His Highness the Maharaja of Mysore, Forest, dated 7th March 1911.

READ—

Letter No. 7667, dated the 8th March 1910, from the Conservator of Forests in Mysore, submitting copies of correspondence between himself and the Comptroller regarding the amendment of Articles 128 and 64 of the Forest Department Code together with a list of addenda and corrigenda for approval.

No. R. 5142-4—FT. 34-09-4, DATED BANGALORE, 7TH MARCH 1911.

ORDER THEREON.—The Conservator's proposal to amend Article 128 is approved. A separate form of pay bill is not necessary for the Forest Department in place of the general form now in use.

2. As regards the proposed amendment of Article 64 the Conservator is requested to report separately on the subject as the correspondence with the Comptroller relied on does not refer to this item at all.

3. The list should be printed as addenda slip No. 8 to the Forest Code as hereunder.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Conservator of Forests in Mysore.
The Comptroller, Mysore Government.
The Superintendent, Mysore Government Press, with a request that he will print and furnish 500 copies of the addenda slip to the Conservator.

ADDENDA AND CORRIGENDA TO THE FOREST CODE.

No. 8.

Substitute the following for Article 128.

128. (i) If any non-gazetted officer is allowed leave of any kind or is placed under suspension or is transferred, promoted, reduced or discharged, or if any new appointment is made during the month, all such information with number and date of the order of the officer making the change should be recorded in the absentee statement to accompany the consolidated pay bill as prescribed in Article 60 of the Civil Account Code.

(ii) All changes in the personnel of establishments, and the grant of all leave to subordinate employees will be reported in Form No. 52 on the 5th of each month by the District Forest Officer to the Conservator.

The Conservator will forward to the Comptroller at the beginning of every month, a statement in Form No. 52 of all the changes sanctioned by him during the previous month.

By Order,

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Forest, dated 15th March 1911.

READ AGAIN—

Government Order No. R. 1122-4—Ft. 39-08-7, dated 3rd August 1909, directing the Forest Settlement Officer in Mysore to settle the rights of way to certain kattes and shrines situated in Survey Nos. 128 and 130 of Nerlekere village included in the Basavankal State Forest, Nagamangala Taluk.

2. Letter No. 8583, dated 23rd February 1911, from the Revenue Commissioner in Mysore, forwarding letter No. 236, dated 28th January 1911, from the Forest Settlement Officer and submitting a draft notification describing the concessions granted to the raiyats of Nerlekere village.

No. R. 5248-9—Ft. 120-10-2, DATED BANGALORE, 15TH MARCH 1911.

ORDER THEREON.—Government approve of the concessions granted by the Forest Settlement Officer.

A Notification as hereunder will be published in the Gazette.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.

NOTIFICATION.

No. R. 5250—Ft. 120-10-3, dated 15th March 1911.

In continuation of Notification No. R. 3286—Ft. 113-06-6, dated 26th November 1907, the Government of His Highness the Maharaja are pleased to declare the following concessions within the Basavankal State Forest, Nagamangala Taluk.

(1) Shettarkatte in Survey No. 128 of Nerlekere village is treated as an enclosure, with a camping ground of 2 chains all round. Right of way to the path-way leading to it is admitted, width being 15 feet. It enters the forest in the western boundary in Survey No. 128 at a point about 1 chain from the north-east corner of Survey No. 127, goes south-east through Survey No. 128 for a distance of about 5 chains and leads to katte.

(2) Dharmakatte in Survey No. 130 of Nerlekere is treated as an enclosure with a camping ground of 2 chains all round. Right of way to the path-way (15 feet wide) is also admitted. It enters the forest in the western boundary at a point about 3 chains from the south-east corner of Survey No. 134 (tank) and runs south through Survey No. 130 for a distance of about 12 chains and leads to katte.

(3) Muttarayaswami temple in Survey No. 130 of Nerlekere is treated as an enclosure with a camping ground of 5 chains all round. Right of way to the path-way (15 feet wide) is admitted. It enters the forest in the western boundary at a point about 10 chains from the south-east corner of Survey No 135 of Nerlekere, goes along the Kodihalla for a distance of about 15 chains and leads to temple.

(4) Narasimhaswami and Basaveswara temples in Survey No. 130 of Nerlekere are treated as enclosures within the Block. The path-way leading to them will be in continuation of the way leading to Muttarayaswami temple. Width to be 15 feet.

By Order,

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 6918, dated 3rd February 1911, from the Conservator of Forests in Mysore, submitting copies of reports of the District Forest Officers of Mysore, Shimoga and Kadur on the subject of revising the retail sale rates of timber, and submitting for orders three statements showing the existing and proposed rates at the depots in the abovenamed three districts, and requesting that, as regards sales of 2,000 c.ft. or more, he be given the discretion to accept tenders below the sanctioned rates.

No. R. 5331—Ft. 117-10-2, DATED BANGALORE, 20TH MARCH 1911.

ORDER THEREON.—The prices of timber, especially the superior logs and jungle woods, having risen considerably since the time when they were last fixed, and the proposed increases being warranted by the existing conditions of the market, Government are pleased to sanction the revised rates as recommended by the Conservator with a few modifications. They also approve of reducing the number of classes into which teak has been divided from 5 to 2 so as to render the classification more easily workable. In the case of Beete the classification is hereafter to be with a regard to the girth and not to cubic contents. Government consider it inexpedient to sanction lower rates where large quantities are purchased.

2. The rates now fixed are for retail prices of logs selected by the purchaser. The Conservator should kindly arrange for sales by auction of timber which may be left unsold at these selection rates. The sales by auction should be on fixed dates at regular intervals, say in the first or other week of each quarter. Specific instructions should be given as to the total quantity to be offered for sale by auction, the manner of making up the lots if local circumstances preclude the desirability of selling log by log; and the instructions should direct whether lots are to be made up so as to consist of logs as far as possible uniform in quality or of logs good, bad and indifferent put together in a mixed way. Perhaps it would be desirable to withhold all first class logs from sale by public auction. In any case in which lots are made up each lot should not consist of more than five logs lest the lot come to be beyond the means of an average purchaser. A copy of the instructions which the Conservator will give should be sent up to Government for information.

3. These instructions should be regarded as tentative, a report on their working being submitted at the end of six months. Under them timber will be sold either at the fixed rates, or by public auction in accordance with the terms notified in that behalf. Sale in any other way will require the previous sanction of Government.

4. The following notification will be published in the Gazette.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Conservator of Forests in Mysore.

No. R. 5332 / Ft. 117-10-3

GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, 20th March 1911.

NOTIFICATION.

In modification of previous notifications on the subject, it is hereby notified for general information that until further orders, timber at the various depots in the districts of Mysore, Shimoga and Kadur will be sold at the rates hereunder mentioned in each case. These are retail rates for logs of wood selected by the purchaser and do not relate to timber sold from time to time by public auction on terms to be specified in the notifications relating to them :—

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Forest), dated 25th March 1911.

READ—

Petition dated 28th February 1910, from Shamanna and other tangadi bark contractors of the Chitaldrug and Tumkur Districts, praying for certain concessions in respect of their tangadi contracts.

2. Letter No. 659, dated 17th May 1910, from the Deputy Commissioner, Tumkur District, reporting on the petition.

3. Letter No. 543, dated 30th November 1910, from the Deputy Commissioner, Chitaldrug District, reporting on the same.

4. Letter No. 6304, dated 12th January 1911, from the Conservator of Forests in Mysore, expressing his views on the suggestions contained in the Deputy Commissioner's letters.

No. R. 5455-64—Ft. 179-09-6, DATED BANGALORE, 25TH MARCH 1911.

ORDER THEREON.—The right of collecting the bark of tangadi shrubs growing on lands at the disposal of Government is sold by public auction from time to time; and according to the practice at present prevailing no account is taken of unoccupied lands covered by the lease but subsequently disposed of for purposes of cultivation during the currency of such lease. On a representation made in the petition read above, Government have considered the question in consultation with the Deputy Commissioners of the Tumkur and Chitaldrug Districts and the Conservator of Forests.

2. They are of opinion that the area of the lands subsequently taken up for purposes of cultivation is comparatively small and that the mere area affords no useful index to the amount of bark lost to the lessees. It is inexpedient and impracticable to frame elaborate rules under which a refund can be granted to the contractors for the tangadi bark on lands taken up for cultivation or any period of time fixed within which the lessee may remove the bark from such lands before cultivation begins. It may also be observed that lands resigned from occupation go to augment the area to be worked under the lease. Under the existing system of the sale of the right by auction the contractors may be expected to take all these variable factors of the business into consideration in offering their bids. In these circumstances Government see no reason for any modification of the existing system.

3. In order to prevent a similar question being plausibly raised again Government direct that a clause be inserted in the Notification and in the lease to the effect that while Government will not make any extra demand for lands resigned from occupation, the lessees shall not be entitled to any rebate on account of lands taken up for cultivation during the currency of the lease.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Forest), dated 28th March 1911.

READ—

Correspondence ending with letter No. 3232, dated the 10th September 1910, from the Revenue Commissioner in Mysore, forwarding copies of certain correspondence and a report from the Deputy Commissioner of the Mysore District on the subject of granting lands for cultivation to the Idigars and Thoreyars of the Sangerasettihalli village in the Hunsur Taluk, out of the Bechirak Kayalalu village which has been included in the Naval Kodi Kaval.

2. Reminder petition dated 21st November 1910, from residents of Sangerasettihalli.
3. Letter No. 5334, dated the 28th December 1910, from the Excise Commissioner in Mysore.

No. R. 5509-12—Ft. 91-10-4, DATED BANGALORE, 28TH MARCH 1911.

ORDER THEREON.—Navalkodi Kaval is one of the kavals under the management of the Amrut Mahal Department in the Hunsur Taluk. For several years past the residents of the Sangarasettihalli village have been praying for the grant of lands out of the said kaval for cultivation and for building houses as they have no lands to cultivate and no sites to build houses on. The Revenue Commissioner and the Deputy Commissioner of Mysore state that the Amrut Mahal Superintendent has no objection to transfer the kaval to the Revenue Department, provided that the Marur and Hodike Katte Kavals are given in exchange. Under orders contained in Government Order No. 5252-58—Ft. 71-09-4, dated the 31st January 1910, these two kavals stand allotted to the Excise Department, certain portions being reserved for cultivation. It is understood that the Excise revenue will not suffer so long as the date trees standing in the kavals are taken proper care of by the Amrut Mahal Department. The Excise Commissioner agrees to the proposal but suggests, however, that the Revenue Department should consult him before giving date groves for cultivation.

2. Government are in these circumstances pleased to sanction the proposal of the Revenue Commissioner to transfer the Navalkodi Kaval to the Revenue Department, the Amrut Mahal Department being allotted in exchange the Marur and Hodikekatte Kavals the date revenue of which will be under the control of the Excise Department. The Amrut Mahal Superintendent is requested to see that proper care is taken of the date trees by his department.

3. The Revenue Commissioner is requested to have the Navalkodi Kaval divided into small numbers of convenient size in communication with the Superintendent of Survey in view to their being given out for cultivation at an early date and dispose of them to the best advantage of Government and of the Idigars and Thoreyars concerned.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Forest), dated 28th March 1911.

READ—

Letter No. 10049, dated 13th May 1910, from the Conservator of Forests in Mysore, stating that hulbanni realizations from reserved lands should be credited to "Forests," and requesting that necessary instructions may therefore be issued to the Revenue Department to desist from the sale of hulbanni on such lands.

(2) Letter No. 8067, dated 27th January 1911, from the Revenue Commissioner in Mysore, submitting the opinions of the Deputy Commissioners of Districts on the subject, and observing that no change in the existing practice is necessary.

No. R. 5524-5—Ft. 177-09-4, DATED BANGALORE, 28TH MARCH 1911.

ORDER THEREON.—The opinion of the Deputy Commissioners is generally against the adoption of the Conservator's proposal. That opinion is based on the fact among others that the notification under Sections 4 and 35 (iii) of the Forest Regulation to include certain kharab lands under "Reserved lands" is only a step preliminary to their being constituted into State Forests and until this is decided upon the income from such lands should not be credited to the Forest Department. It is also argued that grass cannot be treated as "Forest produce" to which alone the Forest Department is entitled.

The Revenue Commissioner also considers that no change in the existing practice is called for. The Government concur in this opinion and are not disposed to sanction the Conservator's proposal.

Proceedings of the Government of His Highness the Maharaja of Mysor, Financial (General Finance), dated 13th March 1911.

READ AGAIN—

(1) Government Proceedings No. Fl. 2324-9-G F. 213-09, dated 10th November 1910, regarding the revision of the work of the State Huzur Treasury and the organization of a Local Audit Department.

(2) Letter No. 3550, dated 10—12th December 1910, from the Comptroller to the Government of His Highness the Maharaja of Mysore, submitting a note embodying his proposals for the said revision of work.

No. Fl. 4795-6—Gen. Fin. 213-10, dated Bangalore, 13 March 1911.

Order thereon.—In the letter read above the Comptroller proposes the following arrangement for distributing the work now done by the Huzur Treasury between that Treasury, the District Treasury and his own office:—

1. Remittance Work 2. Opium. 3. Stamp 4. Small Coin	To be continued to be performed by the State Huzur Treasury and to be in charge of an Assistant Comptroller.
5. Jamakarch Account. 6. Dewan's Bank Account, including drawing of cheques. 7. Safe Custody Register 8. Surplus and other Investment Accounts. 9. Palace Fund Accounts 10 Mysore Spinning and Manufacturing Company's Accounts	To be transferred to the Bank Section of the Comptroller's Office (Book and Budget Branch).
11. Payment of Salaries, Establishment, Contingency, Travelling Allowance Bills of some Headquarter Offices. 12 Military Fund Payments. 13. P. W. D. Cheque Payments. 14. Deposits (Chief Commandant, Geological, Chief Court, Forest, etc.) 15. Forest Department Transactions. 16 Pensions - Ordinary 17. Pensions—Pallegar. 18. Remittance Transfer Receipts and Supply Bills. 19. Insurance Transactions. 20. Receipts	To be transferred to the Bangalore District Treasury.

He also submits a proposition statement of establishment required for carrying on the work in the Comptroller's Office and in the Bangalore District Treasury, the proposals showing a net saving of Rs. 123 per mensem or Rs. 1,476 per annum in the present cost of the State Huzur Treasury as the result of such an arrangement.

2. The Government of His Highness the Maharaja of Mysore pleased to sanction the Comptroller's proposals with the modifications specified below:—

(1) The bills of all Head-quarter Offices should be preaudited as now, the preaudited bills being cashed at the District Treasury. The preaudit system will be tentative for six months till the new arrangements in the District Treasury get into working order, when, if cosidered necessary, it may be dispensed with.

(2) All transactions with the Madras Bank should be done in the State Huzur Treasury until further orders.

(3) All Pallegar pensioners should be paid at the State Huzur Treasury until the method of payment of such pensions is altered and brought into line with that of ordinary pensioners

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 4427—B. & R. 748, dated the 21st January 1911, from the Comptroller to the Government of His Highness the Maharaja, submitting a report on the Resource Operations in the State for the year 1909-10.

" I have the honor to submit the following report on Resource Operations in the State for the year 1909-10.

Minimum balance.

2. A comparison of the actual total balances in the treasuries in each month of the year under report with the estimated minimum shows (*vide* Statement A) that the balances were, as in the preceding years, in excess of the minimum throughout the year. This increase is visible in all the treasuries except in the Bangalore Treasury during the first seven months of the year in which it required, as usual, to be subsidized almost every month from the State Huzur Treasury. It was in the month of February that the difference between the minimum and actual balances was the smallest, inasmuch as all the available balance in the treasuries was drawn off in the preceding month to pay the 1st instalment of the British Subsidy.

3. The balances were also less than the corresponding actuals of the previous year except in the months of March and June, when the previous actuals were much lower than the present; in the month of May, the difference in the actuals was insignificant. The relief operations opened in connection with the distress that prevailed in 1908-09 and the grant of grain compensation allowance, account, as noted in my previous report, for the large balances then retained in the treasuries; and with the return of a year of prosperity, it was possible to draw off to headquarters much of the accumulated balances in the District treasuries.

Movement of Funds.

4. Transfer of funds was, as usual, mainly effected by means of specie and currency note remittances and to a certain extent, by means of supply bills.

5. Statements B and C show the amount of cash and currency note remittances from and to the several treasuries. The total inward remittance was Rs. 36,37 lakhs against 30,54 in the previous year, of which 17,00 was to Bangalore, 9,98 to Mysore, 6,50 to Kadur and the remaining amount to other districts. The remittances to the deficit treasuries of Bangalore and Mysore were, as usual, during the non-collection season and those to Kadur consisted always of specie sent in exchange for currency notes received from that treasury.

6. The inward and outward remittances of currency notes were 7,75 and 43,36 respectively against 5,23 and 30,64 of the year previous. Shimoga, Kadur and Hassan remitted in all about 33,00 and the net outward remittance was 35,61 against 25,41 in 1908-09. The inward remittances of currency notes were chiefly to Bangalore (2,40), Kolar (1,89) and Mysore (3,25), Chitaldrug receiving only 21 thousand worth of currency notes.

7. The net outward remittance both of specie and currency notes was 60,27 and to this, Kolar (20,98), Tumkur (11,72), Shimoga (15,36), Kadur (11,26) and Hassan (10,55) contributed to a large extent. The net issue from the Chitaldrug District amounted only to 5,40. In Bangalore and Mysore which are deficit treasuries, the receipts exceeded the issues by 13,24 and 1,76 respectively.

8. Seeing that the total amount of inward and outward remittances aggregated during the year to Rs. 1,33,01 against only 1,19,11 of the preceding year, the cost of remittance, *viz.*, Rs. 3,995 was less, as compared with Rs. 3,936 incurred to carry a total remittance of Rs. 1,19,11 in the previous year and this result is chiefly due to the vigilance exercised in preventing movements in opposite directions.

9. The total amount of supply bills issued was Rs. 5,32 against 3,27 in 1908-09, thereby yielding an increase of Rs. 270 in the commission realised in addition to the savings caused in remittances. The State Huzur and the Mysore District treasuries were the only drawing treasuries, while, the treasuries drawn upon were the State Huzur, Shimoga, Kadur and Mysore.

10. The following table shows that, while there is some variation in the amounts of bills applied for by the Madras Bank and Miss Burns, who have been resorting to this mode of remittance from a long time, the change for the better is conspicuous in the case of *others* which group includes the general public, in whose favor, the present arrangements in regard to supply bills were recently inaugurated.

	Amount issued in		More+ Less — than
	1908-09	1909-10	1908-09
	Rs.	Rs.	Rs.
Madras Bank	44,100	35,500	—8,600
Miss Burns	2,34,674	2,90,567	+55,893
Others	48,503	2,06,033	+1,57,530
Total ...	3,27,277	5,32,100	+2,04,823

This growing demand of supply bills may be regarded as an index of the extent to which the facilities offered by Government are appreciated and availed of by the general public.

Absorption of small coins.

11. In my report of last year, it was noticed, on a comparison of the absorption of the coins during the three years commencing from 1906-07, that the absorption had been gradually diminishing owing to the general depression in trade and the unfavorable seasonal conditions. During the year under report, however, there has been a sudden increase in the demand for coins and the absorption rose to the normal level, as is evident from the statistics given below:—

1906-07	2,43
1907-08	1,67 or 76 *less* than the previous year
1908-09	96 or 71
1909-10	2,44 or 1,48 *more* than the previous year.

12. The following table gives the net result of the absorption of small coins, as compared with that in the previous year:—

Treasuries	1908-09	1909-10	Net result
State Huzur	1,27	1,21	—6
Bangalore	—100	—64	+36
Kolar	2	12	+10
Tumkur	—2	1	+3
Shimoga	8	36	+28
Kadur	48	56	+8
Chitaldrug	18	19	+1
Mysore	4	43	+39
Hassan	—9	20	+29
Total ...	96	2,44	+1,48

The increase is shared by all kinds of coin but, the increases under quarter rupees, one-eighth rupees and one annas are conspicuous, being respectively 44, 46 and 22. Leaving the State Huzur Treasury which is only a central depot for issuing coins and the absorptions in which are counterbalanced to more than half the extent by return of coins in the Bangalore District Treasury, the consumption was, as usual, largest in the Kadur District; next in order, come Mysore, Shimoga, Hassan and Chitaldrug; Kolar showed 12 and Tumkur the lowest, only one."

Financial (General Finance), dated 17th March 1911.

No. Fl. 4854-63—G. F. 297-10-2, dated Bangalore, 17th March 1911.

Order thereon.—Recorded.

2. During the last year the supply bills were utilised to a larger extent, the gain to the State being Rs. 270 more than in the previous year. It is hoped that with wider publicity and a gradual increase in the number of Treasuries upon which the bills could be drawn, the scheme will become popular.

J. S. CHAKRAVARTI,
Financial Secretary to Government.

To—The Comptroller, Mysore Government.
The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 4220—924, dated the 21st February 1910, from the Comptroller to the Government of His Highness the Maharaja of Mysore, submitting the marginally noted i. to viii. annual statements of loans and advances for 1908-09.

i. Loans to Agricultural Banks.
ii. Loans to Encumbered Jahgirdars.
iii. Special Loans.
iv. Other Loans.
v. House-building Advances.
vi. Mysore Weavers' Lines.
vii. Loans to Co-operative Societies.
viii. Famine Advances, 1891-92.

2. Letter No. 6579—1976, dated the 14th June 1910, from the same officer, submitting the remaining marginally noted statements Nos. 1 to 7.

1. Advances for irrigation wells.
2. Loans to irrigation wells.
3. Loans for saguvali kattes.
4. Loans for the improvement of lands and plants.
5. Loans for restoration of tanks.
6. Land Improvement Loan under revised rules of 1903.
7. Takavi loans under revised rules of 1908.

3. Letter No. 395, dated 11th January 1911, from the Deputy Commissioner, Mysore District, submitting a statement of accounts of the several members of the late Bakshi Tippiah's family duly corrected and brought into order.

No. Fl. 4992-5000—G. F. 317-09, dated Bangalore, 27th March 1911.

Order thereon.—The statement of Land Improvement and Takavi Loans call for no remarks since the Comptroller's report brings to notice no irregularities or omissions relating to them under para 30 of Government Order No. Fl. 1150-1192, dated 9th February 1903. The amounts, however, outstanding on these accounts are very large owing to extensive payments having had to be made on account of the distress that prevailed during the year.

2. In para 3 of Government Order No. 422-30, dated 15th July 1909, a sum of Rs. 260-14-3 was stated to have been outstanding in the Bangalore District, out of the advances made during the Famine of 1891-92. The Deputy Commissioner of Bangalore, in his letters Nos. S. 439, dated 19th February 1910, and S. 170, dated 18th October 1910, has explained, how, except for a few annas, the whole amount has been adjusted. But the Comptroller to whom copies of the letters were forwarded has repeated in the statement for the year under review, the same amount of Rs. 260-14-3 as still outstanding. The Comptroller is requested to have this looked into.

With regard to the amount of Rs. 5,292-13-4 outstanding in the Mysore District, Government regret to observe that the Deputy Commissioner has failed to take steps to have the amount adjusted in the accounts as stated by him in his letter No. 145, dated 2nd September 1910.

3. Of the "Other loans," that relating to Mahomed Mukdum and Ahmed Ali has been practically closed and final orders will be passed as soon as the Public Works Department report of their having taken possession of the building, bought in by the Government, is received. The repayment of the other two loans appears to be regular.

4. The statement of Special Loans contains the loans relating to the Bowring Institute, Chennaviraraj and Sugandharaj and the Bikanir State, the repayments in the case of all of which are regular, and the transactions call for no remarks.

With regard to the loan granted to the Mysore Spinning and Manufacturing Company, the Managing Director on behalf of Government (the Comptroller) was requested in para 6 of Government Order No. Fl. 422-30, dated 15th July 1910, to submit an early report in the matter of placing the financial relation of the Company on a satisfactory footing. The Director's report formulating his proposals has been received and is engaging the attention of Government.

5. Of the loans to Encumbered Jahgirdars referred to in para 7 of the Government Order dated 15th July 1909, those relating to Musaheb Rama Rao, Venkatsubbammanni and Veene Bakshi Subbanna have been since closed, while that relating to Srinivasa Rao and Venkatesaiya of Bakshi Tippiah's family is also likely to be closed soon, as according to the statement of accounts relating to the loan rendered by the Deputy Commissioner of Mysore with his letter No. 395, dated 11th January 1911, the whole of the debt due by these members, except for trifling sum, is shown to have been repaid.

6. With regard to the loan granted to the late Regimentdar Lakshmana Rao, the Government directed the Deputy Commissioner, Mysore District, in para 13 of the Government Order dated 15th July 1910, to take possession of the mortgaged lands, on account of the indifference the Inamdar displayed in the matter of punctual repayment of principal and interest. On the subsequent representation of the Inamdar, however, to pay up the arrears of overdue instalment of Rs. 3,000 in a lump immediately, they directed that the lands may be allowed to continue in the Inamdar's own management. The Deputy Commissioner in his letter No. 145, dated 2nd September 1910, has reported that the debtor has since paid the amount and Government hope that he will be regular in regard to payments in future.

7. Of the rest of the loans, Government regret to note that with regard to only four of them, *viz.*, those relating to Agrahar Nanjaraj Urs, Venkata Rao of Gandanahalli, Annu Rama Rao Narayen and Inamdars under the Hemagiri Anikat are the repayments regular.

8. The condition of the loan relating to the members of the Nandagudi family continues to be as unsatisfactory as ever. The accumulation of interest is so large as Rs. 27,020-2-7. Towards this and the arrears of Rs. 17,961 due on account of instalments of principal, only a small sum of Rs. 1,124-6-10 seems to have been recovered and credited towards interest. Thus the entire amount of the loan besides the large amount of accumulated interest thereon remains unpaid.

The mortgaged villages are under Government management and the Deputy Commissioner, Bangalore District, was asked in para 11 of the Government Order dated 15th July 1909, to submit a report explaining why the recoveries have fallen so short of the estimated annual repayment of Rs. 4,500. No reply has been received from the Deputy Commissioner in spite of several reminders for the same. Government regret to find that the Deputy Commissioner has failed to realise the responsibility of Government as mortgagees of the Inam villages, and direct that he should personally look into the matter and submit the report called for within a fortnight of the receipt of this order.

9. In reply to para 13 of the Government Order dated 15th July 1910, calling for explanation as to why the collection from the villages mortgaged by the late Mr. B. Gopala Iyengar for his loan was slack, the Deputy Commissioner, Mysore District, reports in his letter No. 470, dated the 19th January 1910, that it was due to the shanbhog keeping the accounts of the village in a deplorable condition, that he has been suspended and orders have been issued to the Amildar for adopting stringent measures for the speedy reduction of arrears. Government are glad to notice an improvement in the recoveries, the amount credited during the year under review being Rs. 2,317 against the estimated annual instalment of Rs. 1,666-10-8.

10. With regard to the loan granted to Mr. Dalvoi Devaraj Urs, Government have under their consideration the question of revising the arrangements so that the loan may be discharged within a reasonable time.

11. As regards the loan accounts of the several branches of the late Anche Bakshi Tippiah's family, the Deputy Commissioner of Mysore District, who was directed in para 15 of the Government Order No. Fl. 422-30, dated 15th July 1909, to set right in conjunction with the Comptroller the confused condition into which it had fallen has with his letter No. 395, dated 11th January 1911, submitted a copy of his letter to the Comptroller forwarding to him statements containing the correct classification of the several accounts. The Comptroller is requested to submit the report of verification early, as the debtors have been pressing for a speedy settlement of their transactions.

Financial (General Finance), dated 27th March 1911.

12. With regard to the loan granted to the late Mr. Basappaji Urs, it is observed that no repayments have begun. Certain amounts that were realised during the year under review were appropriated towards the kandayam of the mortgaged properties. The Deputy Commissioner of Mysore who has been requested to submit a scheme of management of the mortgaged properties should expedite its submission.

13. With regard to the loan of Siddaraj Urs and Krishnajammanni, it is regretted that the annual yield of the mortgaged villages falls far short of the estimated revenue and that therefore there is no prospect of the discharge of the loan. The Deputy Commissioner should take steps to see that the estates are turned to the best account possible and propose measures which, in his opinion, may be necessary to increase the return, so that the loan may be discharged within a reasonable time.

14. With regard to the lands mortgaged by encumbered Jahgirdars which are in Government possession, the Government desire to impress on the Deputy Commissioners concerned that in the interests of the Government as well as in the interests of the Jahgirdars, the management of such lands should be as efficient and satisfactory as possible. There is reason to fear that in some cases, at least, there is considerable room for improvement. The chief justification for taking over the management of the encumbered lands from the hands of the Jahgirdars to those of Government, a measure which in the majority of cases cannot but be distasteful to the proprietors themselves, consists in the fact that Government management is expected to be more efficient than private management and the enhanced returns will benefit the mortgagors by extinguishing the loan in a shorter period. Government look to the Deputy Commissioners for making this justification so real in every case, by personal care and attention as to be readily admitted by all unbiassed and fairminded proprietors.

15. It is observed that under the three heads alone of "Encumbered Inamdars" and "Special Loans" and "Other Loans," the recoveries are in defect to the extent of Rs. 2,19,935.

J. S. CHAKRAVARTI,
Financial Secretary to Government.

To—The Deputy Commissioners of Districts
The Comptroller, Mysore Government.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Correspondence ending with letter No. 10159, dated the 6th June 1910, from the Excise Commissioner in Mysore, submitting his final report in regard to the embezzlement of arrack revenue by special shroff Venkataramaiya of the Kolar Taluk.

No. FL. 4698-708—S. R. 45-05, DATED BANGALORE, 4TH MARCH 1911.

ORDER THEREON.—With a view to obviate inconvenience to the separate arrack shopkeepers who have to draw their supply from the Bonded Depots almost every day and to give relief to the shroffs of certain Treasuries where transactions were heavy, Government sanctioned the appointment of "Special Shroffs" for certain taluks. Venkataramaiya was one of such shroffs appointed for the Kolar Taluk in August 1899. His duty consisted in receiving from the separate shopkeepers in the Kolar Taluk the moneys due to Government on account of the duty and the price of arrack and in issuing chellans on the Depot at Kolar authorising the delivery to the licensees of so much liquor as was paid for. The collections made by him were to be paid into the Treasury each day with a list of payments and duplicates of chellans issued by him. For about three years, he did his work properly, but subsequently, that is, in about October 1902, he began to withhold portions of the collections made by him and continued to do so undetected till February 1905, when, during his absence on a week's leave, the fraud was casually discovered by the Taluk Sheristadar, Lakshminaranappa, on the production before him by a licensee of an arrack shop of a chellan which had been duly signed and sealed by the shroff but in respect of which the amount had not been credited to the Treasury. A thorough inspection of the accounts relating to the period during which Venkataramaiya was the special shroff was thereupon made and it was found that a sum of Rs. 2,825-7-6 representing the duty and price in respect of 535 gallons of arrack had been misappropriated by him. Of the chellans all but four for Rs. 42-4-0 reported to have been written and signed by vottu mutsaddi Tirumalachar, were admittedly written and signed by Venkataramaiya. Both Venkataramaiya and Tirumalachar were placed on trial and the former was sentenced to three years' imprisonment but the latter was acquitted by the Chief Court.

2. The questions now for consideration are (1) how far the loss that has accrued to Government can be made good, and (2) what checks should be prescribed to prevent the system of special shroffs from affording any scope for abuse.

3. Government agree with the former Excise Commissioner, Mr. Purnaiya, who first reported on the case, that only those who actually misappropriated Government money or connived at such misappropriation by preparing false accounts and false certificates should be held responsible for the recoupment of the loss to Government. They consider that in this category are the special shroff Venkataramaiya and vottu mutsaddi Thirumalachar. From the papers on record it is seen that beyond a sum of Rs. 500, being the security deposit tendered by the special shroff and a further sum of Rs. 8, representing the surrender value of his State Life Insurance Policy, nothing more can be recovered either from the special shroff or from the vottu mutsaddi. Government therefore direct that the aforesaid securities be realised and the proceeds credited to Government, the adjustment of the balance being subject to their further orders.

4. In his letter No. 1813, dated the 9th November 1906, Mr. Purnaiya, the then Excise Commissioner, pointed out that the responsibility for the loss of Government money in this case should, in part, be made to rest on the carrying contractors also, as the mutsaddi of the Narasapur Bonded Depot was proved to have issued liquor to shopkeepers on unauthorised or transparently improper vouchers. Government observe that the carrying contractors should accept the responsibility

for that part of the loss that has accrued to Government by reason of the depot mutsaddi having exceeded the proper limits of his authority. Though the local officers considered that there was not enough evidence to bring home to the mutsaddi in question a criminal charge of misappropriation, the records sent up to Government disclose a number of irregularities and malpractices on his part which show that in all probability he was acting in collusion with the special shroff Venkataramaiya. Among others, the following may be singled out for special mention:—

(1) He (the mutsaddi) kept custody of the duplicate chellans even after the issue of arrack when properly they should have been returned to the licensees of the shops;

(2) The certificate of credit of money is invariably written and dated by him, though it was the duty of the shroff to do so;

(3) The depot mutsaddi has himself signed the chellans in a large number of cases though clearly he had no authority to do so;

(4) In a few cases, nobody has signed the chellans and yet the depot mutsaddi has issued the liquor.

5. These irregularities clearly indicate that the depot mutsaddi Ranga Rao deliberately exceeded his powers and ignored the directions contained in Excise Commissioner's Circular No. 259-66—20, dated the 10th July 1897. Government therefore consider that the carrying contractors are liable for the violation of the conditions of sale by their employee and the loss caused to Government thereby and they therefore direct that under para 12 of the Contract Bond executed by the carrying contractors, such portion of the amount defalcated as may be decided by the Excise Commissioner in consultation with the Deputy Commissioner of the Kolar District to be traceable to the improper issue of arrack by the depot-keeper on irregular or unauthorised chellans as stated above, be made good by the carrying contractors.

6. On the next question as to what checks should be devised to prevent the abuse of the system of "Special Shroffs," Government are pleased to prescribe in consultation with the Excise Commissioner the following rules to be given effect to as early as practicable:—

(1) The special shroff shall be required to grant an acknowledgment of money received by him on chellans to be taken out of a book containing a specified number of chellans consecutively numbered and stamped with the Taluk Cutcherry stamp just as registers kept by the Taluk Revenue gumastas and the shanbhogs, khate and kiridi are stamped. The books themselves shall also be numbered serially.

(2) The chellans, aforesaid, shall contain the same particulars as the "G" chellan now in use except that the words "Nagadi Gumasta" and "Taluk Shirastadar" shall be omitted, and the words "Special Shroffs" shall be substituted for "Shroffs." The more readily to distinguish them from other "G" chellans, these chellans shall be printed on coloured paper, the colour being prescribed and varied from time to time by the Excise Commissioner. As an additional distinguishing feature, the tabular statement in the form shall be printed in horizontal instead of vertical columns.

(3) The Taluk Office shall issue these books to the special shroff as often as may be required by him. He shall keep them in his personal custody and be responsible for their count and proper use. Intimation of the issue of the books to the special shroff with particulars of the numbers of pages and the colour, etc., of the paper shall be given to the Bonded Depot-keeper that he might guard himself against the presentation of spurious chellans.

(4) The chellans shall have currency only for a period of *seven* clear days from the date of issue.

(5) On the 10th, 20th and the last day of each month, the Bonded Depot keeper shall present these special chellans at the Taluk Treasury and obtain in lieu

Financial (Separate Revenue), dated 4th March 1911.

thereof a consolidated Treasury receipt signed by the regular shroff, nagadi gumasta and Taluk Sheristadar or Amildar, who will grant such receipts only after seeing that the moneys acknowledged on them by the special shroff have already been paid into the Treasury and credited in the Treasury "C" accounts.

(6) The consolidated Treasury receipt thus granted shall be sent by the Bonded Depot-keeper to the Deputy Commissioner just as the separate "G" chellans now are.

7. Government have also to observe in this connection that the Day Book and the Ledger maintained by the Excise clerk of the Taluk Office is written up from the Treasury foils of "G" chellans and that the figures for the column under collection in the monthly D. C. B. statements are taken from the Day Book and Ledger so prepared. This is irregular. The D. C. B. statement is a purely departmental return and the figures required therefor should be derived from the departmental accounts, quite independently of the Treasury accounts. It would be meaningless to require the Treasury to certify to the credit shown in the D. C. B. statements, when such credit is based on the Treasury account itself. In order to effectually watch the Treasury credits and prevent embezzlement of Government money, the maintenance of two separate sets of accounts from independent sources is prescribed by Government. Each of them is intended to operate as a check on the other. Government therefore request the Excise Commissioner to issue suitable instructions in the matter in consultation with the Comptroller, if necessary.

8. On a consideration of all the facts of the case, Government are constrained to observe that the main responsibility for the failure to detect these frauds in good time rests with the Excise Commissioner's Office, the Excise Branch of the Deputy Commissioner's Office and the Officer in charge, *viz.*, Mr. Dunning. In order that the Excise Commissioner might be able to guard against such malpractices, every transaction of the Central Distillery and every transaction of each one of the Bonded Depots in the State was being reported to his office every day and in some cases even the hour of each transaction was communicated. It was manifestly the duty of his office to see that the liquor not in stock in a depot was represented by cash in the Treasury. The Excise Divisional Officer (Mr. Dunning, now retired) was to blame, because he did not exercise the least check over the compilation of the monthly accounts in the district and his inspections of the taluk accounts were most perfunctory. Government are constrained to place on record their great displeasure at this neglect of duty on his part. The Deputy Commissioner's office could have likewise detected the fraud if, as required by the rules, a systematic comparison of the Treasury and departmental figures had been made every month. This was not done and the responsibility for this omission rests on Head Accountant Krishnappa who, besides, is to blame because a whole series of "N" extracts, which should have been received by the Deputy Commissioner's Office, were either not received there at all or mislaid by him. Government direct that his promotion be stopped for the next three years as a punishment for his dereliction of duty.

9. In conclusion, Government observe that the root cause or occasion for the frauds disclosed in this case is the way in which the Excise Commissioner has worked the special shroff system. That method was very defective indeed and opposed to the system sanctioned by Government. Government never intended that the special shroff should be independent of the Taluk Treasury, issue chellans on his own authority without the signature of the nagadi gumasta and the Taluk Sheristadar and do his business outside the Taluk Office. This departure from the scheme contemplated and sanctioned by Government has given occasion for the frauds under notice. In the circumstances of the case, Government do not think that the officials of the Taluk Treasury can justly be blamed. The Taluk Sheristadar, D. Narayana Rao, was practically a Treasury Officer without time to compile or check compilations of arrack accounts. The Amildars, Messrs. A. Krishnaswami Iyengar and A. Mrithyunjaya Iyer, could have certainly detected these frauds readily had they been properly served by the Taluk Excise clerk, Tirumalachar, and the Taluk Excise Supervisor, Saldhana. But they were not. Tirumalachar has been dismissed the service and Saldhana otherwise adequately punished.

10. Finally Government desire that the Excise Commissioner should take this opportunity to cause a thorough examination of the Excise accounts, relating to the taluks having a special shroff, to be made with a view to ascertain if there are more cases of defalcation of the kind now under notice and submit a report to Government at the end of one year.

READ—

Letter No. 5987, dated the 10th January 1911, from the Excise Commissioner in Mysore, recommending that the existing rates of tree tax on toddy trees be raised, and proposing that in order to facilitate collection the tree tax might be collected in two equal instalments instead of in instalments of one-third and two-thirds as at present

---

No. FL. 4980-9—S. R. 116-09, DATED BANGALORE, 25—27TH MARCH 1911.

ORDER THEREON.—Government are pleased to direct that the following rates of tree tax be prescribed in supersession of the existing rates with effect from the 1st July 1911:—

Kind of tree.	Rate of tree tax. Rs a p.
Date	.. 1 8 0
Bagani ...	.. 2 0 0
Cocoanut ...	... 2 6 0
Palmyra ...	. 1 12 0
Dadsal ...	... 0 12 0

2. The proposal to collect the tree tax in two equal instalments, the first instalment being recoverable on the date of application and the 2nd instalment on the 1st of the following third month, is approved.

3. The contractors who have purchased toddy shops on three or two years' leases may be given the option of keeping on their present lease, subject to the payment of the enhanced tree tax or of giving it up at the end of the current official year, the shops in this case being resold in auction.

4. A notification prescribing the revised rates of tree tax will be published in the *Mysore Gazette*.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Banking), dated 18th March 1911.

READ—

Letter No. 2103, dated 3rd January 1910, from the Secretary, Insurance Committee

I have the honor to submit herewith for orders of Government a copy of Resolution IV passed in the meeting of the Insurance Committee held on the 11th December 1909, along with a set of the draft rules relating to the addition of a Family Pension Branch to the Mysore State Life Insurance.

The file of papers containing the opinion of the members of the Insurance Committee are also forwarded for reference and kind return.

Copy of Resolution No. IV, dated 11th December 1909 —

"After further consideration of all the facts set forth by the Secretary in reference to the Scheme, it was resolved that the draft rules relating to the addition of a Family Pension Branch to the State Life Insurance be submitted to Government for favorable consideration and adoption after such further enquiry as may be deemed necessary by the Government, provided that the funds belonging to this Branch are kept separate from those of the present Life Insurance Department."

No. Fl. 4906—B. 33-09-6, dated Bangalore, 18th March 1911.

Order thereon.—Government are pleased to sanction the proposal for starting a Family Pension Fund as an adjunct to the State Life Insurance Scheme. The rules proposed for working the Fund are approved with a small addition and are reprinted hereunder. The rules will be issued in the Gazette and the Fund should be started after 50 persons have expressed their willingness to join.

2. The funds belonging to the Family Pension Branch should be kept separate from those of the Life Insurance Department.

J. S. CHAKRAVARTI,
Financial Secretary to Government.

To—The Secretary, Mysore State Life Insurance Committee, returning his papers.

ADDITION OF A FAMILY PENSION BRANCH TO THE MYSORE STATE LIFE INSURANCE FUND.

SECTION I.

Principles underlying the scheme and general outline.

1. The principles, on which the operations of this Branch will be based, are the same as those underlying the operations of other Family Pension Funds. All subscribers who join the Branch secure substantial family pensions in case they die leaving nominees dependent on them. The pension payable to the nominees may be in many cases much larger than the subscription paid by the subscriber, *e.g.*, if a subscriber aged 25 dies leaving a widow aged 18 after having paid subscription for say six months to the extent of a few rupees, the widow may enjoy a pension of Rs. 10 a month for 50 years or more, *i.e.*, as long as she may live. On the other hand if both the subscriber and the nominee live for a long time or if the nominee dies before the subscriber, the Fund has some advantage. (See however Rule 59.)

2. It will be seen that such an institution for the provision of family pension is one of mutual benefit. The subscribers in a body may be said to undertake the work of maintaining the family of those amongst them who may be so unfortunate as to die leaving helpless dependents. A subscriber whose nominee dies after he has paid subscription for some time may have some satisfaction in knowing that though the contingency for which he was making the payments has not come to pass and the provision has been made unnecessary in his case, his payments will help in maintaining widows and orphans in other cases where the breadwinner has died before the nominees.

3. The fact that all permanent employees of the Mysore Government are required to insure their lives in the State Insurance office guards to some extent against the contingency of dependents of Government employees being left absolutely destitute at the death of such employees. But the interest on the insurance money is not sufficient in any case to maintain the family and for various reasons an unassignable monthly pension is a much surer and better mode of provision for widows and orphans than a lump sum. Moreover the contentment and peace of mind which results from a person feeling that a provision has been made for the maintenance of his family after his death, cannot be held to be secured by the existing insurance rules. Such contentment and peace of mind on the part of public servants are of much direct advantage to the persons themselves and of indirect advantage to the State. The scheme of family pensions is introduced to secure the above result as far as possible. It must be understood however that subscription to the Family Pension scheme will be entirely optional in the case of all present and future employees of the State, and that those who join will have perfect liberty in subscribing for any dependents they like consistently with the rules.

4. The main features of the scheme are the following:—

(1) Subscription to the Fund will be entirely optional.

(2) An official, by paying a fixed monthly subscription during his life time may secure a pension for life or for a term of years to a specified nominee, or specified nominees, such as wife, child, parent or other relative, who may survive the subscriber. If any nominee predeceases the subscriber, the latter shall not get a refund of the subscriptions paid on behalf of such nominee. (See however Rule 59 under which surpluses at actuarial valuations may be devoted to giving some refund in such cases.)

(3) Intending subscribers will be liable to medical examination; there will be no medical examination for nominees.

(4) The amount of pension which can be secured for each nominee shall be not less than Rs. 5 or more than Rs. 30 per mensem, and the aggregate amount of the pensions which may be secured for all the nominees of a subscriber shall not exceed Rs. 80 per mensem, of which not more than Rs. 60 per mensem shall be life pensions.

(5) The nominees will not be permitted to assign their pensions.

(6) Every endeavour will be made to see that the nominees get their pensions promptly, regularly and without any trouble. (*Vide* rules regarding payment of pensions.)

RULES REGARDING THE FAMILY PENSION BRANCH OF THE MYSORE STATE LIFE INSURANCE OFFICE.

SECTION II.

Admission of subscribers.

1. All employees of the Government of Mysore who are eligible for insurance under the Mysore State Life Insurance Rules will have the privilege of providing for the maintenance of their parents, widows, children and certain other relatives by paying additional subscription under the following rules :—

The Branch of the Mysore State Life Insurance Office dealing with such provision will be called the Family Pension Branch.

2. Every intending subscriber to the Family Pension Branch who is already in service shall submit his letter of application through the head of his office to the Secretary, Mysore State Life Insurance Committee, in such form and with such declarations as the Committee may prescribe; and on paying an entrance fee of Rs. 4 shall receive from the Secretary a letter authorising the medical officer to examine him within a month from the date of such letter. In the event of the applicant failing to appear before the medical officer within the period aforesaid, he shall be liable to forfeiture of his entrance fee, unless sufficient reason can be shown by him for non-attendance. In case of renewal of his application, he shall be required to pay a fresh entrance fee.

3. The entrance fee should be paid into the nearest treasury and the treasury receipt may be forwarded to the Secretary, Insurance office, with the application as evidence of payment.

4. The medical officer shall be entitled to a fee of Rs. 4 for each applicant who is already in the service of Government and has been examined before for State Life Insurance. He should submit periodical bills on this account to the Secretary, Insurance office, who will return them, after check, with the Comptroller's order for payment at the treasury.

5. In the case of persons newly admitted to an appointment in which insurance is admissible, the medical examination for ordinary insurance and for Family Pension should take place simultaneously. In such cases no separate medical certificate for admission to the Family Pension Branch will be required and no fee will be payable to the medical officer.

6. No person shall be admitted as a subscriber to the Family Pension Branch unless his general health be favorably reported upon by the medical officer to the satisfaction of the Senior Surgeon to the Government and the Insurance Committee.

7. When an applicant after having been once medically examined by a medical officer is required by him to be re-examined a fee of Rs. 4 for such re-examination shall be paid by the applicant.

8. The Committee may refuse to admit as a subscriber to the Fund any person applying to be so admitted, without assigning any reason whatever for such refusal

9. All matters connected with proposals from intending subscribers shall be considered private and confidential.

10. When an applicant's proposal shall have been accepted or rejected by the Committee, due intimation of the same in writing shall be given to him by the

Secretary through the head of his office within one week from the date of such decision. In case of acceptance, he shall pay the amount of his subscription for the month in which his proposal is accepted within 30 days from the date of receipt of notice of admission in cash into the nearest treasury. On failure to do so, such acceptance shall stand cancelled and in the event of his renewing his application he shall be treated in all respects as a new applicant. The names of all persons accepted as subscribers, the nature and amount of the pension subscribed for, the names, ages and condition of their nominees shall be registered in the Insurance office, and entrance certificates, in a form to be prescribed by the Committee shall be granted to such subscribers on payment of their first month's subscription. Provided that no person shall be entitled to the privileges of a subscriber until he pays his first month's subscription.

II. Nature and limit of pensions which can be secured.

11. The amount of pension which can be secured for each parent, widow, child or relative shall range from Rs. 5 to Rs. 30 per mensem; provided that the aggregate amount of pensions securable for any number of nominees by any single applicant shall, in no case, exceed Rs. 80 per mensem, and that of this amount not more than Rs. 60 shall be life pensions.

12. Pensions are given for life or for a term of years to nominees of subscribers.

13. A pension secured for a parent shall terminate on the death of such parent.

14. A pension secured for a wife shall terminate on her death; provided that the pension payable to her shall remain in abeyance during the life time of a subsequent husband.

15. A pension terminable on death may also be secured for the following persons:—

(*a*) Step-mother.
(*b*) Widowed female relative.
(*c*) Male relative not younger than the subscriber, nor below 21 years of age.

Provided that, in the case of a widowed pensioner, the pension shall remain in abeyance during the life time of any subsequent husband.

16. A pension for life may be secured for any relative, who is afflicted with such mental or bodily infirmity as in the opinion of the Committee, based on the report of a medical officer, permanently incapacitates the person so afflicted from obtaining his livelihood, or in the case of a female, from marrying.

17. A pension for life may be secured for any married female relative whose husband is afflicted with such mental or bodily infirmity, as in the opinion of the Committee, based on the report of a medical officer of the fund, or of any other medical man to be nominated by the Committee, permanently incapacitates the husband so afflicted from obtaining his livelihood.

18. Application for admission as a subscriber shall be received from an employee desiring to secure a provision for any married female relation of good character, forsaken by her husband, or whose husband has remained unheard of for more than seven years at the date of the application. A certificate from two respectable residents of the place testifying to the correctness of the fact shall accompany the application. The applicant shall further solemnly declare the facts of the case in detail at the foot of his personal affirmation.

19. An intending subscriber may secure a provision in the Fund for a widow or orphan not related to him, but quite helpless and destitute and depending on him and living under his protection for not less than ten years at the date of the application, and bearing a good moral character. A solemn declaration to the above effect, giving in detail the facts of the case shall be given at the foot of his personal affirmation.

20. A pension for a term can be secured for any male relative under 21 years of age, and shall terminate on his completing that age.

21. A pension for a term can also be secured for any unmarried female relative, and shall terminate upon the marriage or completion of her 18th year whichever, shall first happen.

III. Pensions not assignable.

22. The pensions granted by the Family Pension Branch are for the personal benefit of the nominees of subscribers. They are not assignable and the Committee shall refuse to pay any pension to any assignee.

IV. Rates of subscriptions and other conditions.

23. The rates of subscription for securing pensions shall be regulated by the tables, appended to these rules, in the following manner :—

For a pension under Rules 13-18, Table I shall apply.

For a pension under Rule 19, Table I or Table II shall apply according as the pension is for life or for a term only.

For a pension under Rules 20-21, Table II shall apply.

24. In fixing the rates of subscription, the age of the subscriber shall be ascertained and calculated according to the State Insurance Rules. The age of the nominee shall be taken as the age on the birth-day preceding the date of admission.

25. No person shall be admitted as a subscriber to the Fund who has more than one wife, living at the same time.

26. Any subscriber, contracting a subsequent marriage during the life time of his wife, shall at the discretion of the Committee, be declared liable to pay an enhanced rate not exceeding 20 per cent of the rate hitherto paid by him.

27. If the Committee decide upon accepting the proposal of an applicant whose life in their opinion, is exposed to more than ordinary hazard, but otherwise good, or if any existing subscriber shall enter into or engage in any service or employment of a hazardous nature, or if his life may otherwise become exposed to more than ordinary risk, such applicant or subscriber shall, during the continuance of such increased risk on his life, be liable to pay an augmented rate of subscription in proportion to such increased risk, not exceeding 25 per cent of the rate payable under the tables appended to these rules. The decision of the Committee as to the liability to pay an augmented rate of subscription under this rule, shall be binding upon all intending and existing subscribers from the date on which the decision may be duly notified to them.

28. Rates of pension and subscription as shown in the tables shall not be altered except with the sanction of Government and even in that case such alteration will not adversely affect contracts existing at the time of alteration.

29. A subscriber wishing to increase the amount of pension already subscribed for any nominee, or to provide for new nominees, shall, in all respects, conform to the rules and forms prescribed for observance in cases of original application for admission. The necessary endorsement shall be made on back of the entrance certificate (*vide* Rule 10).

30. A subscriber may reduce the amount of pension already subscribed for by him by giving notice in writing to the Secretary of his desire to do so and from the first day of the month following that in which such notice shall have been given, he shall be liable to pay a subscription at the rate provided for such lower amount of pension, provided that the subscriber so reducing the amount of a pension and the nominee in respect of whom the pension has been reduced, shall have no claim upon the Fund by reason of the higher rate heretofore paid by the subscriber. The necessary endorsement shall be made on the back of the Entrance Certificate. This rule equally applies to cases of withdrawal or cancellation of provision for nominees.

31. Subscription received beyond the date of death of a subscriber, or death or withdrawal of nominees of such subscriber shall be refunded.

32. A duplicate copy of the Entrance Certificate may be issued to a subscriber on payment of a fee of one rupee, if he satisfies the Committee that the original has been lost or destroyed. From the date of issue of the duplicate copy, the original shall cease to be binding on the Fund.

V. Method of payment of subscription.

33. Subscriptions to the Family Pension Branch are payable by employees in service in the same manner as subscription to the Ordinary Insurance Branch.

34. Subscribers in receipt of pension from Government shall pay their subscription by deduction from their pension at the time such pension is drawn and the rules applicable to those who pay their subscription by deduction from pay shall apply *mutatis mutandis* to the case of pensioners.

35. Subscribers who permanently cease to draw pay or pension from Government for any reason should pay their subscriptions in cash into the nearest treasury of the Mysore Government regularly within the first ten days of each month.

VI. Penalties, etc.

36. Wilful omission or misrepresentation of any facts connected with the name, age, health, or constitution of the applicant, or with the name and age of a nominee, or of any other matter affecting admissibility to the benefits of the Fund or liability to pay augmented rate, shall involve the forfeiture of all claims on the Fund.

37. In the event of a subscriber failing to pay his subscription during the period within which it becomes due according to the prescribed rules he and his nominees shall forfeit all claims on the Fund which he or they may have acquired. Provided that, in case, of the death of a subscriber before payment of his subscription within one month of default, the default shall not operate as a forfeiture of the claims of his nominee but the amount of the subscription in arrears shall in the first place be deducted from the pension payable to such nominee.

38. Provided further that subscriptions paid subsequent to forfeiture of claims on the Fund, shall not operate to revive them without the express orders of the Committee.

39. In the event of a subscriber failing to continue his subscription the Committee may on being satisfied of his inability to pay, allow his nominees, subject to prescribed conditions, such pensions as shall bear to the pensions originally secured the same proportion as the number of complete years during which he has paid his subscription, bears to the difference between 85 and the age at the last birthday of the said subscriber at the time he joined the Fund; provided such subscriber has paid his subscription for a period of not less than ten years for his nominees; provided further that such subscriber furnishes the Secretary, Insurance office, in July of each year with life-certificates of his nominees from two respectable persons, accompanied by a statement from himself showing their present condition, residence and occupation, and further pays during his life-time an annual registration fee at the rate of one anna per rupee of the aggregate yearly amount granted to his nominees under this rule. The pension to nominees is payable only after the subscriber's death.

40. If the subscriber mentioned in the next preceding rule fails to comply with any of its requirements, he and his nominees shall forfeit all claims on the Fund, unless the Committee within three months from date of forfeiture shall, on such terms and conditions as to them may appear proper, order the revival of such claims. If however, a subscriber dies in the month of July before payment of the registration fee prescribed under the next preceding rule, it shall be deducted from the first payment made to his nominees after his death, the certificates and statements required being dispensed with.

41. The Committee may, at any time within six months from the date on which a subscriber forfeits his claims under the operation of Rule 37, re-admit him on his furnishing satisfactory explanation of the cause of default and upon payment of the subscription due, together with a fine not exceeding four times the monthy subscription payable by him. In any other case the Committee may re-admit a subscriber to the benefit of the Fund on such further terms and conditions, if any as to them may seem proper; provided that no application for a revival of claims be admitted after the expiration of one year from the date of default.

42. In the event of a defaulting subscriber dying within the period allowed by the next preceding rule for the revival of his claims and before the actual renewal hereof, his nominees shall not be entitled to the benefit of the Fund except on such conditions as may, in each case, be laid down by the Committee and unless an application be made by such nominees within two months from the death of the subscriber.

43. Provided that such subscriber has not during his life-time expressed his desire in writing to the office of the Fund to cease to be a subscriber either for inability to continue his subscription or for any other cause, within the limit of one year as fixed in Rule 41.

VII. Rules regarding payment of pension.

44. The nominee of a subscriber shall be entitled to the pension subscribed for him or her from the date of the death of the subscriber.

45. Pensions shall be payable except in the cases hereinafter mentioned, only to the pensioners themselves or their duly authorized Agents. For appointing an agent for the purposes of this rule a female pensioner will have only to sign or affix her mark to a declaration in the presence of two respectable witnesses. Such appointments may be cancelled at any time by a declaration signed in the same way.

46. Pensions of children under the age of eighteen years and of all other persons under legal disabilities shall be paid to their natural and constituted guardians. The pension of a minor child will be paid to the mother of the child without the production of any legal authority. Provided that guardians for minor nominees appointed by the subscriber during his life-time and registered in the Insurance office will be always recognized.

47. Any pension payable to a person afflicted with any mental or bodily infirmity may, at the discretion of the Committee be paid to the person in charge of the pensioner.

48. No power-of-attorney or Certificate of Guardianship shall be recognized by the Committee unless the original be produced and a true copy thereof left for record at their office.

49. Upon the death of a subscriber, his nominee or if the nominee be under legal disability, the guardian of such nominee or if the nominee be suffering from mental or physical infirmity, the person in charge of such nominee shall apply to the Secretary for the registration of the name of such nominee as pensioner of the Fund, and the Secretary acting under the orders of the Committee, on production of satisfactory evidence of the death of such subscriber, the identity of his nominee and in the case in which the pension is claimed on behalf of a nominee the authority of the applicant to receive such pension, register in a book to be kept for the purpose, the name, parentage, age, residence and description of the pensioner, the nature of the provision made for and the amount of monthly allowance payable to him or her, the name and date of death of the subscriber and his relationship with the nominee. An extract from this book shall be furnished to the applicant.

50. In the event of no application for pension being received within three months from the death of a subscriber the nominee will be asked to submit the usual application.

51. All pensioners of the Fund shall be required to furnish half-yearly a certificate of existence from two respectable parties in a prescribed printed form which will be supplied free. Widow and spinster pensioners shall also respectively furnish like certificates of continued widowhood or spinsterhood.

52. The treasury at which a pension is paid shall supply printed forms of receipts to pensioners of the Fund, and no acknowledgment for receipt of pensions shall be accepted if not written on such forms. If any pensioner so desires his or her pension will be paid by postal money order on receipt of the bill at the Insurance office by post. The money order commission will be deducted from the amount of pension. In such cases forms will be supplied by post.

53. A declaration shall be attached at foot of each receipt to the effect that it contains the genuine signature of the registered pensioner or of his guardian or of such other person as may be entitled to draw his or her allowance, and that the pensioner is not debarred under the rules of the Fund from drawing the amount stated in the receipt.

54. The Treasury Officer shall, at the time of payment of a pension, issue a blank form of receipt to every pensioner for use in the succeeding month.

55. Pensions shall be payable monthly on the production of a receipt signed by the pensioner or his guardian if he be under legal disability or by the person

having the care of such pensioner if he be labouring under any physical or mental infirmity.

56. The Committee shall not recognise the receipt of a pensioner unable to write unless the thumb impression or mark of the latter be attested by two respectable witnesses.

57. The Committee may refuse payment of a pension until the requirements of Rules 49 and 51 shall have been complied with and no suit shall be maintainable by, or on behalf of, any person for the recovery of a pension from the Fund unless the extract and certificate referred to in these rules (*vide* Rules 49 and 51) shall have been first obtained or furnished.

58. Pensions remaining unpaid before the death of the pensioners shall be paid to their legal representatives in the usual way on receipt of a certificate from two respectable gentlemen of the locality establishing the representative character of the applicants to the satisfaction of the Committee

59 Surpluses declared at actuarial valuations may be devoted with the sanction of Government to affording relief to subscribers whose nominees die and to those of long standing.

By Order,

J S CHAKRAVARTI,

Financial Secretary to Government.

FAMILY PENSION BRANCH OF THE MYSORE STATE LIFE INSURANCE OFFICE.

TABLE I.

Showing the Monthly Payments to be made under RULES 13 to 19, to secure a Life Annuity of Rs. 5 a month for Wife, Parents and certain Relatives

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Legislation), dated 1st March 1911.

READ—

Reports of the Deputy Commissioners of Districts on the working of the Mysore Merchandise Marks Regulation, I of 1892, during the year 1909-10.

No. J. 2481-8—LEGIS. 9-10, DATED BANGALORE, 1ST MARCH 1911.

ORDER THEREON.—Recorded.

2. The work of inspection of the shops during the year was not so satisfactory as in the preceding year. The report of the Deputy Commissioner of Bangalore does not state whether any shops were inspected at all in the Bangalore District, while the inspection done in the Mysore District seems to have been confined to a few shops in the Mysore City. There was, however, an improvement in the work done in Hassan and Chitaldrug Districts. In 38 cases the actual measurements were found to be slightly in excess of the description stamped on the piece goods, while in 9 cases there was a defect. Of the latter, two were cases in which the difference was within the margin allowed by the rules and in the remaining seven the difference exceeded it. There were five such cases of infringement of the rules in the Kadur District and the Deputy Commissioner states in his report that suitable action will be taken against the shop-keepers concerned.

3. Government had occasion to remark in their order reviewing the working of the Regulation during the year 1908-09 that the Deputy Commissioner of Bangalore did not state "whether any test was applied to see whether the provision of Section 10 of the Regulation had been observed in the Factories within the district." Government regret that the information has not been furnished even in the report under review. They would also impress on the District Officers the necessity of realising the main purpose of the Regulation and Rules thereunder, which is to protect the public from being defrauded by false trade and property marks, and which would be best served by frequent inspections and examinations and a judicious enforcement of the penal provisions of Regulation.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Districts.

Exd.—C. R.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 1st March 1911.

READ—

Government Order No. Fl. 2116-58, dated 9th June 1903, sanctioning the grant of local allowance to such of the officials and menials residing in the Bowringpet Taluk as were not already in receipt of such allowance.

2. Government Order No. 5147-89—Med. 51-04-4, dated 15th December 1904, directing that the local allowance of the Hospital Assistants of the Civil Hospital, Kolar Gold Fields, be regulated in accordance with the rates sanctioned in the Government Order of June 1903 read above and that the allowances of the officials and menials of the other departments in the Bowringpet Taluk, including Kolar Gold Fields, be also made to conform to the said sanctioned rates, the present recipients of special rates of allowances continuing to draw them, till they are transferred and their places fall vacant.

3. The following replies from the President of the Sanitary Board, Kolar Gold Fields, and certain other officers to an enquiry made as to how far effect has been given to the order of December 1904.

(i) Letter No. 1291-68, dated 21st September 1909, from the Registrar of the Chief Court of Mysore.

(ii) Letter No. G. 157, dated 27th September 1909, from the Senior Surgeon in Mysore.

(iii) Correspondence ending with letter No. 415, dated 30th September 1909, from the President of the Sanitary Board, Kolar Gold Fields.

(iv) Letter No. 8556, dated 17th November 1909, from the Chief Engineer of Mysore.

(v) Letter No. 879-74, dated 22nd August 1910, from the Inspector-General of Police in Mysore.

No. 7161-6—L. B. 375-08-10, DATED BANGALORE, 1ST MARCH 1911.

ORDER THEREON.—As represented by the President, Sanitary Board, Kolar Gold Fields, and the Inspector-General of Police, the allowances at the rates now drawn by the Sanitary Board's establishment and the Police at the Kolar Gold Fields and sanctioned in Government Orders noted in the margin will be continued to them independently of the Government Order of 15th December 1904 which will not be applied to them in consideration of the arduous nature of their duties in addition to costliness of living.

1. G. O. No. 12192-5—J. 981, dated 23rd January 1902.
2. 12569-70—L. B. 458-05-2, dated 8th June 1906.

READ—

This office circular letter No 18-25—L. B. 209-09-4, dated 5th July 1910, calling for the opinions of District Boards regarding the division of Unions into Wards for purposes of supervision by individual members.

2. The following replies from the Presidents of District Boards in the matter —

(1) Letter No 49, dated 10th August 1910, from the Deputy Commissioner and President of the District Board, Chitaldrug.

(2) Letter No 51, dated 16th August1910, from the Deputy Commissioner and President of the District Board, Tumkur

(3) Letter No 41, dated 23rd August 1910, from the Deputy Commissioner and President of the District Board, Shimoga.

(4) Letter No 141, dated 29th August 1910, from the Deputy Commissioner and President of the District Board, Mysore

(5) Letter No. 102, dated 9th September 1910, from the Deputy Commissioner and President of the District Board, Kadur.

(6) Letter No 421, dated 26th October 1910, from the Deputy Commissioner and President of the District Board, Kolar

(7) Letter No 205, dated 14th December 1910, from the Deputy Commissioner and President of the District Board, Hassan.

(8) Letter No 166, dated 16th December 1910, from the Deputy Commissioner and President of the District Board, Bangalore.

No. 7451-8—L. B. 209-09-13, DATED BANGALORE, 13TH MARCH 1911

ORDER THEREON.—In the Madras Presidency there is in force a system under which a Union is divided into a number of wards according to its size and the number of members of the Panchayet. Each ward is placed in the charge of a member, who supervises the work of the staff for conservancy, lighting and other purposes in that ward, checks the dimensions of the pandals erected in public streets under a license granted by the Chairman and brings to notice any unauthorised encroachments on public streets. The member in charge of a ward is also generally consulted by the Chairman on all matters appertaining to his ward, such as appeals against house taxation, assessments and applications for the erection of pandals In some Unions, however, a ward is placed in the charge of two members The system is reported to have been attended generally with satisfactory results.

2. With a view to give the system a trial in the Unions in this State, the Presidents of District Boards were requested to obtain the opinion of the Boards in the matter. From the replies received, it is seen that the District Boards of Bangalore, Mysore and Chitaldrug are in favour of the system being adopted in all the Unions and those of Kadur and Hassan, only in large Unions. The District Board of Kolar states that the system is worth a trial and the District Boards of Tumkur and Shimoga recommend that the members may be asked to do the supervision work by turns.

3. Government will be glad if the experiment is tried in the larger Unions with such modifications as local conditions may require and a report submitted to Government at the end of a year.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Presidents of District Boards.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 15th March 1911.

READ—

Letter No. 506, dated 10th May 1910, from the President of the District Board of Hassan, recommending the establishment of another toll-gate on the Hassan-Arsikere road at its junction with the Arsikere-Channarayaptana road in order to subject to payment of toll the carts now evading payment at the existing toll-gates near Dudda.

2. Correspondence ending with letter No. 142, dated 28th October 1910, from the same Officer reporting that the proposed toll-gate is necessary not only to obviate the present evasion of payment of toll along the Hassan-Arsikere road, but also to obviate a similar evasion at the Karehalli toll-gate recently established on the Channarayapatna-Tiptur road by change of traffic from Channarayapatna to Arsikere instead of to Tiptur, and requesting sanction to the establishment of the toll-gate with effect from 1st July 1911, when the term of the present lease of the Dudda toll-gate expires.

No. 7508-48—L. B. 337-09-6, DATED BANGALORE, 15TH MARCH 1911.

ORDER THEREON.—In the circumstances stated by the President, sanction is accorded to the levy of tolls at another station on the Hassan-Arsikere road, *viz*,. at its junction with the Arsikere-Channarayapatna road, with effect from the 1st July 1911, at rates prevailing at the Dudda toll-gate. The carts, etc., passing along the road shall pay toll at the first toll-gate through which they pass and they shall be exempt from payment of toll within a period of 24 hours counting from sunrise to sunrise at any other toll-gate through which they may pass and repass.

2. The attention of the President is invited to paras 61 to 70 of the Rules issued under the Local Boards Regulation and he is requested to see that all the formalities, such as the publication of notices regarding the levy of tolls, etc., are duly observed.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

No. 7691-704—L. B. 86-10-33, DATED BANGALORE, 20TH MARCH 1911.

ORDER THEREON.—*Constitution of Local Boards.*—The number of District and Taluk Boards remained the same as in the previous year, *viz.*, 8 and 77 respectively. Five Unions were formed in the last month of the year under review in the Honnali Taluk of the Shimoga District; and the number of Union Panchayats thus rose from 159 to 164 at the end of the year.

2. *Regulations, Rules, etc.*—The District Boards, the Taluk Boards and Union Panchayats continued to be governed by the Local Boards Regulation and the Rules framed thereunder, and the Kolar Gold Fields Sanitary Board by the Mines Regulation and the Rules thereunder. The latter rules were modified so as to increase the strength of the Kolar Gold Fields Sanitary Board from 12 to 14 members, one of the additional members being an official and the other a non-official appointed by Government.

3. *The Kolar Gold Fields Sanitary Board.*—The District Medical Officer of the Kolar Gold Fields, who had ceased to sit on the Board on the appointment of the Health Officer was re-appointed an *ex-officio* member of the Sanitary Board to fill one of the two additional seats created during the year. There were on the last day of the year 14 members on the Board, of whom 7 were members *ex-officio* and 7 non-officials. Of these, 10 were Europeans and the rest Indians. Five meetings were held and the average attendance at the meetings was 5 officials and 5 non-officials or 10 in all and was satisfactory.

4. *District Boards.*—There were on the last day of the year 202 members in all on the 8 District Boards against the sanctioned strength of 205 members. Of these, 57 were *ex-officio*, 77 appointed by Government and 68 elected by the Taluk Boards. All the Boards met not less than four times (the prescribed number), and the average attendance of the members ranged from 68 per cent in the Kadur District to 92 per cent in the Kolar District.

5. *Taluk Boards.*—The 77 Taluk Boards had in all on the last day of the year 1,150 members, of whom 368 were *ex-officio* and 415 non-officials nominated by Government, the remaining 367 being elected by the rural population and the Municipalities. Of these again 10 were Europeans and the rest Indians. Seventy-three of the Boards held not less than the prescribed number of meetings, *viz.*, 6,

while the remaining four Taluk Boards of Mulbagal, Nagamangala, Arsikere and Kadur met only five times. The attendance at the meetings of 55 of the Taluk Boards exceeded 50 per cent of the total number of members. The number of non-official members who attended the meetings was on the average more than the number of official members except in the Taluk Boards of Magadi and Arkalgud where it was the reverse. The average attendance of *ex-officio* members in the marginally noted Taluk Boards was not satisfactory. It was only two for a strength of five *ex-officio* members in the case of the first fourteen Boards and only one for a strength of three *ex-officio* members in the case of the last named Board. The Presidents should in communication with the respective Heads of Departments, impress on the officials concerned the need for more regular attendance at the meetings. The average attendance at the meetings of the Alur Taluk Board is given as 3·8, while the quorum required for a meeting is 4, which apparently means that on one or more occasions meetings could not be held for want of a quorum. This is very unsatisfactory.

1 Bangalore.
2. Tumkur.
3 Maddagiri.
4 Gubbi.
5 Pavagada
6. Kunigal.
7 Nanjangud
8. Nagamangala
9. Mandya
10 Hole Narsipur
11 Shimoga
12 Sorab
13 Nagar.
14 Chitaldrug
15 Alur.

6. *Unions.*—There were at the end of the year 164 Union Panchayats with 1,279 members, of whom 330 were *ex-officio* and the remaining 949 members appointed by Government. In 75 Unions not less than the prescribed number of meetings, *viz.*, 12, were held, while in 81 Unions the number of meetings held was less than 12. In the marginally noted 8 Unions no meetings were held at all. In the 27 Unions noted below all the non-official members attended all the meetings:—

1 Hindigual, Hoskote Taluk
2. Harohalli, Kankanhalli Taluk
3 Kodihalli, do
4 Lingadahalli, Tarikere Taluk.
5. Lakkuvalli, do
6. Kudlur, do
7. Dammi, Holalkere Taluk
8 Parasurampura, Challakere Taluk.

1.	Dommasandra ..	Anekal Taluk.	14.	Kenkeri ...	Arsikere Taluk.
2.	Attibele ...	Do	15.	Holehonnur ...	Shimoga Taluk.
3.	Jigani ...	Do	16.	Arabilchi ...	Do
4.	Tavarekere ...	Magadi Taluk.	17.	Tavarekere ...	Channagiri Taluk.
5.	Motagondahalli ..	Do	18.	Kundur ...	Honnali Taluk.
6	Vokkaleri ...	Kolar Taluk.	19.	Soratur ...	Do
7	Agara ...	Mulbagal Taluk.	20.	Arabagutti ...	Do
8.	Tayalur ...	Do	21.	Sivane ...	Tarikere Taluk.
9	Idagur ...	Goribidnur Taluk.	22.	Marle ...	Chikmagalur Taluk.
10	Midagesi ...	Maddagiri Taluk.	23.	Chikondahalli ...	Chitaldrug Taluk.
11	Honnavalli ...	Tiptur Taluk.	24.	Bilichodu ...	Jagalur Taluk.
12	Nonavinkere ..	Do	25.	Sokke ...	Do
13.	Javagal ..	Arsikere Taluk.	26.	Bidarkere ...	Do
			27.	Asagodu ...	Do

Except in the case of only one Union, *viz.*, the Huliyar Union in the Chiknayakanhalli Taluk, the non-officials ordinarily attended in larger numbers than the officials. The average attendance was on the whole satisfactory. The average attendance of *ex-officio* members in many Unions having two *ex-officio* members was not more than one, while in the four Unions of Motagondahalli (Magadi Taluk), Thalya (Holalkere Taluk), Siddavanahalli (Chitaldrug Taluk), and Bahadurghatta (Chitaldrug Taluk), no official member was present at any of the meetings held during the year. This is not satisfactory. The average attendance of members in the Sosale Union in the T.-Narsipur Taluk is given as 2·5, while the quorum prescribed for each meeting is 3. The Presidents of the Bangalore and Chitaldrug District Boards report that the benefits accruing from Union Panchayats have not yet been understood by the people. The agricultural classes in rural areas are exempt from the payment of house tax but when a village is declared a Union, the house tax is imposed on all classes and no exemption is granted in favour of agriculturists. On this account the constitution of Unions is sometimes disliked by them but it is hoped that such dislike will cease when they become more familiar with the working of such institutions and realise the benefits resulting therefrom. The figures furnished in Appendix I are in some cases obviously incorrect and the following mistakes or discrepancies indicate that the statement has not received sufficient scrutiny.

Local Fund and Sanitary (Local Boards), dated 20th March 1911.

No.	Unions	Taluks	Strength of—			Attendance of—		
			Official members	Non-official members	Total	Official members	Non-official members	Total
1	Pommasandra	Anekal	3	5	8	1	6	7

14	Kamasagara	Molakalmuru	1	5	6	2	3·7	5·7
15	Sirigere	Harihar (Sub-Taluk) ...	1	5	6	1·2	3·3	4·5

7. *Absence from meetings.*—Two members on the Kadur District Board are reported to have been absent for more than six consecutive meetings and a report with the explanation of the members concerned is promised. The President should have taken the necessary action in accordance with Rule 19 of the rules under the Local Boards Regulation as soon as the members failed to attend more than three consecutive meetings. The absence of two members of the Goribidnur Taluk Board from more than three consecutive meetings was condoned, as such absence was due to unavoidable causes.

8. *Finance Committees.*—In the Shimoga, Kadur, Hassan, Tumkur, Kolar and Chitaldrug Districts, the Finance Committees are reported to have met frequently and to have done good work. No information has been furnished in the report of the Bangalore District as regards the number of meetings held, and the work done by the committee. In the Mysore District the committee is reported to have met only once to pass the accounts. The attention of the Presidents of District Boards is invited to para 120 of the Rules under the Local Boards Regulation imposing on the Finance Committee the duty of examining the District Board accounts every month.

9. *Other committees.*—No joint committee was appointed during the year. In the Kolar District, a sub-committee was appointed for framing certain rules under Section 17 of the Regulation.

10. *Relations of the Boards with one another.*—No Taluk Board was declared independent of the District Board under Section 13 of the Local Boards Regulation. No occasion arose for the exercise of the powers given by Section 12 of the Regulation to enforce the obligations of Taluk Boards or Union Panchayats. The relations of the Taluk Boards with the District Boards and of the Union Panchayats with the Taluk Boards continued to be satisfactory. The resolutions of the Taluk Boards and of the Union Panchayats were not materially altered or reversed by their respective District Boards or Taluk Boards, except in a few cases in the Kolar, Mysore, Hassan and Kadur Districts, in regard to matters relating chiefly to the establishments of new Vaidyasalas and the execution of certain works.

11. *Financial position.*—The year opened with a balance of Rs. 2,86,484 and the income and expenditure during the year amounted to Rs. 8,34,375 and Rs. 7,54,704, respectively, leaving a balance of Rs. 3,66,155 at the end of the year. The expenditure in no case exceeded the receipts and the balance consequently rose

from Rs. 2,86,484 to Rs. 3,66,155 or by about 10 per cent of the receipts during the year. All the Boards had the prescribed minimum closing balance, *viz.*, one-eighth of the receipts. The expenditure in the Kadur District was almost equal to the budget allotment, while in the other districts allotments ranging from 5 per cent in the Hassan District to 13 per cent in the Chitaldrug District and the Kolar Gold Fields and 28 per cent in the Mysore District were allowed to lapse. The incidence of revenue per 100 of the rural population (4,935,511) was Rs. 16-14-6, of which Rs. 11-0-2 was derived from the local cess, Rs. 1-1-3 from contributions, Rs. 1-11-1 from house and mohatarfa taxes and the balance from other miscellaneous items. The expenditure per 100 of the population was Rs. 15-4-8, of which Rs. 9-10-8 was spent on Public Works, Rs. 1-10-9 on Medical relief, Rs. 1-8-1 on conservancy and sanitation and the remainder on miscellaneous public improvements, etc.

12. *Local cess.*—The principal source of income to the District Funds was the contribution of 76 per cent of the local cess of one anna on land revenue. It amounted to Rs. 5,42,835 and exceeded the receipts of the previous year by Rs. 54,829. There was a general increase due to better collection in all the districts, except Kadur, where there was a decrease of Rs. 772.

13. *House and mohatarfa taxes.*—The income from house and mohatarfa taxes amounted to Rs. 83,531 against Rs. 70,319 in the previous year. The increase was chiefly due to better collection in the Kolar and Tumkur Districts and on the Kolar Gold Fields. For purposes of taxation, houses in Unions are classified into six classes and rated from annas 4 to Rs. 5 each. The average realised per 100 houses was Rs. 120 for all the districts, except Shimoga, where information as regards the number of houses in each Union has not been furnished in the report. From the statements furnished, it is observed that in the Tumkur District, the following unauthorised rates were levied in some of the Unions.

Unions	No. of houses		Rates		
Nonavinkere	1	....	7	0	0
Midagesi	1	....	4	0	0
Honnavalli	1	....	4	0	0
Honnavalli	1	....	2	8	0
Huliyar	54	....	1	8	0

Government note that the President of the District Board of Tumkur reports that the Amildars concerned will be directed to revise the rates in accordance with the prescribed scale. For the collection of the house tax, coercive measures are reported to have been taken in a very few cases in the Unions of Narasapur (Malur Taluk) Jangamkote (Sidlaghatta Taluk) and Hosur (Goribidnur Taluk). In accordance with Government Order No. 8119-26—L. B. 30-07-14, dated 19th February 1909, no fee for demand notices was levied. The President of the Mysore District Board recommends the levy of a fee but Government will await further experience of the working of the present system. It is satisfactory to note that much of the heavy arrears in the Goribidnur Taluk was collected by dealing firmly with some of the refractory defaulters in the Darinayakanapalya and Hudgur Unions of that Taluk.

14. *Sale of stray cattle.*—The income under this head amounted to Rs. 6,646 against Rs. 6,037 in the previous year. The increase was chiefly in the Hassan District.

15. *Tolls.*—Tolls to be credited to the District Funds were levied only in the Mysore, Hassan, Shimoga and Kadur Districts. The income during the year was Rs. 31,532, which is about the same as that realised during the previous year, *viz.*, 31,285. In the Hassan District the right to levy tolls is reported to have been farmed out for a period of two years. In the Kadur District the toll-gate at Bommenahalli was worked departmentally and the President states that the Departmental working was not found advantageous.

In the Chitaldrug District a sum of Rs. 853 is shown as having been obtained from tolls and the President states that it is not known how the amount came to be credited to the District Funds though no tolls are levied in the district to the credit of the District Funds. The credit is obviously a mistake in the Treasury

Local Fund and Sanitary (Local Boards), dated 20th March 1911.

accounts and the Comptroller is requested to have the amount properly adjusted in communication with the President.

16. *Rents and fees from markets, cart-stands, etc.*—The income under this head amounted to Rs. 37,829 against Rs. 38,699 in the previous year. There was a decrease of Rs. 1,650 in the Mysore District and it is stated to be due to the non-collection of instalments of fees in the Santemarhalli and Sargur markets. The President should have explained why the amount was left uncollected and early steps should be taken for the recovery of the amount.

17. *Contributions.*—The amount received under this head was Rs. 53,093 or Rs. 73,901 less than that received in the previous year. The decrease was due to the absence of any special grants of the kind sanctioned in the previous year on account of the unfavourable seasonal conditions. It is gratifying to note that the total receipts under the District Funds during the year under review was about the same as that of the previous year notwithstanding this large decrease of Rs. 73,901 under contributions, the deficit having been made up by increased receipts under local cess and house and mohatarfa taxes.

18. *Public Works.*—The total outlay on Public Works was Rs. 4,77,172, of which a sum of Rs. 4,12,258 was spent on works proper, Rs. 63,310 on establishments and Rs. 1,604 on tools and plant.

19. *Original Works.*—The outlay on original works amounted to Rs. 92,576. The following are the more important of the works carried out:—

S. No.	Work	Estimate	Outlay up to the end of year 1909-10	Outlay during the year 1909-10
		Rs.	Rs.	Rs.
1	Opening out a road from Sorab to Anavatti ...	23,950	15,609	3,009
2	Drainage of Robertsonpet	15,350	12,973	1,289
3	Constructing a tunnel with armoured concrete slabs on the Narsipur-Chamrajnagar road.	10,832	8,064	2,022
4	Construction of a 1st class musafirkhana at Hassan.	5,020	2,987	2,234
5	Constructing market line at Attigedu sante ...	10,932	4,713	1,133

20. *Repairs.*—The total expenditure incurred under repairs was Rs. 3,19,682. The total length of roads and cart-tracks repaired by the Public Works Department was 3,501 $\frac{8}{16}$ miles at an average cost of Rs. 75 a mile. The length of roads repaired in the Mysore and Shimoga Districts is entered in the respective reports as 649½ and 510 miles, while the length of roads shown in the budgets is 641½ and 459 respectively. The discrepancy requires explanation. In Appendix VI of the Mysore District Board Report and in Appendix VII of the reports of all the Boards the number of miles repaired and the rate allowed have not been entered against each road. No village roads are reported to have been opened with the help of the raiyats in the Mysore District and no information on this matter has been furnished in the reports of the other districts. From the information furnished in the Revenue Administration Report however it is seen that except in the Hassan and Shimoga Districts, where 214 and 80 miles of village roads respectively were formed during the year, very little progress was made in opening out new roads by the voluntary efforts of villagers.

21. *Establishment charges for Public Works.*—The Presidents of the Kolar and Shimoga District Boards report that the establishment charges under "A class Public Works" amounted to 18·1 and 18·5 per cent respectively, while the prescribed rate is only 17 per cent. From the final accounts furnished by the Comptroller it is seen that the establishment charges in the Shimoga District, *viz.*, Rs. 777·7 bear a percentage of only 17½ to the total outlay incurred, on works proper, *viz.*, Rs. 10,324 on original works plus Rs. 34,116 on repairs or Rs. 44,440 in all. But

in regard to the Kolar District it is observed that the percentage of the establishment charges, *viz.*, Rs. 6,260 to the total outlay on works proper, *viz.*, Rs. 34,475 is 18·16. The Comptroller is requested to have this scrutinized and the excess adjusted in the accounts for 1910-11.

22. *Lapses under Public Works.*—The lapses under "A class Public Works" were not considerable but those under "B class Public Works" were heavy especially in the Mysore and Kadur Districts being about 53 and 60 per cent respectively. The lapse in the Kadur District is attributed to several wells not having been completed in the Tarikere, Kadur and Chikmagalur Taluks and that in the Mysore District similarly to several works not having been completed in the Nanjangud, T.-Narsipur, Nagamangala and Mandaya Taluks. In the Hassan District it is reported that expenditure had to be curtailed on account of the low financial condition of the District Board and that wells could not be completed on account of the copious rainfall during the year and that consequently there was a lapse of 39 per cent. The percentage of lapses in the Bangalore District is given as 8·5. But it is observed that this percentage has been calculated with reference to the total amount of estimates for works sanctioned and not on the budget grant allotted for the works. The correct percentage is about 39. In the other districts, the lapses which ranged from 27 to 38 per cent were chiefly due to some wells having been abandoned or not commenced and to other works having remained incomplete.

23. *Medical Relief.*—The expenditure incurred on account of Local Fund Dispensaries and midwives amounted to Rs. 75,450 against Rs. 70,635 in the previous year. In the Comptroller's account the amounts spent for (1) Local Fund Dispensaries, (2) midwives and (3) other specified purposes are not shown separately. The Comptroller and the Presidents are requested to show them separately in the accounts from the year 1910-11.

24. *Local Fund Dispensaries.*—The number of Local Fund Dispensaries maintained from the District Fund remained the same as in the previous year, *viz.*, 109. The number of patients treated in these institutions was 956,777 against 858,156 in the previous year. There was a general increase in the number of patients treated in all the districts, except Chitaldrug. The number of patients treated in the Hiriyur Local Fund Dispensary during the year 1908-09 was 24,561, while that treated during the year 1909-10 was 10,794 according to the figures furnished in Appendix IX of the Chitaldrug District Report. The President reports that the large decrease in the number of patients treated indicates that the public health in the town was better than in the previous year. But on a comparison of the figures furnished by the Senior Surgeon in the report on the working of the Hospitals and Dispensaries for the calendar years 1908 and 1909, it is seen that the total number of patients treated during these two years in the Hiriyur Dispensary amounted to 11,633 + 10,179 or 21,812, while the number of patients treated for one half of this period, *viz.*, from 1st July 1908 to the 30th June 1909 is given as 24,561 in the District Fund Report. This is evidently a mistake and the President is requested to investigate the cause of this discrepancy in communication with the Senior Surgeon. On account of the unsatisfactory financial condition of the Kankanhalli Municipality, the District Board of Bangalore agreed to relieve the Municipality from the payment of the Municipal quota of the dispensary charges for two years from 1909-10 and to pay the same from its funds. The Presidents will be good enough to note that dispensaries, for which no contribution is made from the District Fund should not be shown in Appendix IX, *e.g.*, Civil Hospitals at Tumkur and Chitaldrug. The following discrepancies in the figures furnished are noticed :—

Item	Year	Figure given in the Appendix.	Correct figure.
		Rs.	Rs.
Tiptur Dispensary total patients.	1909-1910	18,855	11,855
Total Tumkur District ...	1908-1909	98,150	104,750
Total No. of patients ...	1909-1910	123,098	116,098

Local Fund and Sanitary (Local Boards), dated 20th March 1911.

25. *Midwives.*—Eighty-nine midwives were supported in part or full from the District Funds and they attended to 5,413 labour cases during the year. The work done by the relieving midwife attached to the Bangalore District has not been shown in the statement. The Presidents are requested to note that the work done by the midwives supported wholly from the Municipal Funds such as those attached to the Arlepet Dispensary in the Bangalore City, the Branch Dispensaries in the Mysore City and the Hassan and Shimoga Municipalities should not be included in Appendix X. During the year under review no midwife was attached to the Gudibanda Taluk and the Senior Surgeon is requested to arrange to send one there early. The work done by the midwives attached to the Dispensaries at Whitefield, Nelamangala, Koratagere, Yedatore, Krishnarajpete and Belur was very poor the number of cases attended ranging from 6 to 17 only for the whole year. The work done by the midwives at Chikballapur and Davangere exceeded 200 cases each and was excellent. The midwives attached to Sagar, Channagiri, Tarikere, Dodballapur, Channapatna, Kolar, Chintamani, Mulbagal, Sira, Maddagiri and Nagamangala attended between 100 and 200 cases each and their work was fair.

The President of the Shimoga District Board states that the number of cases attended to by midwives in the rural parts was only 44 and that the services of midwives cannot be secured by the rural population with ease unless the Board is prepared to expend considerably more money on this item. It need hardly be stated that the Board should do all that it can to afford relief in this direction, even by reducing expenditure, if possible, in other directions.

26. *Vaidyasalas and other indigenous Medical Institutions.*—Grants were sanctioned newly for three Vaidyasalas at Karur in the Sagar Taluk, Talkad in the T.-Narsipur Taluk, and Tagadur in the Nanjangud Taluk. There were at the end of the year 28 Indigenous Institutions supported from the District Funds. These institutions continued to be popular and did good work. The number of patients treated during the year was 100,666 in the districts, except Mysore, where the figures for all the dispensaries have not been furnished. A Vaidyasala was sanctioned for Sravanabelagola but was not opened as the building intended for it was not ready for occupation before the close of the year. The Vaidyasala at Harnahalli which is onl yfive miles distant from Arsikere where there is a Local Fund Dispensary has since been ordered to be transferred to Javagal to afford medical aid to the people of Halebid and Javagal in the Belur Taluk. The President of the Shimoga District Board reports that a good deal remains to be done in the way of placing medical aid within the reach of the poor people in the Malnad where local conditions and difficulties of transport restrict the usefulness of the Local Fund Dispensaries to a radius of a few miles and adds that some more Vaidyasalas may be opened with advantage. Government would be glad to favourably consider any suitable proposals in the matter but it rests with the Boards principally to husband their resources and expend them in such useful directions. In the report of the Mysore District Board no mention is made of the grants sanctioned for the Vaidyas at Hura and Kikkeri and of the work turned out by them. The President is requested to report the cause for the omission.

27. *Other Medical Institutions.*—A grant-in-aid of Rs. 200 a year was made by the Hassan District Board to the Wesleyan Mission Dispensary for women and children at Hassan.

28. *Treatment of patients at the Pasteur Institute.*—Six coolies in the Koppa Taluk were sent to Coonoor for treatment at a cost of Rs. 36-4-0 and are reported to have recovered. A contribution of Rs. 500 was made from the Local Funds General to the Pasteur Institute at Coonoor.

29. *Accommodation for travellers.*—For the convenience of the travelling public, 137 travellers' bungalows, 202 musafirkhanas and 21 other buildings were maintained at a cost of Rs. 24,976. The fees collected for the occupation of these buildings amounted to Rs. 2,152 or to about 9 per cent of the cost of the up-keep of the buildings. A rest-house was newly built at Sampangere in the Malur Taluk. The musafirkhana at Jodikatte in the Tarikere Taluk was handed over to the Police Department as it was found to be of no use to the travelling public, while a musafirkhana at Balagadi in the Koppa Taluk was completed and a care-taker appointed

In the Mysore District the musafirkhana at Himavat Gopalaswami Hills in the Gundlupet Taluk and a private chattram at Hampapura in the Heggaddevankote Taluk with its endowment of lands came under the supervision of the District Board during the year. The Town Hall at Chitaldrug has erroneously been included in Appendix XI of the report, but as it is not meant for use by the travelling public, it should be omitted from that statement. The buildings are reported to have been kept clean and resorted to freely by the public. It is reported that in the Kadur District the repairs of these buildings were not attended to from paucity of funds. Steps should be taken to see that the buildings are not allowed to deteriorate. It is stated that the surroundings of some of these buildings in the Shimoga District are rendered insanitary from want of latrines. Early action should be taken to remedy this defect.

30. *Water-supply.*—No difficulty for drinking water was felt during the year except for a short time and in a few places in the Chitaldrug District and the taluks of Mulbagal, Srinivaspur and Chikballapur in the Kolar District. The residents of Robertsonpet were given a continuous supply of the Bethamangalam tank water and towards the actual pumping and maintenance charges, the Sanitary Board paid Rs. 5,277 during the year. In the Kolar District six interesting well-boring operations were made in the Malur and Chikballapur Taluks. In four of these cases the experiments are reported to have been fairly successful, while in the other two cases for want of harder tools and deep well pumps and facility to quickly empty the water, the experiments had to be postponed. In one well—Gurappa's well in the Chikballapur Town it is reported that the boring went down to a depth of 117 feet from ground level and that water which was tapped at a depth of one hundred feet rose to a hight of 97 feet in the tube and stood at 20 feet depth from the ground level. The total expenditure incurred on these operations amounted to Rs. 796, of which a sum of Rs. 320 being the pay of the operator whose services were specially secured for the purpose, was met from the Local Funds General.

31. *Markets and Slaughter-houses.*—Special precautions were taken to examine all food stuffs before they were exposed for sale in the Robertsonpet Market and in the various bazaars on the Kolar Gold Fields. Rules were framed during the year for the management of slaughter-houses on the Kolar Gold Fields and for the special sanitation and sanitary administration of the Robertsonpet Market. Three hundred and seventy-five applications for licenses to sell articles of human consumption were granted and 95 applications were refused by the Sanitary Board. The license fees amounted to Rs. 552. Ninety-nine sets of standard measures were got from the Central Jail at Bangalore and offered for sale to the merchants attending the Robertsonpet Market and it is reported that the staff there is required to see that only standard measures are used.

32. *Lighting.*—The expenditure under lighting amounted to Rs. 6,517, of which Rs. 2,219 were spent on the Kolar Gold Fields where the main road was lighted with electricity.

33. *Conservancy and sanitation.*—The expenditure under this head amounted to Rs. 74,306. The conservancy staff on the Kolar Gold Fields was revised and augmented, and qualified Sanitary or Assistant Sanitary Inspectors were appointed for the Malvalli, Heggaddevankote and Chamrajnagar Taluks in the Mysore District and for all the taluks, except Turuvekere in the Tumkur District.

34. *Award of prizes to patels who keep their villages clean.*—The President of the Chitaldrug District Board reports that the scheme was found successful in maintaining the sanitation of villages and that it created healthy rivalry among the patels. Government have already ordered that the system might be given a further trial by such of the Presidents as are desirous of continuing it during the year 1910-11.

35. *Removal of prickly-pear, etc.*—The removal of prickly-pear and rank vegetation was attended to by the Boards. It is gratifying to note that in the Kolar District prickly-pear, aloes and other rank vegetation were voluntarily removed by the villagers in some taluks and large areas covered with prickly-pear were also got cleared by the raiyats being allowed to cultivate the lands so cleared with any crop they chose free of tax, for the year. To encourage the removal of

Local Fund and Sanitary (Local Boards), dated 20th March 1911.

lantana and prickly-pear from the lands on which they may have grown and to check their growth, rules have since been passed tentatively in Government Order No. 3298-322—L. R. 508-09-2, dated 18th November 1910, granting certain concessions and the scheme is ordered to be tried in the first instance in selected hoblis of the taluks of Hunsur and Mulbagal. Action is also being taken to add a clause to the Village Sanitation Rules to enable the recovery of the cost of clearing lantana and prickly-pear in default of the owners of private lands after due notice. The attention of the Presidents is drawn to paras 12 and 13 of the above order of the 18th November 1910 and they are requested to see that special efforts are made to induce the people to undertake the removal of lantana and prickly-pear themselves in villages where the Village Sanitation Rules are not in force, small prizes being awarded to the patels and other village officers who take special interest in the work and clear the villages of this noxious growth.

36. *Working of the Village Sanitation Rules.*—On the last day of the year, these rules were in operation in 8,004 villages out of 11,151 villages to which they could be made applicable. The method of preparation of Appendix XII is not uniform in all the districts; for in columns 3 and 4 the total number of villages into which the rules were introduced during the specified years or the number of all the villages in which the rules were in force at the end of the year has been indiscriminately entered. The Presidents are requested to see that the number of new villages into which the rules were introduced in the respective years only are entered in future in columns 3 and 4 of the appendix, the total number of villages in which the rules were in force at the end of the year being specially mentioned in the body of the report. The total of the figures entered in column 4 of the Appendix XII of the Mysore District Report is 1,847 and not 1,947. The figures furnished in Statement XII and in the last quarterly statement for the year 1909-10 differ in certain cases as shown below:—

Total number of villages in which the rules were in force according to,

		Appendix XII and the Report.	The last quarterly statement for 1909-10.
Tumkur	....	447+387+922 =1,756	1,149
Shimoga	...	324	531
Chitaldrug	....	507	784

Four hundred and seventy-five persons were prosecuted for the breach of these rules, of whom 280 were convicted and fines amounting to Rs. 400 in all were recovered and credited to the District Funds. In the Kolar, Tumkur and Chitaldrug Districts and the Kolar Gold Fields, the amount of fine imposed appears to have been entered in columns 11 and 12 of the statements. The Presidents are requested to see that the fine actually levied is shown in the statement.

37. *Separate places for the storage of manure.*—In the districts of Kolar, Tumkur, Hassan, Shimoga and Chitaldrug, separate places for storing manure are reported to have been set apart in 1,113, 610, 568, 286 and 339 villages, respectively, while no information on this head has been furnished in the other reports. In the last quarterly statement submitted for the year 1909-10, the number of villages where separate places were set apart up to the end of the year is given as 1,294 and 372 in the Kolar and Shimoga Districts, while the figures furnished in the respective reports are 1,113 and 286. The discrepancy requires explanation. According to the last quarterly statement for 1909-10 separate places for the storage of manure were set apart in 4,575 villages in all the districts together (excluding the Kolar Gold Fields about which no information is furnished) up to the end of the year. The work done in this direction in the Kolar District is very good, separate places for storing manure having been set apart in 1,294 villages out of 1,522 villages in which the Sanitary Rules have already been introduced. The President of the Kolar District Board reports that though the manure is removed in one year or at the time of inspection to the new places allotted, the old condemned pits continue to be used subsequently so long as they are allowed to remain unfilled or not levelled up and that to put a stop to this practice the old pits are given out to the

villagers for raising some crop thereon for a year or two free of any assessment. This is commended to the attention of the other Presidents.

38. *Vaccination.*—In rural parts outside Municipal Towns 93,310 persons were vaccinated during the year. The vaccination work was chiefly done by Taluk vaccinators and medical officers in charge of hospitals and dispensaries under the control of the District Medical and Sanitary Officers. Two temporary vaccinators were employed by the Sanitary Board on the Kolar Gold Fields where vaccination was made compulsory for a period of five years from 11th August 1910. The vaccination work in the Sidlaghatta Taluk was unsatisfactory and the President reports that the vaccinator never visited for long periods some places where small-pox prevailed. He observes that the programme of the vaccinators' itineration is prepared without consulting the Amildars, that not even a copy of the programme is sent to them well in advance and that this practice gives rise to complaints. The Sanitary Commissioner's attention is invited to this matter. In Appendix XIII of the Chitaldrug District Report the figures for 1907-08 have been entered in lieu of those for 1908-09 in column 4.

39. *Vital statistics.*—The number of births and deaths registered during the year was 81,879 and 89,095 against 98,909 and 75,195, respectively, in the previous year. There was a general decrease in the number of births registered in all the districts except the Kolar Gold Fields Sanitary Board area. There was also a general increase in the number of deaths registered in all the districts except Shimoga and Kadur. The largest increase in the number of deaths was in the Mysore District, the number rising from 13,923 to 23,051, chiefly on account of the larger number of deaths from fever and small-pox. The number of deaths from small-pox and cholera was 6,730 and 1,953 against 3,014 and 1,252, respectively, in the previous year. The total of the detailed figures of births furnished in Appendix XIV of the Kolar District Report is 11,378 and not 10,608 as given therein and in para 23 of the report.

40. *Cholera and plague preventive measures.*—Timely inoculation against plague and prompt evacuation are reported to have checked the mortality from plague in the Kolar and Kadur Districts, while the obstinacy of the people of Davangere in not promptly evacuating the town when plague broke out is reported to have contributed to the spread of the epidemic in that place. On the Kolar Gold Fields 65,000 rats were destroyed during the year. As usual the Kolar Gold Fields Sanitary Board bore the feeding and other contingent charges incurred on patients treated for epidemic diseases in the Infectious Diseases Hospital at Robertsonpet, which was under the supervision of the Health Officer. The number of patients treated in this hospital was 169 against 507 in the previous year. The total expenditure incurred on account of cholera and other epidemic charges from the District Funds was Rs. 1,954, of which a sum of Rs. 1,862 was spent by the Kolar Gold Fields Sanitary Board.

41. *Public health.*—Public health was on the whole satisfactory during the year. The President of the Shimoga District Board states that this experience of malnad condition proves that the revenue at the disposal of the District Board is not sufficient to meet the requirements of public health and sanitation and urges that the malnad condition of Shimoga deserves a more liberal allotment of funds out of the Local Funds General. He adds that he is studying the means of improving the District Fund income and Government await the submission of the report promised on the subject.

42. *Amrut Mahal bulls.*—An expenditure of Rs. 606 was incurred by the District Boards on the supply of bulls at concession rates and on feeding the bulls. Breeding bulls were maintained in all the districts except Tumkur. A new bull was supplied in each of the Bangalore, Kolar, Mysore, Hassan and Kadur Districts. In the Hassan District one bull was found to be unserviceable. One of the bulls supplied to the Mysore District was also found to be unserviceable and had to be sent back to the Amrut Mahal Department. The President of the Mysore District Board reports that the Superintendent of the Amrut Mahal Department is of opinion that it would be better to leave the selection of the bulls to the raiyats themselves and that he agrees with that officer under the present circumstances.

Local Fund and Sanitary (Local Boards), dated 20th March 1911.

Statistics showing the result of the use made of the bulls have not been furnished in any of the reports and the attention of the Presidents is drawn to para 22 of the order reviewing the reports of 1908-09.

43. *Veterinary charges.*— The expenditure incurred from the District Funds on this account amounted to Rs. 2,410, while that met from the Local Funds General amounted to Rs. 3,129. These institutions are reported to have been popular and to have done good work.

44. *Cattle shows and exhibitions.*—An Industrial and Agricultural Exhibition as also a cattle show was held during the year for three days from the 24th to the 26th April 1910 at Harihar under the auspices of the Chitaldrug District Agricultural Association. The District Board of Chitaldrug contributed a sum of Rs. 200 towards the expenses of this cattle show and exhibition which is reported to have been successful. Cattle shows were also held at Rampur in the Honnali Taluk, Chunchinkatte in the Yedatore Taluk, Mudukuthore in the T.-Narsipur Taluk, Hemagiri in the Krishnarajpete Taluk, Nanjangud, Ghati Subramanya in the Dodballapur Taluk, Hassan and Nandi in the Chikballapur Taluk and prizes were awarded to the exhibitors of the best cattle. The total outlay incurred from the District Funds on this account amounted to Rs. 1,378, during the year. At the shows held at Rampur, Nanjangud and Hassan, the importance of breeding good cattle, the causes of cattle diseases and the manner of their prevention and other kindred subjects were explained to the raiyats.

45. *Important events.*—At Sravanabelagola in the Hassan District the Mahamastakabhishekam ceremony to the famous colossal statue of Sri Gomateswaraswami was performed during the year by the Jains. The ceremony extended over a period of about three weeks from the 14th March to the 5th April 1910, the most important ceremony, *viz.*, Mahamastakabhishekam being performed on the 30th March 1910. About 24,000 people from all parts of India assembled on the occasion and suitable sanitary and water-supply arrangements were made by the District Board.

46. *Embezzlements.*—The shanbhog of Ajjampur Union in the Tarikere Taluk misappropriated a sum of Rs. 36-13-3 out of the collections of the Union. He was prosecuted before the District Magistrate of Kadur and convicted. The amount misappropriated by the shanbhog was made good by him.

47. *Local Funds General.*—The opening balance under Local Funds General was Rs. 1,14,735 the income and expenditure during the year being Rs. 1,83,326 and Rs. 1,38,279 respectively. The principal source of income was the contribution of the 67 per cent of local cess on Abkari and miscellaneous items of revenue. It amounted to Rs. 1,64,472 or 90 per cent of the total receipts during the year. The expenditure was principally upon the following items :--

		Rs.
1.	Public works executed by the Public Works Department ...	30,058
2.	Contribution for works	18,770
3.	Industrial Schools	56,478
4.	Dasara Industrial and Agricultural Exhibition charges ...	9,683
5.	Mysore Engineering School	8,202
6.	Indigenous Hospital, Mysore	3,300
7.	Veterinary Hospitals	3,129
8.	Scholarships to students outside the State	5,631
9.	Sericultural Inspectors	1,505
10.	Miscellaneous	1,523
	Total ...	1,38,279

The balance at the close of the year was Rs. 1,59,782. The expenditure on Public Works was 27 per cent of the receipts, on industrial schools 31 per cent and on other items 18 per cent or in all 76 per cent. Thus there was a net saving of about 24 per cent of the receipts which was added to the balance to the credit of the fund.

48. *General.*—Government note with satisfaction that the non-official members of the District Boards continued to evince a growing interest in the local affairs under their management, but at the same time it is noted that much of the interest

was of a passive kind. Government would gladly welcome more activity and initiation in useful directions from the non-official section of the Boards than is the case at present.

49. Government regret to have to remark that some of the appendices have not been prepared with the requisite care. A few of the most obvious errors, discrepancies and omissions have been pointed out in the foregoing paragraphs. The Presidents are requested to see that the appendices are free from errors.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Government Order No. 2951-9—R. 958, dated 9th October 1900, laying down a rule for regulating the confirmation of Probationary Assistant Commissioners of the then Schedule B now Schedule A.

No. G. 5105-52—G. M. 25-10-32, DATED BANGALORE, 7TH MARCH 1911.

ORDER THEREON.—In order to meet cases arising under the present Civil Service Rules, Government are pleased to modify in certain respects the rule laid down in the Government Order read above. The rule as amended will run as follows:—

(*a*) "Probationary Assistant Commissioners, who qualify themselves fully by passing the prescribed tests during the period of probation, will be confirmed as Assistant Commissioners, 5th Class, with effect from the date of the expiry of the term of probation calculated from the date of their appointment; and

(*b*) in cases where the officers concerned do not qualify themselves before the expiry of the term of probation but do so during the period of grace, confirmation will have effect from the date of the last of the prescribed examinations passed by them."

READ—

Government Proceedings No. G. 2070-107—G. F. 142-03-4, dated the 13th October 1904, prescribing a scale of prices for such official publications as may be ordered to be sold to the public.

2. Government Proceedings No. G. 5078-9--G. M. 100-06-11, dated the 9th February 1907, entrusting to the Curator, Government Central Book Depot, the sale of all official publications mentioned in the above.

3. Correspondence ending with the Curator's letter of the 21st February 1911, regarding the stock, at the Book Depot, of Regulations, Rules, etc., prescribed for the Mysore Local Service and Pleaders' Examinations.

No. G. 5232-80—G. M. 61-10-13, DATED BANGALORE, 16TH MARCH 1911.

ORDER THEREON.—It has been brought to the notice of Government that some of the Acts, Regulations and Rules issued by Government have not been stocked in the Book Depot and that copies of several such publications are not readily available to meet the demands of the public in general and more particularly of candidates for the Local Service and Pleaders' Examinations and that the Curator does not consider it his duty to obtain copies of such publications when there is a requisition on him for the same but is satisfied by merely informing the applicant that the publication required is not available from him. This is irregular and to obviate public inconvenience, the Government are pleased to issue the following specific instructions for attention:—

1. It is the duty of the Curator to see that a sufficient number of copies of all Acts, Regulations and Rules are kept in stock and that the stock is replenished as found necessary, from time to time by indenting for copies of the publications required on the Officers concerned, namely, the Comptroller to Government in the case of the Mysore Service Regulations and other publications issued by him, the Secretary to Government, General and Revenue Departments, in the case of Acts, Regulations and Rules, and in the case of other publications, the Heads of Departments issuing such publications. The indent should be in the form appended.

2. The Superintendent, Government Press, should arrange for the price of every official publication being printed thereon as required in the Government Order dated 9th February 1907 read above.

3. Heads of Departments and Secretaries to Government should see that whenever the Government Press is asked to send copies of official publications to the Book Depot for sale, a copy of the intimation sent to the Press is simultaneously forwarded to the Curator and that only as many copies are sent for sale as may be necessary, having regard to the importance of, and the probable demand for the publication concerned; additional copies being forwarded only on the Curator's indent for the same. From time to time, the Curator should return to the Department concerned, copies of publications of which there is a large unsold stock, keeping only a few copies to meet a possible demand. These Heads of Departments in general and the Inspector-General of Education and the Secretary to the Board of Examinations in particular, should frequently ascertain by test enquiries that all the books prescribed for public examinations are available for purchase at the Book Depot.

4. The Curator should take immediate steps as directed above to replenish his stock of books for which there is any demand at present.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Education in Mysore.
The Superintendent, Government Press, with the form of indent.

READ—

Government Proceedings No. R. 4769-70, dated the 11th January 1910, sanctioning certain concessions in connection with the chattram built by one Ugre Gowda near Chikkanahalli in the Sira Taluk, on the Bangalore-Bellary road, complying with his request that the management of the chattram and its charities should rest with him during his lifetime and thereafter devolve on his legal heirs subject to the control of Government in the Revenue Department and adding that the question of investment of Rs 24,000 by Ugre Gowda with Government at the concession rate of interest with the object of utilising the income for charitable purposes would be considered by Government in the Muzrai Department on a separate application.

2. Petitions Registered Nos. 2092 and 930, dated 17th April 1910 and 19th November 1910, respectively from Ugre Gowda and B. Muni Lingaiya, requesting that a sum of Rs. 24,000 may be received at favorable rate of interest as an endowment for distributing rations to travellers at the chattram referred to above.

No. 2440-2—Muz. 675-09-4, dated Bangalore, 24th March 1911.

Order thereon.—The endowment in question being for a charitable purpose which deserves encouragement, the Government are pleased to accept the deposit at the rate of interest sanctioned in Government Proceedings No. Fl. 473-503—G. F. 15-09-2, dated the 15th July 1909. At present the rate of interest will be 4 per cent. The donor is also permitted to deposit the money in annual instalments of not less than Rs. 6,000 as prayed for.

2. The Comptroller to Government is requested to issue needful instructions to the Deputy Commissioner, Treasury Department, Tumkur District, to receive the first deposit of Rs. 6,000 and future deposits under the foregoing para and to get a document executed by the depositor in the form prescribed in Government Order No. Fl. 432-72—G. F. 15-09-1, dated the 15th July 1909. A single agreement covering all payments would be sufficient.

3. The half-yearly interest will be credited to the funds of the institution and the money required for monthly expenditure will be drawn by the Taluk Amildar on bills, care being taken to see that the monthly interest on the amount actually invested is not exceeded and made over to Ugre Gowda and other manager of the charities who should maintain regular accounts and make them available for inspection by Government officers and also submit to Government an annual report on the affairs of the institution as required by Rule V of Government Proceedings No. Fl. 473-503—G. F. 15-09-2, dated 15th July 1909.

C. S. BALASUNDARAM IYER,

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 17th March 1911.

READ—

Report No. 514, dated 14th February 1911, from the Officiating Chief Inspector of Mines in Mysore, on a fatal accident (No. 27 of 1911) due to an air blast which occurred in Ribblesdale's Shaft, Champion Reef Mine, on 6th February 1911, resulting in the death of six coolies.

No. 1821-3, DATED BANGALORE, 17TH MARCH 1911.

ORDER THEREON.—The serious accident referred to in the above occurred in the stope, 21st level, Ribblesdale's Shaft, Champion Reef Mine, on the 6th February 1911, and caused the immediate death of five coolies on the spot and of one more shortly after his removal to the Mines' Hospital. It was the result of a very violent air blast, a danger which is unfortunately, particularly prevalent on the Kolar Gold Field, but which is entirely natural and unavoidable.

2. The Officiating Chief Inspector of Mines reports that in the same zone of rock (which appears to be under a very great strain) there occurred some time last year an air blast resulting in the death of two coolies and serious injury to two more and the air blast now reported appears to have been unusually severe.

3. The report on the accident will be recorded.

E. W. WETHERELL,
Offg. Secy. to Govt., Geological Dept.

To.—The Officiating Chief Inspector of Mines.
The District Magistrate, Kolar District.
The Superintendent, Champion Reef Mine.

PART II.

REVENUE

SECTION 1—LAND REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	R 4975-6 – L R 69-10-13...	1	Rev. Comr. and Survey Supt.	Sanctioning the acquisition of Survey No. 365—1, measuring 6 acres and 26 guntas in the Amritur village, Kunigal Taluk, for extending the village site.
2	R 4977—L R 69-10-14 ...	1	Compiler, *Mysore Gazette*	Notifying the declaration statement in the above case.
3	R 4978—L R 22-10-5 ...	1	Rev. Commissioner ...	Sanctioning the remission of the arrears of assessment till 1899-1900, due on the resumed inam Survey No. 23 of Kuruvanka village, Channarayapatna Taluk.
4	R 4979—L R 159-10-2 ...	1	Do ...	Sanctioning the remission of half assessment for 1906-07 and 1908-09 amounting to Rs. 1,147-8-0, (inclusive of a sum of Rs. 44-6-4, already recovered) on the wet lands under the Gowrikatte tank of Nallur in the Chikmagalur Taluk, as the raiyats were not able to raise any wet crops during those years owing to scanty rainfall.
5	R 4980-1—L R 458-09-19	1	Rev. Comr. and Dy. Comr., Tumkur	Observing, with reference to the Revenue Commissioner's Inspection Notes of the Tumkur District Office and the Gubbi Sub-Division Office in June 1910, that the procedure of keeping by taluk remission statements for compilation of a consolidated list for the whole district is incorrect and that the remission statement for each taluk should have been disposed of as soon as it was received in the District Office.
6	R 4982-3—L R 458-09-20	1	Rev. Comr. and Dy. Comr., Kolar	Observing, with reference to the Revenue Commissioner's Notes of Inspection of the District and Taluk Offices of Kolar and the Sub-Division Office of Malur in June 1910, that early action should be taken for the disposal of the papers in the District Office and papers not allowed to accumulate in any of the offices subordinate to the Deputy Commissioner.
7	R 4984-5—L R 458-09-21	1	Rev. Comr. and Dy. Comr., Bangalore	Observing, with reference to the Revenue Commissioner's Notes of Inspection of the District and Taluk Offices of Bangalore in June 1910, that the Deputy Commissioner should see that as few papers are left in arrears as possible and that large arrears of current work cannot but be regarded as an index of slack administration on the part of the Officers concerned.
8	R 5008—L R 153-10-14...	2	Rev. Commissioner ...	Recording his letter submitting the statement of promotions given to officials in the Shimoga District during the quarter ended 31st December 1910.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
9	R 5009—L R 7-09-37 ...	2	Nanjappaiya, shanbhog of Udse and other villages in Mudgere Taluk	Rejecting his appeal petition praying for remission of the fine of Rs. 5, imposed on him by the Deputy Commissioner and confirmed by the Revenue Commissioner, for having made some incorrect statements in the Takrar Tahkta for 1908-09.
10	R 5011-2—L R 87-10-2 ...	2	Rev. Comr. and Dy. Comr., Hassan	Recording the Deputy Commissioner's letter forwarding a copy of the reply given by him to the notice issued through her advocate by Narasamma, widow of Mirle Subrayasastri, claiming damages to the extent of Rs. 200, on account of loss sustained by her in not having been put in possession of certain land purchased by her husband in a Revenue sale on 15th April 1905, with the observation that the delay and irregularities brought to notice in this case are distressing
11	R 5017—L R 323-09-6 ...	2	Venkategowda of Thigalarahalli, Kankanhalli Taluk	Rejecting his review petition in the matter of his right to take water from the eastern sluice of the Alasandra tank by a defined channel across Timmegowda's land, as Government see no fresh grounds to reconsider their order
12	R 5038-9—L R 157-10-5...	4	Rev. Comr. and Survey Supt.	Sanctioning the grant, free of price, of 4 acres of land in the Harohalli tank bed, Bangalore Taluk, to one V Armugam Mudaliar (residing in the Bangalore Fort) for cultivation on full assessment, in consideration of his ancestors having executed several charitable works.
13	R 5040—L R 157-10 ...	4	V. Armugam Mudaliar...	Informing him of the above order.
14	R 5041-2—L R 27-10-51...	4	Rev. Comr. and Dy. Comr., Chitaldrug	Recording the Deputy Commissioner's letter reporting the occurrence of an accidental fire in the village of Gudihalli, Harihar Sub-Taluk, on the 22nd January 1911, which resulted in the destruction of thirty-three sheds and five thatched houses together with property worth about Rs. 1,000, and also in the death of an old woman and two calves.
15	R 5043-4—L R 15-10-56...	4	Comptr. and Rev. Comr.	Sanctioning a potgi bill for Rs. 150-1-11, on behalf of the village officers of the Nanjangud Taluk for 1903-04.
16	R 5046—L R 181-10-4 ...	4	Rev. Commissioner ...	Recording his letter submitting copies of statements showing the disposal of darkhasts for lands for cardamom cultivation in the Kadur and Hassan Districts during the quarter ending 31st December 1910, with the observation that the pending darkhasts should be disposed of early.
17	R 5051-3—L R 24-10-31...	4	Rev. Comr., Survey Supt. and Comptr.	Sanctioning the payment of an increased potgi of Rs. 700-4-0, to the village officers of the Malvalli Taluk, due to the decennial revision of their remuneration.
18	R 5054 ...	4	Rev. Commissioner ...	Requesting him to take steps to ensure greater despatch of work in the Anekal Taluk Office, as the 2nd Councillor during the course of his inspection of that office in January 1911, found a number of darkhasts pending for more than a year.
19	R 5055—L R 33-10-9 ...	4	Do ...	Declining to reconsider their previous order directing that G. N. Madhava Rao, Head Clerk of the Chitaldrug District Office, may be started on the initial pay of the appointment, *viz.*, 80, together with a personal allowance of Rs. 20, to be absorbed as he reaches the higher stages of the progressive pay, as he has already been treated with sufficient liberality.
20	R 5056-7—L R 27-10-47...	4	Rev. Comr. and Dy. Comr., Chitaldrug	Recording the Deputy Commissioner's letter reporting the occurrence on 6th February 1911, of an accidental fire in the Mudahadadi village,

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
				Davangere Taluk, which resulted in the destruction of twenty-six houses and fifteen kanas together with property worth about three or four thousand rupees.
21	R 5058—L R 27-10-49 ...	4	Rev. Commissioner ...	Recording the report of occurrence of an accidental fire on the 18th January 1911, in the Aralikatte village, Channagiri Taluk, which resulted in the death of a boy and the destruction of four houses.
22	R 5059—L R 15-10-58 ...	4	Comptroller ...	Sanctioning a potgi bill for Rs. 22-8-0, on behalf of the patel of Aklapur village, Tirthahalli Taluk, for 1907-08.
23	R 5065—L R 124-10-8 ...	6	Compiler, *Mysore Gazette*	Notifying the extension by two months of the leave on Medical Certificate for four months granted to Mr. K. Lingopanth Badami, *sub pro tem* Amildar, in Notifications Nos. C. 28—L. R. 142-10-2 and R. 4611—L. R. 124-10-7, dated 8th October 1910 and 11th February 1911, respectively and the continuance of the existing acting arrangement at Malvalli.
24	R 5067—L R 260-10-2 ...	6	Do ...	Notifying the grant of privilege leave of absence for one month and ten days to Mr. T. G. Rama Iyer, Probationary Assistant Commissioner, now in charge of the District Treasury at Chitaldrug, with effect from 6th April 1911, or other subsequent date.
25	R 5068—L R 23-10-16 ...	6	Do ...	Notifying that H. Srinivasa Iyengar, Taluk Sheristadar of Mysore, acted as Amildar of that taluk from 30th September to 23rd October 1910, both days inclusive.
26	R 5069—L R 211-10-2 ...	6	Rev. Commissioner ...	Recording the Chitaldrug Deputy Commissioner's letter reporting on the embezzlement of Government money to the extent of Rs. 371-9-0, by Shanbhog Kasi Rao *alias* Honnappa of Doddasiddavanahalli in the Chitaldrug Taluk, with the observation that according to rule 92 of the Land Revenue Rules, it is the patel and not the shanbhog, who is responsible for the safe custody of all the revenue collected by the former and he becomes personally responsible to make good the amount if he fails to recover it or account for it, in the usual course.
27	R 5071-2—L R 197-10-2...	6	Rev. Comr. and Survey Supt.	Stating that as the revision of the Survey Settlement of the Goribidnur Taluk is not far off, it will not be expedient to interfere with the settlement in force in regard to such of the lands as cannot be irrigated by the Hoskere and Muduganakunte tanks in the Gangasandra village of that taluk.
28	R 5090—L R 4-10-63 ...	6	Sesha Dikshit of Nanjangud	Rejecting his appeal petition against the Revenue Commissioner's order declining to grant him certain piece of land adjoining his own Survey No. 1215, in Kasaba Nanjangud, the reservation of the land to Government being considered necessary by local officers.
29	R 5091—L R 4-10-63 ...	6	Rev. Commissioner ...	Forwarding a copy of the above for information.
30	R 5112—L R 276-10-2 ...	6	Dy. Comr., Kadur ...	Stating that, if there is no objection, Mr. Land may be put in possession of portions of Survey Nos. 4 and 5 of the Banakal village, Mudgere Taluk, in accordance with the decision of Government in Appeal No. 4 of 1909, subject to his paying the revised assessment and abiding by the other alterations made by the Survey Department.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
31	R 5113—L R 276-10-2 ...	6	Survey Superintendent...	Forwarding a copy of the above with other necessary papers, with a request that the necessary corrections in the Survey records may be made without further delay.
32	R 5114—L R 276-10-2 ...	6	Rev. Commissioner ...	Forwarding a copy of the above letter addressed to the Deputy Commissioner.
33	R 5116-8—L R 110-10-11	7	Sir P. N. Krishnamurti, K. C. I. E., Jahgirdar of Yelandur, Comptr. and I.-G. of Police	Agreeing to the appointment of Mr. M. Vasudeva Rao, as Acting Amildar of the Jahgir being continued as notified in Notification No. R. 4670, dated 14th February 1911, and to salary of Rs. 120 being paid to him during that period, with the observation that this should not be understood as implying that Vasudeva Rao will be an Amildar in the State Civil List.
34	R 5121—L R 2-10-52 ...	7	Rev. Commissioner ...	Forwarding the petition of Syed Peer, Pensioned Dafadar, Imperial Service Regiment, praying for free grant of 15 acres of land in the Yachinpalli village, Srinivaspur Taluk, in consideration of his past service, for favorable consideration with the remark that he may be granted the land on condition that he will not alienate it within three years of its grant, without the permission of the Deputy Commissioner.
35	R 5128-31—L R 398-09-5	7	Chief Engr., Rev. Comr., Presdt., Dist. Board, Mysore and Consvr. of Forests	Sanctioning the construction of a bridge across the Bhrigu river otherwise known as the Nugu on the Hunsur-Begur road at an estimated cost of Rs. 45,000, one-third of it being met from the Mysore District Funds and the remaining two-thirds from the Local Funds General, with a request to the Chief Engineer to make the necessary provision for the bridge in the next year's budget.
36	R 5132-41—L R 177-10-2	7	Comptr., Rev. Comr. and Dy. Comrs. of Dts.	Directing, in modification of Government Orders Nos. R. 1506-9—L. R. 240-09-10, dated 5th September 1910 and R. 1497-8—L. R. 238-09-19, dated 5th September 1910, that the cost incurred in the cases therein referred to, be adjusted in the manner indicated in the order of 1907; and that Law charges incurred in Land Acquisition cases of the kind under reference be also treated as part of the cost of acquisition and adjusted in the same manner.
37	R 5149—L R 3-10-65 ...	7	Timmappaiya, Chikkanna Setti and other raiyats of Hasige hobli village, Kunigal Tk.	Informing them that they have already been told that they are entitled to all the privileges enjoyed by other raiyats, who do the annual maintenance work of their village tanks and that the acreage cess for the years subsequent to 1907 cannot be remitted, nor the cess recovered from them for 1907 held in deposit, as the amount is required to put in order the Deepambudi tank and its channels.
38	R 5152—L R 51-10-16 ...	8	Dy. Comr., Bangalore ...	Requesting that the areas Rochdale Park and Buxton Villa may, in compliance with the wishes of the Assistant Commanding Royal Engineer, Bangalore, be constituted into two separate survey numbers, if there be no objection to such a course.
39	R 5153—L R 51-10-16 ...	8	Survey Superintendent...	Forwarding a copy of the above
40	R 5154—L R 1-10-67 ...	8	H. Krishna Rao, Arodi Jodidar, Bangalore	Informing him that no further concessions can be shown in the matter of payment of the balance of the contribution amount still due on account of the restoration of his village tank
41	R 5155—L R 1-10-67 ...	8	Dy. Comr., Bangalore...	Forwarding a copy of the above, with the observation that if the measures taken by the local authorities are sufficiently prompt and vigorous, there will be less scope for these repeated representations

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
42	R 5159—L R 271-10-2 ...	8	Rev. Commissioner ...	Recording his letter submitting the statement of remissions of irrecoverable arrears of revenue sanctioned by him during the half-year ending 31st December 1910.
43	R 5160—L R 267-10-2 ...	8	Do ...	Recording his letter forwarding a copy of his order to the Deputy Commissioner, Hassan, issuing instructions as to the cases in which the substance of the papers selected for destruction should be entered in the Records Destruction Register.
44	R 5161-2—L R 265-10-2...	8	Rev. Comr., Mycologist and Entomologist	Sanctioning the remission of one-fourth of the wet assessment amounting to Rs. 1,712-13-7, on the lands in the villages of Neerlage, Mallapur and Kubatur in the Sorab Taluk, the wet crops on which were destroyed by the locusts in 1909.
45	R 5166—L R 153-10-14 ...	8	Rev. Commissioner ...	Recording his letter submitting the statement of promotions given to the officials in the Chitaldrug District during the quarter ended 31st December 1910, and stating that no fresh men were entertained during the period.
46	R 5167-8—L R 261-10-2...	8	Rev. Comr. and Comptr.	Sanctioning the entertainment permanently of M V. Rangappa, B A , who is over twenty-five years of age, as a clerk in the Revenue Commissioner's Office on Rs 25 per mensem, from 25th January 1911.
47	R 5173-5—L R 173-10-4...	8	Rev. Comr., Survey Supt. and Inam Supt.	Sanctioning the grant of certain lands as Service Inam to the two kulavadis of the newly formed Huvinahalli kaval village in the Hassan Taluk, the lands being subjected to a jodi of one-fifth of the assessment.
48	R 5176—L R 27-10-53 ...	8	Rev. Commissioner ...	Recording his letter reporting the occurrence of an accidental fire on the 19th January 1911 at Kadasettihalli in the Tiptur Taluk, which resulted in the destruction of twelve huts with property worth about Rs 1,130 8-0, and stating that necessary relief has been ordered to be given to the sufferers.
49	R 5177—L R 12-10-73 ...	8	Curator, Govt. Book Depot, Bangalore	Requesting him to supply the Probationary Assistant Commissioner in charge of the Malvalli Taluk, with certain books.

9	Fl 4786-8—96-07 ...	13	Secy., P. W. D., Railways and Comptr., P. W. D.	Forwarding for needful action to the Secretary, Public Works Department and Railways the notes of Mr. T. Lakshminarasimha Rao, in connection with his deputation to Madras to acquaint himself with the practical working of the Public Works System and to undergo a course of training in the Railway Accounts in the Office of the Examiner, Guarranteed Railway Accounts, and observing that Government note with satisfaction that Mr. Lakshminarasimha Rao has used the period of his deputation usefully and for good purpose.
10	Fl 4791-3- 339-10-2 ...	13	Comptr. and Census Supt. (thro Rev. Comr.) and Supt., Govt. Press	Sanctioning the transfer of the sum of Rs. 3,850 from the Census to the Press Budget on account of the expenditure for printing Census Procedure Code, forms, etc., having been met from the latter budget.
11	Fl 4809-11—257-10-5 ...	15	Comptr. and Dy. Comr., Bangalore, and Regr., Chief Court	Sanctioning the grant of an advance of one year's pay to Mr. L. Shame Gowda, Deputy Translator, Chief Court, for building a house on a site near Ramakrishna Matt, Bangalore City.
12	Fl 4834-5—346-10-2 ...	16	Comptr. and Dy. Comr., Bangalore, and Regr., G. R S.	Sanctioning the grant of an advance of six months' pay to Ayya, scavenger, General and Revenue Secretariat, for building a house in Kalasipalya, Bangalore City.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
13	Fl 4852-3—319-10 ...	17	Comptr., and Chief Engr.	Sanctioning the proposal of the Chief Engineer that the item of " 8 Vani Vilas Water Works" may be removed from the list attached to Government Order No. Fl. 5715-24, dated 19th May 1910 directing certain Heads of Departments to prepare the estimates of revenue and expenditure of the funds under their control for the Ways and Means Estimates, on the ground that the annual contribution of Rs. 5,000 hitherto paid by the Mysore City Municipality towards the depreciation fund of that work will cease from 1910-11.
14	Fl 4854-93—297-10 ...	17	Comptr., and Rev. Comr. and Dy. Comrs. of Districts	Recording the report on the Resource Operations in the State for the year 1909-10 submitted by the Comptroller with the observation that during the last year the supply bills were utilised to a larger extent the gain to the State being Rs. 270 more than in the previous year and that it is hoped that with wider publicity and a gradual increase in the number of Treasuries upon which the bills could be drawn the scheme will become popular.
15	Fl 4864—328-10 ...	17	Comptroller ...	With reference to his recommendation for the grant of an allowance of Rs. 75 per mensem to Mr. Shamanna, Assistant Commissioner for the period of his stay at Madras on the ground that Mr. T. Laksminarasimha Rao was given a similar allowance, pointing out that the latter officer was given an allowance of Rs. 40 when he was in Madras for training in Civil Accounts and that the grounds for a higher allowance now asked for are not borne out by facts and are therefore incorrect.
16	Fl 4868-70—350-10 ...	17	Comptr., Dy. Comr., Bangalore, and Regr., Chief Court	Sanctioning the grant of an advance of one year's pay to Yellappa, a Peon in the Chief Court for building a house in Malleswaram extension, Bangalore City.
17	Fl 4871—357-10 ...	17	Comptr., P. W. and Railways	Conveying sanction to the entertainment of T. Subba Rao, a retired Clerk of the Railway Secretariat as a temporary sorter on Rs. 20 per mensem in the Public Works and Railway Branch of the Comptroller's office.
18	Fl 4873-4—347-10-2 ...	17	Comptr., and Chief Inspector of Mines	Sanctioning the grant of an advance of one year's pay to Mr. C. E. Suryanarayana Rao, Mining Assistant, for building a house in Shankharpur extension, Bangalore City.
19	Fl 4876-8—386-10-2 ...	17	Comptr. and Dy. Comrs. of Bangalore and Tumkur	Sanctioning the grant of an advance of one year's pay to Mr. H. T. Narna Iyengar, Probationary Inspector, Tumkur for building a house in Malleswaram extension, Bangalore City.
20	Fl 4896 ...	18	Comptroller ...	Conveying sanction to the following acting arrangements recommended by the Comptroller for his office establishment :— 1. H. N. Kallappa on Rs. 140, to act in the grade 150-10-200 from 16th November to 4th December 1910 *vice* Mr. Subramiah on privilege leave from 16th November 1910 to 13th January 1911. 2. H. Murthi Rao on Rs 120 to act in the grade of 150-10-200 from 5th December 1910 to 13th January 1911. 3. A. Balakrishna Mudaliar on Rs. 90 to act in the grade of 100-10-150 from 16-11-1910 to 4-12-10. 4. C. Raghunatha Rao on Rs. 85 to act in the grade of 100-10-150 from 5-12-1910 to 13-1-11.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
				5. B. Keshavachar on Rs. 65 to act in the grade of Rs. 70-5-100 from 16-11-1910 to 30-11-10. 6. Mr. F. E. Michael on Rs. 65 to act in the grade of Rs. 70—5—100 from 1st December 1910 to 13th January 1911.
21	Fl 4905-6—217-10-2 ...	18	Comptr., P. W. and Railway Branch	Conveying sanction of Government to the following promotions in the Public Works and Railway Branch of the Comptroller's Office :— 1. A. Narasimha Murthi, Senior Accountant from 3rd grade to 2nd grade *Sub-pro tem* from 1st June 1909. 2. A. Tholasinga Mudaliar from 3rd grade to 2nd grade *Sub pro tem* from 1st June 1909 to 15th August 1910 *vice* A. Narasimha Murthi on deputation. 3. B. Srinivasaiengar from 4th grade to 3rd grade *Sub pro tem* from 1st to 4th June 1909. 4. K. Nanjundiah from 4th to 3rd grade *Sub pro tem* from 5th June 1909 to 15th August 1910. (Note:—Arrangements 3 and 4 *vice* Tholasinga Mudaliar.) 5. M. Krishnamurthi from 4th to 3rd grade from 1st June 1909.
22	Fl 4926—263-10-2 ...	23	Supt. of Stamps ...	Informing him that the application of C. Seshagiri Rao, Mutchi and Book-binder of his office for a house building advance cannot be granted as it is ordinarily inadmissible to give advances for repairing houses.
23	Fl 4889—300-10 ...	23	Dy. Comr., Mysore ...	Conveying sanction to the suggestion of the Public Prosecutor in respect of converting the existing decree against Davood Sab, Brass and Copper Merchant, Mysore into an instalment decree.
24	Fl 4934—393-10-2 ...	23	Comptroller ...	Sanctioning the distribution of the lump-sum grant of Rs. 5,000 provided in the budget estimate for 1910-11 for the Local Audit Scheme among the heads shown below :— Rs. 1. Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
25	Fl 4945—151-10 ...	24	Govindiah of Hindiganal village, Hoskote Tk.	In replying to his petition stating that the management of his lands mortgaged to Government is in a very unsatisfactory condition and offering to pay up the debt due to Government, if the property is freed from Government management and placed in the hands of the owners, informing him that Government have no reason to think that the management is unsatisfactory, that the Deputy Commissioner, Bangalore District, has however been called upon to make a detailed report in the matter, that as regards his request for the restoration of the mortgaged villages to the possession of the owners, since the remaining parties join him in his prayer, informing him that according to the information of Government, his statement is not true, that they are not prepared to accede to his request, that as for his hope to raise money elsewhere for paying off the debt, Government regret that while they would be glad to afford all facilities to the intending creditors, they are not prepared to relinquish their hold on the property till the whole debt is entirely paid up and that they cannot deal with any of the parties separately, etc.
26	Fl 4946—151-10 ...	24	Dy. Comr., Bangalore	Forwarding copy of the above for information.
27	Fl 4510-11—294-10 ...	28	Comptr., Mily. Secy. to H. H.	According sanction to the Amrut Mahal Superintendent's proposal to raise the grant under "Training Depot and Repairs to Carts" from Rs. 250 to Rs. 1,300 and noting that the extra cost will be transferred to the Imperial Service Transport Corps indirectly by raising the price of trained bulls.
28	Fl 4543-5—423-10-2 ...	29	Comptr., and Dy. Comr., Bangalore, and Supt., Rev. Survey	Sanctioning the grant of an advance of one year's pay to Srinivas Ramachendra Rao, Kharkun, Survey Office, for building a house in Chamrajpet, Bangalore City.
29	Fl 4576-8—443-10 ...	30	Secy., P. W. D., Comptr. and Comptr., P. W. and Ry. Branch	According sanction to a reappropriation proposed by the Secretary, Public Works Department and to an additional grant of Rs. 48,500 over the sanctioned allotment of 27 lakhs of rupees, with the observation that provision for incomplete works should generally be made in the Public Works budget in future years before any such works are included.
30	Fl 4579—309-10 ...	15	Dy. Comr., Mysore ...	In the matter of the amount to be entered in the application of the Deputy Commissioner to the Court to convert the existing decree against Davood Sab, Brass and Copper Merchant, Mysore, into an instalment decree, informing him that as has been pointed out by the Advocate, no amount more than what has been decreed by the Court can be claimed and that the figure to be entered in the application must therefore be calculated on the basis of the decree alone.

FINANCIAL SECRETARIAT.
Bangalore, 31st March 1911.

J. S. CHAKRAVARTI,
Financial Secretary.

SECTION 2—SEPARATE REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 4632-3—S R 255-09 ...	1	Ex. Comr., and Comptr.	Directing that the refund of the excess amounts drawn by Mr. A. J. Donne and his predecessor while in charge of the Central Distillery, Bangalore, be waived as a special case, and pointing out that the allowance of Rs. 20 now drawn by the Inspector in charge of the Distillery is unauthorised, as, under the order of 30th November 1903, an Inspector of a grade less than Head Inspector working in the Distillery is only entitled to an allowance of Rs. 15 and that this mistake should be rectified.
2	Fl 4649—S R 42-10-2 ...	3	Excise Commissioner ...	Reducing to Rs. 10 for reasons explained the fine of Rs. 50 imposed on Srinivasa Mudaliar, Contractor, arrack shop No. 3, Ulsur Petta, Bangalore City, for unauthorizedly shifting his shop from its present site to another.
3	Fl 1654-60—S R 50-10 ...	3	Excise Commissioner, Inspector-General of Registration, Deputy Commissioner, Bangalore, Chief Engineer, Registrar, Chief Court, Inspector-General of Police and Comptroller	Sanctioning the proposal of Excise Commissioner to rent on Rs. 100 a month, the second bungalow next to the Census Office, Cunningham Road, for locating the office of the Excise Commissioner, Inspector-General of Registration and the Stores of the Excise Department and approving of certain proposals made by the Deputy Commissioner, Bangalore District, for the reallocation of rooms in the District Office buildings.
4	Fl 1693—S R 91-10-2 ...	4	Compiler, *Mysore Gazette*	Notifying that under Section 67 of the Excise Regulation V of 1901 and in exercise of all other powers enabling them in this behalf, the Government of His Highness the Maharaja of Mysore are pleased to invest the officers noted below with power under Section 67 of the Excise Regulation (power to compound offences):—The District Excise Officers of the status of Amildars.
5	Fl 4714—S R 61-09-1 ...	6	Ex. Comr. and Comptr.	Sanctioning the recommendation of the Excise Commissioner for writing off the accounts the arrears of tree tax, *viz.*, Rs. 102 due by Chinnegowda, purchaser of the Mahaloor toddy shop in the Chikmagalur Taluk as these are no means of recovering the same and observing that the explanation of the Excise Inspector who is mainly responsible for the non-recovery of the amount is unsatisfactory and reveals an incorrect appreciation of his duty in the matter of the recovery of excise arrears.
6	Fl 4752-3—S R 17-10 ...	7	Do ...	Conveying sanction to Krishnamurti Rao, Storekeeper of the Excise Commissioner's Office, drawing the local allowance of Rs 20 for the period of one month during which he acted for Ranga Rao Naidu as Inspector of the Excise Training School when the latter was laid up with typhoid fever.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
7	Fl 4754-5—S R 42-10 ...	7	Ex. Comr. and Comptr.	In the matter of the appeal of Shamanna Udupa, toddy contractor, Nagar Taluk, against the order of the Excise Commissioner declining to interfere with the Shimoga Deputy Commissioner's order directing the levy of a fine of Rs. 15 from him for not bringing into operation Gadinerle and 2 other arrack shops from 1st July 1909 and also recovery of losses to the extent of Rs. 185-4-0 sustained by Government on account of reopening of Hunncha and another arrack shop, observing that instead of levying the amount of the so called losses from the petitioner, a heavy fine should have been inflicted for both the groups of shops, as there was nothing to prevent the officers of the Excise Department from making their arrangements to reopen the shops and that in this view a fine of Rs. 50 for each of the two groups of shops is sufficient and directing the levy of it accordingly.
8	Fl 4765 ...	8	Mr. K. V. Kodandarama Iyer, Inamdar of Damangondi village, Channapatna Taluk	With reference to his memorial praying for a reconsideration of Government Order disallowing his claim to the toddy revenue of his village, informing him that Government see no reason to revise the order and that his memorial is therefore rejected.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
9	Fl 4778-9—S R 19-10 ...	10	Ex. Comr. and Comptr.	According sanction to the Excise Commissioner taking a horse and carriage at Government cost from Bangalore to Shimoga for the journey to be performed to see what can be done to put a stop to illicit distillation of arrack in the latter District, with the observation that the cost of the return journey should be borne by himself.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
10	Fl 4902-3—S R 164-06-4	18	Ex. Comr. and Comptr.	Sanctioning the refund of the amount paid by Kunte Gowda, licensee of Chunchankatte jatra shop for the years 1898-99 and 1899-00 and directing that the amount outstanding against him be written off the accounts.
11	Fl 4911—S R 40-10-2 ...	21	Excise Commissioner ...	Regarding the question of funds for the construction of combined Sub-Registrar's Office and Bonded Ware-houses in the State, stating that the matter will be considered in connection with the Budget for 1911-12 and declining to sanction the additional grant for that purpose this year.
12	Fl 4912—S R 40-10-2 ...	21	Chief Engineer ...	Forwards copy of the above with instructions that suitable provision should be made for the said work in the next year's Budget.
13	Pol 849 ...	22	First Asst. to the Hon'ble the Resident	Forwarding for transmission to the Accountant-General, Madras a statement of stamps supplied to the Hon'ble the Resident's Treasury and of the spoilt stamps returned to the Superintendent of Stamps in Mysore during February 1911.
14	Fl 4917-18—S R 88-06...	23	Ex. Comr. and Comptr.	Sanctioning with certain modifications, a refund bill for Rs. 7,375-10-8 on account of toddy revenue due to the Inamdar of Mangala village in the Chamrajnagar Taluk for the years 1892-93 to 1905-06.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
15	Fl 4957—S R 135-10-2 ...	25	Compiler, *Mysore Gazette*	Notifying that tenders are invited for the exclusive privilege of establishing Bonded Depots at the localities specified and transporting thereto arrack, etc., from the Bangalore Government Distillery and distributing it thereat to the arrack shop-keepers attached to the said depots for a period of five years from 1st July 1911.
16	Fl 4958 ...	25	Excise Commissioner ...	Forwarding copy of the above for information.
17	Fl 4508—S R 49-10 ...	27	Compiler, *Mysore Gazette*	Notifying the grant of furlough for six months from 20th April 1911 to Mr. H. H. Sparkes, Excise Commissioner, Inspector-General of Registration, Commissioner of Stamps, etc., and making the following arrangements :— (1) Mr. K. Dorasami Iyer, Deputy Commissioner, Tumkur District, to act for him during his absence or until further orders, (2) Mr. M. Shama Rao, M.A., Registrar of Co-operative Societies, to act as Deputy Commissioner and District, Magistrate, Tumkur, and (3) Mr. M. A. Narayana Iyengar, B.A., B.L., to do duty as Registrar of Co-operative Societies.
18	Fl 4512--S R 103-10 ...	28	Excise Commissioner ...	Sanctioning as a tentative measure his proposal to employ a contractor for supplying ganja to the State from British India, with the observation that the Excise Commissioner should intimate for the information of Government the details of the arrangements he proposes to make in the matter, *viz.*, the terms of the contract, the period during which it is to be in force and how the contractor is to be selected, together with a draft Notification inviting tenders in this connection.
19	Fl 4513-4—S R 10-10 ...	28	Comptr., and Dy. Comr., Mysore	Sanctioning the refund of Rs. 6 being the value of stamp papers produced by one Narasimha Desikachar.
20	Fl 4527-8—S R 10-10 ...	29	Do ...	Do do of Rs. 5 do by one Ranganna.
21	Fl 4560—S R 604-10-3 ...	30	Ex. Comr., and Comptr.	Regretting that Government cannot approve of the action taken by the Excise Commissioner in accepting the tender of Thimmiah and another for the year 1911-12 to take up the toddy shops of the Bangalore City, Goribidnur Town and Doddakurugod village for the current year's rental on condition that they show material improvement in the up-keep of the groves of the Goribidnur Taluk assigned to the said toddy shops.

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st March 1911.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

SECTION 3—BANKING

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 4582-3—B 28-10 ...	1	Comptr., Secy., Insurance Committee, and Rabia Bi	Sanctioning the payment of the bouns due on the policies held by the late Ismail Beg, Perforator, Stamp Manufactory, Bangalore to his widow Rabia Bi conditional on her executing a bond of indemnity with two sureties considered sufficient by the Insurance Committee.
2	Fl 4716—B 8-09 6 ...	4	Dy. Comr., Kadur ...	With reference to his letter No. 398, dated 14th April 1910, in the matter of maintaining accounts of the late Agricultural Bank at Chikmagalur in regard to the amount due from Saraswathamma, widow of Mr. Ganesh, an indebted member of the Bank, stating that no accounts need be kept the balance outstanding being written off the accounts, that the object of reserving a lien on the properties specified was to secure them for Saraswathamma's maintenance against other creditors and that if she wishes it, the reservation may be cancelled, the properties being left to her obsolutely.
3	Fl 4715—B 9-10 ...	4	Saraswathamma, widow of the late Mr. Ganesh Rao, a member of the late Agri. Bank at Chikmagalur	With reference to her prayer for the restitution of the Balur coffee lands auctioned on account of the debt due by her husband on the ground that the principal amount has been repaid in full, informing her that Government see no reason to reconsider Order No. Fl. 4822-3, dated 29th March 1910, as it is found that a sum of Rs. 2,141 is still outstanding against her, and that her statements that she has paid Rs. 33-10-0, more than the amount due and that the estate was sold before the three year's time given to her were not found to be correct.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
4	Fl 4847—B 37-09-5 ...	16	Compiler, *Mysore Gazette*	Notifying the amendment of Rule 10 of the Insurance Rules providing for an uniform rate of surrender value, *viz.*, 60 per cent of the premium paid without interest in all cases in which an insured ceases to be in service and elects to surrender his policy.
5	Fl 4831-3—B 11-10 ...	16	Comptr., Regtr. of Co-operative Societies, and Dy. Comr., Mysore	Recording letter No. 794 dated 4th March 1911 from the Registrar of Co-operative Societies reporting that he has selected G. Nanjappa, retired Police Inspector, Heggaddevankote taluk as an Honorary Supervisor of Co-operative Societies for the Nanjangud, Chamrajnagar and Heggaddevankote Taluks.

SECTION 6—STATISTICS AND CENSUS

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR MARCH 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 4601—Cen 38-10 ...	1	Census Supt. (*thro'* Rev. Comr.)	With reference to his letter No. 2482, dated 18th February 1911, *re* the classification of Darjis, Banajigas and Satanis, stating that the orders already issued furnish the principles on which these questions should be decided, that Government are not much concerned what name a caste designates itself by so long as the designation is distinguishable from those of others who do not belong to the same caste, and that Satanis may return themselves as Venkatapur Brahmins and Darjis may call themselves as Bhavasar Kshatrias, etc.
2	Fl 4606—Con 6-10-9 ...	2	Compiler, *Mysore Gazette*	Notifying that Mr. A. Mrityunjaya Iyer, B.A., Assistant to the Census Superintendent in Mysore, having availed himself of the privilege leave sanctioned to him in Government Notification No. Fl. 3296—Cen. 6-10, dated 20th December 1910, from 19th to 23rd December 1910 and returned to duty on the 3rd January 1911, the unused portion of the leave, *viz.*, six days is hereby cancelled.
3	Fl 4620—Cen 32-10-6 ...	2	M. R. Ry. Parthasarathacharya, Secy., Viswa Brahma Sabha, Santhepet, Mysore.	Informing him that his petition praying that the Panchalas may be classified as Viswa Brahmins in the census schedules, has been forwarded to the Census Superintendent for disposal according to rules.
4	Fl 4766-7—Con 24-10 ...	8	Census Supdt. (*thro'* Rev. Comr.) and Comptr.	With reference to the Census Superintendent's proposal that he has permitted his Assistant Mr. Sadasiva Rao to take his bicycle by rail to enable him to proceed on emergent inspection duty within the State and requesting confirmation stating that as Mr. Sadasiva Rao draws a pay of Rs. 175, the rules in Article 540 do not apply to him.
